[1] The Fund terminated on 23 October 2025.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the period. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the period and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the period is available, upon request, at no extra cost from the Administrator.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

[1] The Fund launched on 4 November 2025.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the period. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the period and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the period is available, upon request, at no extra cost from the Administrator.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

Notes to the Financial Statements

1. General Information.

Vanguard Funds plc, an open-ended investment company with variable capital, was incorporated in Ireland as a public limited company on 24 May 2011. The Company is authorised by the Central Bank as an undertaking for collective investment in transferable securities pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) and the Central Bank (Regulations and Enforcement Act 2013 (section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations, 2019.

The Company issues shares as “ETF Shares” that are intended to be actively traded on both the primary market and secondary market. Vanguard LifeStrategy 20% Equity UCITS ETF, Vanguard LifeStrategy 40% Equity UCITS ETF, Vanguard LifeStrategy 60% Equity UCITS ETF and Vanguard LifeStrategy 80% Equity UCITS ETF (the “Asset Allocation Funds”) primarily invest in underlying collective investment schemes. To achieve the targeted allocation of assets of their investment objectives, the Asset Allocation Funds substantially invest in other Funds of the Company.

The Company is organised as an umbrella fund with segregated liabilities between funds. During the year ended 30 June 2026 the Company had 42 constituent funds, 5 closed funds and 9 that have not yet commenced trading or have launched subsequent to year-end (each a “Fund”, collectively the “Funds”) (30 June 2025: 37 constituent funds, 5 closed funds and 1 that has not yet commenced trading).

The investment objective of each Fund may be found in the relevant prospectus or, where applicable, in each Fund's standalone supplement.

The following Funds are outstanding on 30 June 2026:

Vanguard Global Value Factor UCITS ETF	25 February 2021
Vanguard ESG USD Corporate Bond UCITS ETF (the “ESG USD Corporate Bond UCITS ETF”)	23 October 2025

The Central Bank of Ireland revoked the authorisation of Vanguard GBP Corporate Bond UCITS ETF on 12 November 2024 and Vanguard Euro STOXX 50 UCITS ETF on 21 November 2025.

2. Basis of Presentation.

The financial statements are prepared in accordance with accounting standards generally accepted in Ireland, including Financial Reporting Standard FRS 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland issued by the Financial Reporting Council (the “FRC”), Irish statute comprising the Companies Act 2014, as amended, the UCITS Regulations, the Central Bank UCITS Regulations and the Listing Rules of the Euronext Dublin.

To more appropriately reflect the Company’s business as an investment fund, the Company has determined that the headings and sub-headings of the financial statements require adaptation from the requirements in the Companies Act 2014 and certain wordings and format of the financial statements have been adapted from those contained in FRS 102, Section 3.

A Cash Flow Statement has not been presented due to the exemption contained in FRS 102, Section 7.1A.

The information required by FRS 102 to be included in a statement of comprehensive income is contained in the Statement of Operations of each Fund and the Company.

The financial statements have been prepared on a going concern basis, subject to the historical cost convention, as modified by the revaluation of financial assets and liabilities at fair value through profit or loss (“FVTPL”). The ESG USD Corporate Bond UCITS ETF terminated on 23 October 2025.

Cross Investments. The Asset Allocation Funds invest in other Funds of the Company, which are disclosed in each Fund’s Statement of Investments. These cross investments and any related movements in realised or unrealised gains and losses on these investments have been eliminated in the Company’s financial statements (30 June 2025: same).

3. Significant Accounting Policies.

(a) Critical Accounting Estimates and Judgements. The preparation of these financial statements requires the use of certain accounting estimates and requires the Company to exercise judgement when applying the Funds' accounting policies. The estimates and associated judgements are based on historical experience and various other factors that are believed to be reasonable under the circumstances, which affect the classification of financial assets and liabilities, the carrying values of financial instruments, the fair value of certain financial instruments in instances where information is not readily apparent from other sources, as well as the functional currency of the Company and Funds. Refer to Note 3(d), Note 3(e) and Note 3(g) for further information.

Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future years if the revision affects both current and future years.

Assumptions and estimation uncertainties. Changes in data inputs and assumptions for valuation of financial instruments could affect the reported fair value of financial instruments and the differences could be material. See Note 4 for details on assumptions and sensitivities.

(b) Income Recognition. Dividends, whether cash or stock, are recognised as income when the securities are quoted ex-dividend. Special dividends are treated as either capital or income depending on the facts of each particular case. Income arising from collective investment schemes is recognised when the securities are quoted ex-dividend or when sufficient relevant and reliable information that establishes a right to this income has been obtained. Where income from collective investment schemes is reported in lieu of a distribution, such as when the units are held in an accumulation form, the amount reported is recognised as income. Equalisation returned with the distribution is deducted from the cost of the investment and does not form part of the distributable income.

In the case of debt securities, any difference between acquisition cost and maturity value is recognised as interest income over the life of the security using the effective yield basis of calculating amortisation.

The treatment of returns from financial derivative instruments is dependent upon the nature of the transaction. Returns are treated as Net Gains/Losses on Financial Instruments or income, as appropriate.

Interest income on cash is recognised on an effective interest basis.

Interest income from reverse repurchase agreements is recognized on an accrual basis.

Interest income on time deposits is recognised on an accrual basis.

Securities-lending income is recognised on an accrual basis. Securities lending income is recognised in the Statement of Operations. Investments lent under securities lending agreement continue to be recognised in the Statement of Assets and Liabilities, as the Company continues to be exposed to all gains and losses arising from the ownership of these securities and are measured in accordance with the accounting policy for financial instruments.

All income is recognised gross of any withholding taxes incurred.

(c) Taxation. Current tax is recognised as the amount of income tax paid or payable in respect of the taxable overseas net profit. Withholding taxes on foreign dividends and capital gains have been provided for in accordance with the Funds' understanding of the applicable countries' tax rules and rates and are shown as a separate line item in the Statement of Operations. Deferred taxation is provided on material timing differences that have originated but not reversed by the reporting date. Deferred tax is measured at the rates expected to apply for the year in which the timing differences will reverse. Deferred taxes are not discounted to reflect the time value of money and are only recognised to the extent they are expected to crystallise.

(d) Financial Assets and Financial Liabilities. FRS 102 requires a reporting entity to apply either (a) the full requirements of FRS 102 relating to Basic Financial Instruments and Other Financial Instruments Issues; (b) the recognition and measurement provisions of International Accounting Standards ("IAS 39"), Financial Instruments: Recognition and Measurement, and only the disclosure requirements of FRS 102 relating to Basic Financial Instruments and Other Financial Instruments; or (c) the recognition and measurement provisions of International Financial Reporting Standards ("IFRS") 9, Financial Instruments, and the disclosure requirements of FRS 102 relating to Basic Financial Instruments and Other Financial Instruments. The Company has elected to apply the recognition and measurement provisions of IAS 39 and the disclosure requirements of FRS 102.

Financial Instruments. Financial instruments include financial assets and liabilities such as fixed income and equity securities, collective investment schemes, reverse repurchase agreements, time deposits, cash and other receivables and payables.

Classification and Measurement. Financial assets and financial liabilities, which includes investments in transferable securities, reverse repurchase agreements, time deposits and financial derivative investments, are held for trading and classified and measured at FVTPL from their initial recognition. Gains and losses arising from changes in the fair value of financial assets or financial liabilities at fair value through profit or loss are presented as part of the Net Gains/Losses on Financial Instruments in the Statement of Operations, in the period in which they arise. Redeemable participating shares are classified as financial liabilities at amortised cost and are measured at the present value of the redemption amounts, which approximates their fair value. All other financial assets and liabilities are measured at amortised cost using effective interest method, which approximates fair value.

Recognition and De-recognition. Financial assets and financial liabilities are recognised when the Funds become a party to the contractual provision of the instruments. Purchases and sales of financial instruments are recognised on the trade date, being the date on which each Fund commits itself to the purchase or sale. Financial assets are de-recognised when the contractual rights to the cash flows from the instruments expire, or when substantially all the risks and rewards of ownership have been transferred. Financial liabilities are de-recognised when the Funds' contractual obligations are discharged, cancelled or expired.

When financial instruments are de-recognised, the realised gains and losses identified are recognised as part of the Net Gains/Losses on Financial Instruments in the Statement of Operations.

(e) Fair Value Measurement. Financial instruments are measured at fair value using a three-level hierarchy. Instruments are categorised in their entirety based on the lowest level input that is significant to the fair value measurement. Assessing the significance and observability of a particular input requires significant judgement specific to an asset or liability. Inputs are considered to be observable when they are readily available, regularly distributed or updated, reliable and verifiable, not proprietary and provided by independent sources that are actively involved in the relevant market.

Level 1 — Quoted prices in active markets for identical securities.

Level 2 — Other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 — Significant unobservable inputs (including the Fund's own assumptions used to determine the fair value of investments).

Equities. Equities (including warrants and rights) are valued at the latest available last traded value at year-end. Instruments traded on a recognised market are valued on the basis of valuations provided by a principal market maker or a pricing service. When applicable, unlisted and suspended instruments are based on the Investment Manager's assessment of their net realisable value or the last traded price from broker-dealers for non-exchange-trade purposes.

Collective Investment Schemes. Collective investment schemes ("CIS") are valued at their single price if a single price for buying and selling units or shares is quoted and the bid price if separate buying and selling prices are quoted. If, in the opinion of the Directors or its appointed competent person, no reliable price exists at the relevant Fund's valuation point or the price has been affected by events occurring between the close of the collective investment scheme's primary market and the relevant Fund's valuation point, the Directors or its appointed competent person will apply a value that is fair and reasonable. When a fair value price is employed, the price may differ from quoted or published prices for the same collective investment scheme.

Fixed Income. Fixed income (including To Be Announced ("TBA"), if applicable) securities traded in recognised markets are valued using the latest bid prices on the securities exchange in which they are principally traded or using valuations based on a matrix system (which considers factors such as security prices, yields, maturities and ratings), both as furnished by independent pricing services.

Financial Derivative Instruments. Futures contracts are valued in an active market if quoted prices are readily and regularly available; this represents the amount that would be required to close the position. Forward currency contracts are valued based on quoted forward exchange rates as provided by a reliable pricing service, bank or dealer. Total return swaps are valued using a pricing service; where no pricing service is available, contracts are marked-to-market daily based upon quotations received from counterparties or based upon calculations using valuation models.

Reverse Repurchase Agreements. Reverse Repurchase agreements are designated as financial assets at fair value through profit or loss, as they form part of a portfolio of financial instruments that is managed and its performance evaluated on a fair value basis. Given their maturity is less than seven days and they are subject to an insignificant risk of changes in value, their fair value is not considered materially different from amortised cost.

Time Deposits. Time deposits are designated as financial assets at fair value through profit or loss, as they form part of a portfolio of financial instruments that is managed and its performance evaluated on a fair value basis. Given their short-term nature and the application of prevailing market interest rates, their fair value is not considered materially different from amortised cost.

(f) Transaction Costs and Commissions. Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of an investment. These costs include fees and commissions paid to agents, advisors, brokers and dealers, and transfer taxes and duties. Transaction costs which are separately identifiable in the purchase and sale of financial instruments designated at FVTPL are disclosed in the Statement of Operations. For fixed income securities, certain ETFs and certain derivatives, transaction costs are not separately identifiable from the purchase or sale price and therefore cannot be disclosed separately.

(g) Foreign Currency. Functional currency is the currency of the primary economic environment in which the Funds operate. If indicators of the primary economic environment are mixed, then the Directors use their judgement to determine the functional currency that most faithfully represents the economic effect of the underlying transactions, events and conditions. All transactions in foreign currencies are translated into each Fund's functional currency at the exchange rates prevailing on the date of the transaction. At the reporting date, monetary assets and liabilities denominated in foreign currencies are translated at the prevailing exchange rates. Gains and losses arising on translation are included as part of the Net Gain/Loss on Financial Instruments in the Statement of Operations and are reported on a net basis.

The presentation currency of the Company's financial statements is US dollars (US$).

In preparing the aggregate Company Statement of Assets and Liabilities, all transactions have been translated into US$. Funds which are not recorded in the Company's presentation currency are translated to US$ using the prevailing exchange rates as at the reporting date. For the purpose of producing the Company Statement of Operations and the Company Statement of Changes in Net Assets from the accounts of the individual Funds, average exchange rates for the year are used.

The presentational and functional currency of each Fund is:

[1] The Fund launched during the year. See Note 1.
[2] The Fund liquidated during the year. See Note 1.

(h) Cash. Cash is composed of demand deposits with financial institutions.

Bank Overdrafts. Bank overdrafts, when applicable, are presented as current liabilities.

Cash Collateral. Cash pledged as collateral against OTC derivative instruments and TBAs, if applicable, are not included within Cash but are segregated and presented separately on the Statement of Assets and Liabilities as Cash Collateral.

Margin. Upon entering into centrally cleared derivative instruments, cash deposits are required (initial margin) in an amount equal to a certain percentage of the contract value. Subsequent payments (variation margin) are made or received by the Funds each day. Variation margin against these financial derivative instruments and cash collateral held in margin accounts are not included within Cash or Bank Overdrafts but is segregated and presented separately as Margin Cash Due from Broker or Margin Cash Due to Broker, as applicable.

In respect to share issuances or redemptions, the Company operates an umbrella cash account. Monies received or proceeds due will be held and transmitted through this account and are included in Cash and Bank Overdrafts.

(i) Redeemable Participating Shares. Redeemable participating shares provide shareholders with the right to redeem their shares for cash. The shares do not meet the criteria set out in Section 22.4 of FRS 102 to be classified as equity therefore, the shares are classified as financial liabilities.

(j) Trade Date Reporting. Investment transactions for financial statement purposes are accounted for on the trade date. This is different from the basis used for the daily dealing net asset value, which is accounted for using the trade date plus one business day.

(k) Offsetting. Financial assets and liabilities are offset and the net amount reported when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis, or realise the assets and settle the liability simultaneously.

(l) Income Equalisation. In respect to distributing share classes, the Company intends to operate equalisation arrangements and make equalisation payments in respect of each such share to reflect the pro rata payment of dividends based on the period of time the share has been owned by an investor. If an investor acquires shares at a date when the Fund has accrued income which has not yet been declared as a dividend, the Directors may credit to the equalisation account part of the subscription price representing the accrued income which would be attributable to those shares, as the case may be. When the dividend is paid, the investor will receive the same amount of cash as the existing investors, but the amount in respect of income accrued before shares were acquired will be paid not as a dividend but out of the equalisation account, as capital, comprising the repayment of part of the subscription price. The amount of equalisation, reflecting the pro rata payment of distributions based on the time period over which shares have been owned by an investor. The distribution declared amount includes income equalisation.

4. Risk Management Policies.

The Funds' investments in financial instruments create a direct exposure to a variety of risks. The Funds may also make investments in other underlying funds. The financial instruments which constitute these other underlying funds generally expose the Funds to indirect risks resulting from currency, interest rate, other price risk and credit risk.

The Funds may trade in financial derivative instruments such as exchange traded futures and options contracts (to manage cash flows on a short term basis and to achieve cost efficiencies), swap agreements and equity-linked notes (to gain market exposure or exposure to a particular asset class) and forward currency exchange contracts (to protect against currency fluctuations). The use of financial derivative instruments may expose the Funds to a higher degree of risk. Financial derivative instruments can be highly volatile, and the initial investment is generally small relative to the size of the contract so that transactions may be leveraged in terms of market exposure. A relatively small market movement may have a potentially larger impact on financial derivative instruments than on standard securities. Leveraged financial derivative instrument positions can therefore increase volatility. Global exposure is measured and monitored using the commitment approach. Leverage will not exceed 100% of the net asset value of the relevant Fund and will be done in accordance with regulations applicable to the Funds. Although the Investment Managers believe that taking exposure to underlying assets by using financial derivative instruments will benefit shareholders in certain circumstances, by reducing operational costs and creating other efficiencies, there is risk that the performance of a Fund will be imperfectly correlated with the performance that would be generated by investing directly in the underlying assets.

Significant market disruptions, such as those caused by pandemics, natural or environmental disasters, war, acts of terrorism, political or regulatory conditions or other events, can adversely affect local and global markets and normal market operations. Any such disruptions could have an adverse impact on the value of the Funds' investments and Funds' performance.

The Manager seeks to minimise potential adverse effects of risk on the Funds' performance by employing professional, experienced portfolio advisors; by daily monitoring of the Funds' positions and market events; by diversifying the investment portfolio within the constraints of the investment objectives; and by periodically using derivatives to economically hedge certain risk exposures.

Other Price Risk. Other price risk is the risk that the value of financial instruments will fluctuate because of changes in the market. The Investment Manager considers the asset allocation of the portfolio to minimise the risk associated with particular countries or industry sectors while continuing to follow the stated investment objective.

To the extent the Company's or each Fund's portfolio reflects concentration in a particular market, industry, group of industries, sector, country or asset class, the Company or each Fund may be adversely affected by the performance of these concentrations and may be subject to increased price volatility and other risks.

The investment objective for each index fund is to seek to track as closely as reasonably possible the performance of its benchmark. To achieve this objective, an index fund invests primarily in securities held in its relevant benchmark index. An index fund places limitations on the amount by which a holding may deviate from the proportion in the benchmark to limit the market risk from mismatched positions.

All investments present a risk of loss of capital. Market risk volatility is assessed to ensure the effect of using financial derivative instruments is not significant enough to cause disproportionate losses to overall value and is moderated through careful selection of financial instruments.

The table below summarises the estimate of the Company's and each Fund's net assets sensitivity to a +/-10% change in the prices of its investments, whether directly or indirectly, with all other variables held constant.

	30 June 2026		30 June 2025

[1] The Fund launched during the year. See Note 1.
[2] The Fund liquidated during the year. See Note 1.

The EUR Cash UCITS ETF's exposure to other price risk arising from its investments in reverse repurchase agreements and time deposits is deemed to be minimal. Changes in the value of these instruments arising from market risk are attributable to changes in interest rates and therefore interest rate risk is considered to be the predominant market risk factor affecting the Fund.

Allocation Risk. The Asset Allocation Funds pursue an investment strategy whereby the Investment Manager has discretion over the composition of the Funds' portfolio holdings and is not managed with reference to a benchmark index. However, the Investment Manager manages the Funds through pre-determined asset allocations to equity and fixed income securities using a combination of underlying collective investment schemes. Asset allocation risk occurs when the Asset Allocation Funds are not able to invest the pre-determined allocations. The Investment Manager moderates this risk through careful selection of the underlying collective investment schemes chosen for the pre-determined allocation.

Currency Risk. Currency risk is the risk that the value of the Funds' investments, cash, receivables and payables denominated in foreign currencies will fluctuate due to changes in currency exchange rates. Local interest rates and monetary policy, as well as other government fiscal and labour policies, can adversely impact currency values. The Funds may enter into foreign currency exchange contracts for hedging purposes, which can include the economic hedging of all or a portion of the currency exposure of an investment or group of investments. The Funds may also enter into these contracts for non-hedging purposes, which can include increasing the exposure to a foreign currency, or the shifting of exposure to foreign currency fluctuations from one country to another.

The tables below indicate the fair value of financial instruments, which includes exchange traded derivative instruments, denominated in foreign currencies and the notional value foreign currency contracts and OTC derivative instruments to which the Company and certain Funds had exposure, either directly or indirectly. The tables also demonstrate each Fund's sensitivity to a +/- 5% change in currency exchange rates.

During the year ended 30 June 2026, certain Funds entered into new types of financial instruments for the first time. As a result, the presentation of the tables below has been updated to reflect these additional exposures. Accordingly, the 2025 comparative information continues to be presented in accordance with the prior year's presentation.

ESG USD Corporate Bond UCITS ETF, EUR Cash UCITS ETF, EUR Corporate 1–3 Year Bond UCITS ETF and EUR Eurozone Government 1–3 Year Bond UCITS ETF have no foreign currency exposure as at 30 June 2026.

The Net Asset Values of foreign currency share classes, as presented at the bottom of the Statement of Assets and Liabilities, are subject to foreign currency risk.

Interest Rate Risk. The Funds may invest in fixed income securities either directly or through underlying collective investment schemes. Income may be affected by changes in interest rates relevant to interest bearing securities or as a result of the Investment Managers being unable to secure similar returns on the expiry of contracts or sale of securities. The value of fixed rate securities may be affected by interest rate movements or the expectation of such movements in the future. Equity securities are non-interest bearing and therefore not subject to interest rate risk. Certain financial derivative instruments (e.g. futures), reverse repurchase agreements, time deposits and interest receivable on bank deposits or payable on bank overdrafts positions may be affected by the fluctuations of interest rates.

If the prevailing interest rates had been raised or lowered by 1%, assuming a parallel shift in the yield curve, with all other factors remaining constant, net assets could have decreased or increased. Each Fund's interest rate sensitivity was determined based on the effective duration of the portfolio.

The tables below show the interest rate risk profile of the financial assets and liabilities for the Funds with significant interest rate risk as at 30 June 2026 and 30 June 2025.

Management of Market Risk (Including Other Price, Currency and Interest Rate Risks). Using risk models and quantitative tools, the Investment Managers perform daily reviews of exposure to: style, country, sector and currency related risk factors for equity portfolios and interest rate, credit spread and currency related risk factors for fixed income portfolios. For index funds, the Investment Managers employ a "passive" investment strategy aimed to minimise tracking-error and portfolio management related costs through the optimisation of the Funds' relative exposure to the relevant risk factors of the benchmarks by either fully replicating a benchmark or by holding a representative sample of benchmark securities. In addition, the Investment Managers perform daily checks of performance against the respective benchmarks.

The Asset Allocation Funds use a blend of broad and well-diversified benchmarks the Investment Manager considers to be a fair representation of their respective risk profiles.

Efficient portfolio management techniques, as described in Note 10, may be used to minimise transaction costs or taxes. Currency is traded as closely as possible to the close of the markets, so as to obtain exchange rates that closely approximate the rates used in the daily valuation.

Liquidity Risk. Liquidity risk is the risk that sufficient cash cannot be raised to meet liabilities when due. One of the key liquidity factors influencing the Company and the Funds is exposure to cash redemptions of redeemable participating shares. Hence the Company, through the Funds, invests the large majority of its assets in investments that are traded in active markets and can ordinarily be readily disposed. However, liquidity risk will occur if an issuer becomes credit-impaired or if the relevant market becomes illiquid. In such a case, it may not be possible to initiate or liquidate a position at a price deemed by the Investment Managers to be demonstrating fair value. Liquidity risk may be temporary or may last for extended periods. The Company, through the Funds, invests in securities that form part of the benchmark indices. Benchmark indices are constructed from index rules requiring securities to have a specified minimum trading volume, which, although not guaranteeing liquidity, provides indication of the liquid nature of the securities underlying the Funds. The Funds are exposed to withdrawals and contributions that are invested to ensure that exposure to the benchmark indices is maintained to meet the investment objective of the Funds. All the Funds' financial liabilities, based on contractual maturities, fall due within three months.

Additionally, the Funds may use index futures contracts to a limited extent, to maintain full exposure to the index, maintain liquidity and minimise transaction costs. Funds may purchase futures contracts to immediately invest incoming cash in the market, or sell futures in response to cash outflows, thereby simulating a fully invested position in the underlying index while maintaining a cash balance for liquidity.

No shareholder owns greater than 25% of the net assets of the Company. Shareholders owning greater than 25% of the net assets of a Fund may further expose the Fund to concentration risks that could impact liquidity should one or more of these shareholders submit redemption requests.

	30 June 2026		30 June 2025	
	Total Concentration	Number of Shareholders	Total Concentration	Number of Shareholders
ESG USD Corporate Bond UCITS ETF	—	—	62%	1

Global Government Bond UCITS ETF	—	—	28%	1

Management of Liquidity Risk. To meet redemption requests and raise cash from the portfolio, daily reports of share capital activity are provided by the Administrator to facilitate the daily cash forecast, cash monitoring and portfolio management process.

Subject to certain circumstances as detailed in the Prospectus, negative impacts to liquidity or transaction costs caused by significant shareholder redemptions may be mitigated through the available liquidity measures including, but not limited to, the use of (a) distribution of underlying investments rather than cash, subject to certain conditions, in which case the shareholder may bear the cost of charges incurred in connection with the sale of such underlying investments, (b) limiting the maximum amount of daily redemptions when total redemption requests for the day exceed 10% or (c) temporary suspension of dealing in shares. Should the Funds require, they also have access to a syndicated line of credit for temporary or emergency purposes (as disclosed in Note 9).

Credit Risk. Credit risk is the risk that a counterparty to a transaction or an issuer of a financial instrument will fail to pay interest and principal when due, or that perceptions of the issuer's ability to make such payments will cause the price of an investment to decline. Investment in debt securities or use of derivative contracts will generally create credit risk.

Credit risk exposure is also created through interactions with brokers and custodians. However, transactions in listed securities are settled and paid for upon delivery of securities using only approved brokers. The risk of default is therefore considered minimal because securities are delivered only when the broker has made payment and the broker is paid for purchases only once the securities have been received by the Company's Depositary.

The securities lending activity of the Funds creates exposure to the borrowing counterparties which is mitigated by the collateral arrangements in place.

Credit risk may also arise from assets of the Funds which are substantially all held by the Depositary. Bankruptcy or insolvency of the Depositary may cause certain rights with respect to securities and other positions held to be delayed or limited. As of 30 June 2026, the Depositary has a long-term credit rating of A+ from Fitch (30 June 2025: A+). Additionally, the Depositary ensures there is legal separation of non-cash assets held in custody, that such assets are held on a fiduciary basis and that appropriate internal control systems are maintained such that records clearly identify the nature and amount of all assets under custody. All securities held in custody by the Depositary are segregated from the Depositary's own assets, whether in a vault, in segregated accounts on the books of sub-custodians or in an account maintained at a central securities depositary. The Depositary maintains segregated accounts per client on its own books as well as on the books of sub-custodians in local markets, where possible.

In addition, the Funds hold cash with counterparties (as disclosed in Note 11) which is subject to credit risk. The banks and financial institutions, other than the Depositary, that held these cash are rated A to AA based on the median rating of Moody's, S&P and Fitch.

Credit risk is managed at the Fund level. For Funds invested in fixed income holdings, the following is an analysis of the concentration of issuer credit ratings. Credit ratings reflect the median of Moody's, S&P and Fitch, where possible. When less than three ratings are available, the lowest rating is utilised.

Management of Credit Risk. Credit risk is managed by investment policies which restrict or place limits on acceptable portfolio and net asset concentrations as well as exposure to certain instruments, credit institutions and counterparties. The Investment Managers perform daily reviews of portfolio attributes, such as sector diversification and credit quality, and adjusts where necessary to ensure that the credit risk components closely match those of the respective benchmarks. Credit ratings of debt instruments and counterparties are monitored and evaluated periodically by the Investment Managers; an approved counterparty list is maintained, and trading with approved counterparties is enforced. The Funds also enter into master netting arrangements with their counterparties and require the transfer of collateral to secure performance. The value of cash and securities pledged or received as collateral against securities lending transactions and derivative contracts is disclosed in Notes 10 and 11, respectively. Cash and securities received as collateral from counterparties are not recognised as asset because the Funds do not have the right to sell or repledge the collateral, except in the event of default.

5. Taxation.

Under current law and practice, the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis, it is not chargeable to Irish tax on its income or gains. However, Irish tax may arise on the happening of a “chargeable event”. A chargeable event includes any distribution payments to shareholders, any encashment, redemption, cancellation or transfer of shares and the holding of shares at the end of each eight year period beginning with the acquisition of such shares. Any tax arising on a chargeable event is a liability of the shareholders, albeit it is paid by the Company (although if the Company fails to deduct the correct amount of tax it becomes ultimately a liability of the Company).

No Irish tax will arise on the Company in respect of chargeable events.

(a) a shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Company or the Company has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations;

(b) certain exempted Irish tax resident shareholders who have provided the necessary signed statutory declarations; and

(c) any transaction in relation to, or in respect of, units which are held in a recognised clearing system as designated by order of the Irish Revenue Commissioners.

Dividends, interest and capital gains received on investments may be subject to withholding or other taxes imposed by the country from which the investment income/gains are received, and such taxes may not be recoverable. Foreign withholding taxes on dividends and interest are recognised when such taxes are not recoverable and are included in Taxation. Funds may also be subject to tax on realised and unrealised capital gains and has recognized a provision for deferred tax payable arising from material timing differences between the taxation of unrealised gains in the financial statements and actual realisable taxable profits.

The Funds have filed tax reclaims for previously withheld taxes on dividends earned in certain European Union countries. These filings are subject to various administrative and judicial proceedings within these countries. Such tax reclaims recognised during the year, if any, are

included in Taxation. No other amounts for these tax reclaims are reflected in the financial statements due to the uncertainty as to the ultimate resolution of proceedings, the likelihood of receipt of these reclaims and the potential timing of payment.

Below is an analysis of the tax charge for the year ended 30 June 2026 and 30 June 2025:

[1] The Fund liquidated during the year. See Note 1.

6. Distribution Policy.

The Directors intend to distribute all, or substantially all, of the net income (interest and dividends, less expenses) to distributing share class holders. Should expenses exceed income, no distribution is made. Dividend distributions are payable to shareholders of record on the date on which the dividend is declared. The Company's income distribution payable as at 30 June 2026 amounts to US$Nil (30 June 2025: US$661,687,091). Dividends on Asset Allocation funds, if any, are paid semi-annually. The Directors do not intend to declare dividends on accumulating shares.

The following table presents the payment frequency with respect to distributing share classes. If a dividend has not been declared, income and gains of such Fund will be reflected in the net asset value per share.

Fund	Dividend
LifeStrategy 20% Equity UCITS ETF	Semi-annually
LifeStrategy 40% Equity UCITS ETF	Semi-annually

7. Net Asset Value Per Share.

The net asset value per share of each share class is calculated by dividing the total net assets of each share class by the number of shares in issue.

8. Share Capital.

The Company has variable share capital consisting of 5,000,000,000,002 authorised shares divided into two Subscriber Shares (US$1.00 par value) and 5,000,000,000,000 (five trillion) redeemable participating shares (no par value).

The Directors may issue shares of any class and create new classes of shares on such terms as the Directors may from time to time determine in relation to any Fund and in accordance with the requirements of the Central Bank. Shares may be divided into different classes to accommodate different subscription, redemption or fee arrangements, dividend provisions, or charges.

Subscriber Shares. There are two Subscriber Shares in issue, which are held by nominees for the Investment Managers. Subscriber Shares do not entitle the holders thereof to any dividend and on a winding-up entitle the holder to receive the amount paid up thereon but not otherwise to participate in the assets of the Company. The Subscriber Shares do not form part of the Shareholders' funds and are not included in the net asset value of the Company.

Redeemable Participating Shares. Members who are individuals may attend and vote at general meetings in person or by proxy. Members who are corporations may attend and vote at general meetings by appointing a representative or proxy. Subject to any special terms as to voting upon which any shares may be issued or may for the time being be held, at any general meeting on a show of hands every shareholder who (being an individual) is present in person or (being a corporation) is present by duly authorised representative shall have one vote. On a poll every such holder presents as aforesaid or by proxy shall have one vote for every share held.

If the Company shall be wound up, then the payment to the holders of the redeemable participating shares of each class, is a sum in the currency in which that class is designated, as nearly as possible equal to the Net Assets Attributable to Holders of Redeemable Participating Shares respectively. This payment is as at the date of commencement to wind up provided that there are sufficient assets available in the relevant Fund to enable such payment to be made. In the event that there are insufficient assets available in the relevant Fund to enable such payments to made, the following recourse shall apply:

(1) the assets of the Company not comprised within any of the Funds; and

(2) the assets remaining in the Funds for the other classes of Shares after payment to the holders of the Shares of the class to which they relate of the amounts to which they are respectively entitled under this paragraph prorata to the total value of such assets remaining within each such Fund.

Share capital activity for the year ended 30 June 2026:

* This class is the primary share class of the Fund.

[1] The Fund launched during the prior year. See Note 1.

9. Credit Facility.

The Funds and certain other funds managed by the Manager and its affiliates participate in an annually renewable US$4.3 billion (2025: US$4.3 billion) committed credit facility. Each participating Fund is individually liable for its borrowings under the credit facility. Borrowings may be utilised for temporary or emergency purposes and are subject to the participating Fund's regulatory and contractual borrowing restrictions. Participating Funds are allocated an annual commitment fee of 0.10% of the undrawn facility amount as well as certain administrative fees. Any fees allocated to the Funds are paid by the Manager. Interest and direct borrowing costs associated with draws on the credit facility are charged to the Funds and recorded in the Statement of Operations.

The rate charged for borrowings under this facility is linked to the currency borrowed. Borrowings in US dollars will bear interest at an agreed-upon spread plus the higher of the federal funds effective rate, the overnight bank funding rate or the Daily Simple Secured Overnight Financing Rate inclusive of an additional agreed-upon spread. Borrowings in currencies other than the US dollar will bear interest at an agreed-upon spread plus the Euro Interbank Offered Rate, the Daily Simple Euro Short Term Rate, the Swiss Average Rate Overnight, the Sterling Overnight Index Average or the Tokyo Interbank Offered Rate, as applicable.

As part of the annual credit facility renewal, new funds launched since previous renewal are considered for inclusion in the agreement. The EUR Corporate 1–3 Year Bond UCITS ETF, EUR Eurozone Government 1–3 Year Bond UCITS ETF, Global Government Bond UCITS ETF, U.S. Treasury 1–3 Year Bond UCITS ETF, U.S. Treasury 3–7 Year Bond UCITS ETF and U.S. Treasury 7–10 Year Bond UCITS ETF were added to the credit facility agreement as part of the 2026 renewal.

EUR Cash UCITS ETF is outside the scope of the credit facility agreement and is not a participating fund under the arrangement.

The Funds had no borrowings outstanding at 30 June 2026 or at any time during the year then ended (30 June 2025: none).

10. Efficient Portfolio Management.

Investment techniques and financial derivative instruments ("FDIs") may be employed for efficient portfolio management purposes, including hedging against market movements, currency exchange or interest rate risks. Any investment technique or use of FDIs must be one which is reasonably believed by the Investment Managers to be economically appropriate in that it is realised in a cost-effective way. Realised and unrealised gains or losses arising from financial derivative instrument transactions are accounted for through the Statement of Operations as Net Gain/(Loss) on Financial Instruments.

Securities lending is also used for efficient portfolio management. The securities lending agent is J.P. Morgan SE - Luxembourg Branch. All operational costs in support of the lending programme are borne by the lending agent and paid directly out of any lending agent fees. Securities lending income is net of any lending agent fees paid.

Securities on loan continue to be recognised by the Funds as financial assets because they substantially retain the risks and rewards of ownership. Similarly, security collateral received from the borrower is not recognised by the Funds as an asset because they do not have rights to sell or re-pledge the collateral, unless in the event of default. Collateral accepted by the Funds is limited to high quality sovereign debt (U.S. Treasuries, U.K. Gilts, etc.).

Securities on loan by the Funds and the value of collateral held in respect of the securities as at 30 June 2026:

Fund	Value of Outstanding Securities on Loan	Value of Collateral

11. Collateral.

The Funds pledge and receive non-cash collateral against financial derivative instruments, TBA transactions and reverse repurchase agreements. Such collateral cannot be sold, reinvested or repledged. As a result, pledged collateral remains an asset of the Fund and is included in the Statement of Investments. Securities received as collateral are not considered assets of the Fund and will not appear in the Statement of Investments. Under these collateral agreements, upon a counterparty default (including bankruptcy), the Funds may terminate all derivatives, TBA transactions or reverse repurchase agreements with that counterparty, determine the net amount owed by either party and sell or retain any collateral held up to the net amount owed to the Funds, with an obligation to return excess collateral to the counterparty.

In certain cases, the Funds may be required to maintain cash collateral in margin accounts or pledge cash with certain counterparties. Cash collateral held in margin accounts for futures contracts and other centrally cleared derivatives is segregated on the Statement of Assets and Liabilities and presented separately as part of “Margin Cash Due to/from Broker”. Cash pledged for OTC derivative instruments and TBAs is segregated on the Statement of Assets and Liabilities and presented separately as “Cash Collateral”. Additionally, the Funds may receive cash collateral, which is segregated from the Funds’ cash, and is subject to restrictions. The Funds do not earn any interest from the cash collateral received nor does it have any right for reinvestment, therefore any cash collateral received is not recorded as part of the Funds’ assets.

At 30 June 2026, the Funds did not have any collateral pledged or received in connection with TBA transactions (30 June 2025: Nil).

In addition, the Funds receive other non-cash collateral in relation to securities lending transactions which is separately disclosed in Note 10.

Counterparties to financial derivative transactions where collateral was required to be exchanged included Bank of America NA, Bank of New York Mellon, BNP Paribas, Citibank NA, Deutsche Bank AG, Goldman Sachs International, HSBC Bank, JPMorgan Chase Bank, Morgan Stanley, Royal Bank of Canada, Standard Chartered Bank, State Street Bank, Toronto Dominion Bank, UBS AG and Wells Fargo Bank.

As of 30 June 2026 and 30 June 2025, the collateral pledged or received by the Funds for financial derivative instrument transactions and reverse repurchase agreements was:

12. Related and Connected Parties Transactions.

Parties are related if one can control or exercise significant influence over the other in making financial or operational decisions or is a member of a group which provides key management personnel services. The Company's Directors and Manager are considered related parties. The Investment Managers or affiliates of the Manager, as well as sub-investment manager or their delegate, and associated or group company of the Manager, are considered connected parties.

Manager. Vanguard Group (Ireland) Limited is the Funds' Manager and acts as a principal in respect of all transactions of shares in the Funds. For its services, the Manager receives a fixed single fee per share class (the "Management Fees") calculated on a daily basis and paid monthly. Out of the fees received, the Manager pays for any sub-advisers, as well as the costs of administration including audit, depositary, legal, registration and regulatory fees associated with the Funds. As a result, the Manager anticipates that the ongoing charges figure ("OCF") of each share class will closely track the Management Fees. In the event that the costs and expenses of any Fund exceed the OCF, the Manager will be responsible for discharging any excess out of its own assets. The Manager, in its sole discretion, may voluntarily waive all or part of its fee, and any such waiver could be discontinued at any time and without notice.

The Asset Allocation Funds invest in other Funds of the Company, and substantially all of the income from these collective investment schemes are derived from related party holdings. Each Asset Allocation Fund separately includes within this report a complete set of financial statements which details its holdings in related parties, significant portfolio changes, revenues and net gains or losses from these investments in related parties. Additionally with respect to the Asset Allocation Funds, the Manager will reduce its Management Fees in an amount equal to similar charges already incurred in the underlying affiliated collective investment schemes.

Any amounts due from or to the Manager at the end of the year are disclosed in the Statement of Assets and Liabilities. Amounts earned by the Manager in respect to fees for the year are disclosed in the Statement of Operations.

The Annual Management Fees for each share class for the year ended:

[12] The share class launched on 4 November 2025.

Directors' Fees. The Manager has agreed to pay all Directors' fees and expenses including out-of-pocket expenses. Only the independent Directors are paid fees for their services as a Director and have entered into a service contract with the Company. None of the Directors are an executive of the Company. Director fees paid by the Manager on behalf of the Company for the year ended 30 June 2026 were US$128,256, of which US$Nil was outstanding at the year-end.

The Company had seven Directors as at 30 June 2026:

Director[1]	Independent Director	Director of other Vanguard funds or affiliates
Robyn Laidlaw	No	Yes
Ranjit Singh	Yes	Yes
Thomas Challenor	Yes	Yes
Lisa Harlow	No	Yes
Jonathan Cleborne	No	Yes
Kaitlyn Caughlin	No	Yes
Carin Bryans[2]	Yes	Yes

[1] William Slattery and Tara Doyle resigned on 26 February 2026 and 4 March 2026, respectively.
[2] Appointed on 27 August 2025.

Investment Manager. Vanguard Asset Management, Limited and Vanguard Global Advisers, LLC are the Investment Managers to the Company and are compensated by the Manager.

The Investment Managers or the Manager, at their discretion, may appoint other companies from within the Vanguard Group of Companies to provide investment management, advisory and distribution services with respect to the Funds. The individual financial statements for each Fund provide details of any sub-investment manager arrangements.

Interfund Trading. The table below details the interfund trades between the Company and funds managed by related parties and/or connected parties during the year ended 30 June 2026 and 30 June 2025. All transactions were carried out at fair value:

	Year Ended 30 June 2026	
Fund	Bought	Sold
Company Total	$558,484,430	$332,730,661

	Year Ended 30 June 2025	
Fund	Bought	Sold
Company Total	$221,685,137	$243,882,391

Related and Connected Parties Transactions. The following amounts were held by funds managed by related parties, expressed as a percentage of total assets for each Fund, respectively:

18. Operating Segments.

Operating segments are the components of the Company whose results are regularly reviewed by the Company's chief operating decision maker (“CODM”) when determining resources to be allocated and assessing performance. The Company’s Directors are the CODM. The Directors sets the investment objective and evaluates the performance, funding model and market and geographic focus of the Company’s Funds individually. Returns are linked to unique investment objectives, which form part of the audited financial statements of the Company.

The Asset Allocation Funds invest in other Funds of the Company, which are disclosed in each Fund’s Statement of Investments, which form part of the audited financial statements of the Company. These cross investments and any related movements in realised or unrealised gains and losses on these investments have been eliminated in the Company financial statements.

Reconciliation of reportable segments to the Company total as at 30 June 2026:

[1] For the purpose of calculating the Segment Totals and Eliminations, EUR and GBP based funds have been translated into US dollars using the exchange rates as disclosed on Page 15.

19. Auditors' Remuneration.

The statutory audit fee (including out-of-pocket expenses incurred by the auditors in connection with their work) paid by the Manager out of the OCF on behalf of the Company for the year amounted to US$393,527 (30 June 2025: US$323,406). The Auditors provided no other services to the Company.

20. Material Changes to the Prospectus.

On 26 August 2025, the prospectus was updated to reflect the approval by the Central Bank of Ireland of three new ETFs. The prospectus was also revised to reflect the appointment of Kaitlyn Caughlin as a Director of both the Company and the Manager, to note the designation of J.P. Morgan SE – Luxembourg Branch as the new securities lending agent, and to reflect the reduction of fees for seven fixed income funds.

On 7 October 2025, the prospectus was updated by way of addendum to reflect the OCF reduction for six equity funds.

On 30 October 2025, the prospectus was updated to reflect the appointment of Carin Bryans to the Board of the Company and the Manager, the CBI approval of EUR Cash UCITS ETF, and the closure of ESG USD Corporate Bond UCITS ETF.

On 23 January 2026, the prospectus was updated to reflect that FTSE North America UCITS ETF seeks to follow a full replication strategy in tracking the performance of its benchmark index, and to reflect that ESG North America All Cap UCITS ETF, S&P 500 UCITS ETF, and FTSE North America UCITS ETF, in seeking to track the performance of their respective benchmark index, may obtain up to 20% exposure to a single issuer.

On 14 April 2026, the Prospectus was updated to reflect the approval by the Central Bank of Ireland of nine new equity Funds, as well as amendments to the list of Funds that have been established or closed. In addition, the Prospectus was updated to include refreshed index disclaimers relevant to the Company, clarifications regarding the use of leverage, inclusion of a new risk factor – Investing in Smaller Companies, tidy-ups to formatting of the SFDR Annexes for ESG Funds and refreshed sustainability risk disclosures to reflect updates made to the Sustainability Risk Policy. The Prospectus was also updated, by way of addendum, to reflect OCF reductions for nine fixed income Funds and one equity Fund.

On 16 April 2026, the Prospectus was updated to reflect enhancements to the disclosures regarding the Fund's liquidity management tools, in line with the implementation of UCITS VI, related regulatory technical standards, ESMA's guidelines on liquidity management tools and relevant Irish legislation. The Prospectus was further updated to reflect the resignation of Tara Doyle and William Slattery from the Board of the Company and the Manager, amendments to the Investment Manager Risk disclosure, OCF reductions for certain unlaunched hedged share classes of selected Funds, and an update to the expected operational costs relating to securities lending arrangements.

On 28 April 2026, the Prospectus was updated to reflect the approval by the Central Bank of Ireland of one new equity Fund and amendments to the disclosures relating to the Company's use of currency hedging techniques.

On 2 June 2026, the Prospectus was updated to reflect that ESG Developed Asia Pacific All Cap UCITS ETF, ESG Emerging Markets All Cap UCITS ETF, and FTSE Emerging Markets UCITS ETF, in seeking to track the performance of their respective benchmark indices, may avail of certain increased diversification limits in accordance with the UCITS Regulations.

On 30 June 2026, the standalone Supplement for ESG Developed Europe All Cap UCITS ETF was updated to reflect that the Fund, in seeking to track the performance of its benchmark index, may avail of certain increased diversification limits in accordance with the UCITS Regulations.

On 28 July 2026, the Prospectus was updated, by way of addendum, to reflect OCF reductions for four equity Funds.

On 29 July 2026, the Prospectus was updated to reflect the approval by the Central Bank of Ireland of two new fixed income Funds. The Prospectus was also updated to reflect updates made to the Bloomberg index names associated with EUR Corporate Bond UCITS ETF and Active EUR Corporate Bond UCITS ETF, and updates to risk factors to reflect the establishment of the new Funds. In addition, the Prospectus or standalone Supplements, as applicable, were updated to reflect that S&P 500 UCITS ETF, FTSE Developed Europe UCITS ETF, FTSE Japan UCITS ETF, FTSE All-World High Dividend Yield UCITS ETF, FTSE 250 UCITS ETF, FTSE Developed World UCITS ETF, FTSE North America UCITS ETF, FTSE Developed Europe ex UK UCITS ETF, ESG Developed World All Cap UCITS ETF, and ESG North America All Cap UCITS ETF, in seeking to track the performance of their respective benchmark indices, may avail of certain increased diversification limits in accordance with the UCITS Regulations.

On 4 September 2026, the Prospectus was updated to reflect the approval by the Central Bank of Ireland of one new fixed income fund.

On 15 October 2026, the prospectus was updated to reflect the change to the benchmark index for the FTSE Developed Asia Pacific ex Japan UCITS ETF from FTSE Developed Asia Pacific ex Japan Index to FTSE Developed Asia Pacific ex Japan Daily Capped Index.

21. Events During the Year Ended 30 June 2026.

Effective 1 July 2025, the Company has reduced the Ongoing Charges Figure (the “OCF”) by 0.02% across all share classes on the following seven fixed income funds: Global Aggregate Bond UCITS ETF, USD Treasury Bond UCITS ETF, U.K Gilt UCITS ETF, USD Emerging Markets Government Bond UCITS ETF, EUR Corporate Bond UCITS ETF, ESG EUR Corporate Bond UCITS ETF and USD Corporate Bond UCITS ETF.

The U.S. Treasury 1–3 Year Bond UCITS ETF, U.S. Treasury 3–7 Year Bond UCITS ETF and U.S. Treasury 7–10 Year Bond UCITS ETF were authorised by the Central Bank of Ireland on 26 August 2025. These funds launched on 4 November 2025.

Carin Bryans was appointed as Director of the Company and of the Manager on 27 August 2025.

Effective 7 October 2025, the Company has reduced the OCF by between 0.02% and 0.05% across all share classes on the following six equity funds: FTSE Emerging Markets UCITS ETF, ESG Emerging Markets All Cap UCITS ETF, FTSE Japan UCITS ETF, Germany All Cap UCITS ETF, FTSE All-World UCITS ETF and FTSE North America UCITS ETF.

The ESG USD Corporate Bond UCITS ETF terminated on 23 October 2025 and is seeking revocation from the Central Bank of Ireland.

The authorisation of Vanguard Euro STOXX 50 UCITS ETF was revoked by the Central Bank of Ireland on 21 November 2025.

The EUR Cash UCITS ETF was launched on 9 December 2025.

William Slattery and Tara Doyle resigned as Directors of the Company and of the Manager effective 26 February 2026 and 4 March 2026, respectively.

The FTSE Developed Europe Small-Cap UCITS ETF and FTSE Eurozone UCITS ETF were authorised by the Central Bank of Ireland on 14 April 2026. These Funds launched on 19 May 2026.

The Vanguard FTSE All-World ex-U.S. UCITS ETF, Vanguard Global All-Cap UCITS ETF, Vanguard FTSE Global Small-Cap UCITS ETF, Vanguard Russell 1000 U.S. Growth UCITS ETF, Vanguard Russell 1000 U.S. Value Growth UCITS ETF, Vanguard Russell 2000 U.S. Small-Cap UCITS ETF, and Vanguard Russell U.S. Mid-Cap UCITS ETF were authorised by the Central Bank of Ireland on 14 April 2026.

Effective 14 April 2026, the Company reduced the OCF by 0.02% across the hedged share classes for the following ten funds: U.K. Gilt UCITS ETF, FTSE Japan UCITS ETF, EUR Corporate Bond UCITS ETF, EUR Eurozone Government Bond UCITS ETF, USD Corporate Bond UCITS ETF, USD Treasury Bond UCITS ETF, USD Corporate 1–3 Year Bond UCITS ETF, U.S. Treasury 0–1 Year Bond UCITS ETF, ESG EUR Corporate Bond UCITS ETF and U.S. Treasury 1–3 Year Bond UCITS ETF.

The Vanguard Active EUR Corporate Bond UCITS ETF was authorised by the Central Bank of Ireland on 28 April 2026.

There were no other events during the year requiring recognition or disclosure in the financial statements.

22. Events Since the Statement of Assets and Liabilities Date.

The Vanguard Russell 2000 U.S. Small-Cap UCITS ETF, Vanguard Russell U.S. Mid-Cap UCITS ETF, Vanguard Russell 1000 U.S. Value UCITS ETF and Vanguard Russell 1000 U.S. Growth UCITS ETF were launched on 7 July 2026.

Effective 28 July 2026, the Company reduced the OCF by 0.05% across all share classes of the Vanguard FTSE All-World UCITS ETF. The FTSE Global All-Cap UCITS ETF, FTSE Global Small-Cap UCITS ETF and FTSE All-World ex-U.S. UCITS ETF, which launched post year end, also had a 0.05% reduction across all share classes.

The Vanguard Active USD High Yield Corporate Bond UCITS ETF and Vanguard USD High Yield Corporate Bond UCITS ETF were authorised by the Central Bank of Ireland on 29 July 2026. The Vanguard USD High Yield Corporate Bond UCITS ETF was launched on 6 October 2026.

The Vanguard FTSE All-World ex-U.S. UCITS ETF, Vanguard FTSE Global All-Cap UCITS ETF and Vanguard FTSE Global Small-Cap UCITS ETF were launched on 18 August 2026.

The Vanguard EUR High Yield Corporate Bond UCITS ETF was authorised by the Central Bank of Ireland on 4 September 2026.

There were no other events subsequent to year-end requiring recognition or disclosure in the financial statements.

23. Approval of Financial Statements.

The financial statements were approved by the Directors on 27 October 2026.

Additional Information and Regulatory Disclosures (unaudited)

Remuneration Disclosure

Vanguard personnel providing services to the Manager are subject to the Vanguard European Remuneration Policy (the “Remuneration Policy”). The Remuneration Policy includes the remuneration requirements of the UCITS V Directive (2014/91/EU). Details of the Remuneration Policy are available through https://www.ie.vanguard/content/dam/intl/europe/documents/ch/en/ucits-v-remuneration-policy.pdf, which will be updated periodically to reflect changes to the policy.

The governance of remuneration within Vanguard Europe is undertaken through a tiered structure, including Vanguard’s Global Remuneration Committee and the European Leadership Team. The Global Remuneration Committee also operates at The Vanguard Group level and oversees the overall compensation programmes of The Vanguard Group. The European Leadership Team is responsible for implementing the remuneration programmes in accordance with Vanguard’s total rewards philosophy and global organisation, including overseeing the Remuneration Policy.

The Remuneration Policy provides for an appropriate balance of fixed salary; benefits, such as pension; and annual bonus and long-term incentive arrangements. Incentives are based on the overall business performance of The Vanguard Group, or individual, team, business unit and fund performance. The incentive plans are reviewed and approved by the European Leadership Team (and other applicable groups) in order to ensure that plans appropriately assess financial and non-financial performance and do not encourage conflicts of interest, and to ensure that risk or compliance issues are appropriately reflected.

The European Leadership Team also reviews and approves the list of UCITS code staff annually. Identified code staff are notified and understand the code staff responsibilities.

The table below presents the aggregate total remuneration paid to staff who provide services to the Funds and the aggregate total remuneration paid to all relevant UCITS code staff.

	Headcount[1,2]	Total Remuneration (€)[3]
Funds, of which	**128**	**17,454,109**
Fixed Remuneration	128	11,465,433
Variable Remuneration	128	5,988,676
Performance Fees	n/a	n/a
UCITS Code Staff, of which	**21**	**5,700,784**
Senior Management	18	3,897,862
Other Code Staff	3	1,802,922

[1] This is the total number of employees who are fully or partly involved in the activities of the Funds. Includes both crew who have terminated during the year and part-year Code Staff.
[2] The staff in this table may provide services to other entities within The Vanguard Group.
[3] The remuneration disclosed is the total remuneration awarded to employees for 2025.

Remuneration reflects fixed pay (salary) and performance-related pay (annual and long-term incentives). Individual incentive outcomes under the plans are based on performance assessed by reference to an appropriate balance of quantitative and qualitative measures, such as behaviour, including compliance with all applicable policies. The individual incentive outcome is fully discretionary and, if appropriate, outcomes based on financial performance can be overridden based on the qualitative measures.

Synthetic Ongoing Charges Figure

The Ongoing Charges Figure (OCF) is the ratio of a Fund's total disclosable costs (excluding overdraft interest) to the average net assets of the Fund. Because the Asset Allocation Funds invest a substantial proportion of assets in other UCITS or Collective Investment Undertakings (CIU), the Asset Allocation Funds are required to disclose a synthetic OCF that accounts for the ongoing charges incurred in the underlying CIUs.

Annual Management Charge for each share class for the year ended 30 June 2026:

	LifeStrategy 20% Equity UCITS ETF (%)	LifeStrategy 40% Equity UCITS ETF (%)	LifeStrategy 60% Equity UCITS ETF (%)	LifeStrategy 80% Equity UCITS ETF (%)
EUR Accumulating				
Fund Direct Charge	0.14%	0.13%	0.13%	0.13%
Synthetic Element	0.11%	0.12%	0.12%	0.12%

Connected Persons Transactions

Transactions carried out with the Company by the Investment Managers, Manager, Depositary, Investment Adviser and/or associated or group companies of these ("Connected Persons") during the year ended 30 June 2026 were carried out as if negotiated at arm's length and were in the best interests of the Company's Shareholders. The Directors of the Company are satisfied that there are arrangements (evidenced by written procedures) in place to ensure that all transactions entered into by the Company with Connected Persons are carried out as if negotiated at arm's length and in the best interests of the Company's Shareholders.

Securities Financing Transactions Regulation

Securities Financing Transactions Regulation ("SFTR") introduces reporting requirements for securities financing transactions ("SFTs") and total return swaps.

An SFT is defined as per Article 3(11) of the SFTR as:

- A repurchase/reverse repurchase agreement,
- Securities or commodities lending and securities or commodities borrowing,
- A buy-sell back transaction or sell-buy back transaction, or
- A margin lending transaction.

As at 30 June 2026, the Company had a securities lending programme, reverse repurchase agreements and total return swaps as types of SFTs under the scope of the SFTR.

[1] The Fund launched on 9 December 2025.

Return/Costs:

The securities lending agent is J.P. Morgan SE - Luxembourg Branch. All securities lending revenue, with the exception of a minimal lending agent fee, is received directly into the Funds. All operational costs in supporting the lending programme are borne by the lending agent and paid directly out of the agent lender fee received.

The current securities lending income split between the relevant Fund and the securities lending agent for the year ended 30 June 2026 is as follows:

	Securities Lending Transactions	
Fund	Returns	Cost[1]
ESG Global All Cap UCITS ETF	$131,692	$4,942
FTSE 100 UCITS ETF	£112,163	£3,262
FTSE 250 UCITS ETF	£1,464,961	£72,765
FTSE All-World UCITS ETF	$8,972,533	$348,967
FTSE All-World High Dividend Yield UCITS ETF	$2,765,475	$108,241
FTSE Developed Asia Pacific ex Japan UCITS ETF	$1,201,787	$41,765
FTSE Developed Europe UCITS ETF	€631,965	€31,122
FTSE Developed Europe ex UK UCITS ETF	€544,610	€27,169
FTSE Developed World UCITS ETF	$1,239,226	$42,866
FTSE Emerging Markets UCITS ETF	$1,669,834	$77,687
FTSE Japan UCITS ETF	$1,784,940	$55,153
FTSE North America UCITS ETF	$408,349	$11,383
Germany All Cap UCITS ETF	€43,019	€2,061
S&P 500 UCITS ETF	$112,003	$3,219

[1] The cost amount pertains to the fees paid to the lending agent.

For reverse repurchase agreements and total return swaps, returns are identified as the realised gains/losses and change in unrealised gains/losses on these investments during the reporting period which are included as parts of the Net Gain/Loss on Financial Instruments in the Statement of Operations. Costs pertain to transaction costs related to entering into the reverse repurchase agreements and swap contracts. For these investments, the cost is not separately identifiable and is part of the investment performance.

EU Sustainable Finance

The funds listed below (the “Funds”) promoted environmental and/or social characteristics during the financial period, however, such Funds do not commit to making sustainable investments (including environmentally sustainable investments within the meaning of the Taxonomy Regulation). Accordingly, such Funds fell within the scope of Article 8 of the Sustainable Finance Disclosure Regulation (Regulation EU 2019/2088) (the “SFDR”):

- Vanguard ESG Developed Asia Pacific All Cap UCITS ETF
- Vanguard ESG Developed Europe All Cap UCITS ETF
- Vanguard ESG Emerging Markets All Cap UCITS ETF
- Vanguard ESG Global All Cap UCITS ETF
- Vanguard ESG North America All Cap UCITS ETF
- Vanguard ESG EUR Corporate Bond UCITS ETF
- Vanguard ESG Global Corporate Bond UCITS ETF
- Vanguard ESG USD Corporate Bond UCITS ETF[1]

[1] The Fund terminated on 23 October 2025.

For further details in respect of the environmental and social characteristics promoted by the Funds and other related sustainable finance information, please see the relevant information outlined in the Appendix to this annual report.

The Taxonomy Regulation requires us to disclose the following statement in respect of the Funds:

The “do no significant harm” principle applies only to those investments underlying the Funds that take into account the EU criteria for environmentally sustainable economic activities.

The investments underlying the remaining portion of the Funds do not take into account the EU criteria for environmentally sustainable economic activities.

The Company also has a number of other sub-funds which did not fall within the scope of Article 8 or Article 9 of the SFDR and the Taxonomy Regulation requires us to disclose the following statement in respect of such sub-funds:

The investments underlying such sub-funds do not take into account the EU criteria for environmentally sustainable economic activities.

Report of the Depositary to the Shareholders (unaudited)

We have enquired into the conduct of the Vanguard Funds plc for the year ended 30 June 2026 in our capacity as Depositary to the Company.

This report including the opinion has been prepared for and solely for the Shareholders in the Company as a body, in accordance with Part 5 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended), and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Depositary

Our duties and responsibilities are outlined in Part 5 of the UCITS Regulations. One of those duties is to enquire into the conduct of the Company in each annual accounting period and report thereon to the shareholders.

Our report shall state whether, in our opinion, the Company has been managed in that period in accordance with the provisions of the Company's Memorandum and Articles of Association, the UCITS Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not complied we, as Depositary, must state why this is the case and outline the steps which we have taken to rectify the situation.

Basis of Depositary opinion

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in Part 5 of the UCITS Regulations and to ensure that, in all material respects, the Company has been managed (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of the Memorandum and Articles of Association and the appropriate regulations; and (ii) otherwise in accordance with the Company's constitutional documentation and the appropriate regulations.

Opinion

In our opinion, the Company has been managed during the financial year, in all material respects:

(i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the Memorandum & Articles of Association, the UCITS Regulations and the Central Bank UCITS Regulations, and

(ii) otherwise in accordance with the provisions of the Memorandum & Articles of Association, the UCITS Regulations and the Central Bank UCITS Regulations.

Independent Auditor's Report to the Members of Vanguard Funds plc

Report on the audit of the financial statements

Opinion

We have audited the financial statements of Vanguard Funds plc ('the Company') for the year ended 30 June 2026, which comprise the Company Statement of Assets and Liabilities, Company Statement of Operations, Company Statement of Changes in Net Assets set out on pages 14-16, Statements of Assets and Liabilities of each Fund, Statements of Operations of each Fund, Statements of Changes in Net Assets of each Fund, Statement of Investments of each Fund set out within the audited information on pages 17-973, related notes set out on pages 974-1038, including the summary of significant accounting policies set out in note 3 on pages 975-978.

The financial reporting framework that has been applied in their preparation is Irish Law and FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland issued in the United Kingdom by the Financial Reporting Council.

In our opinion:

- the financial statements give a true and fair view of the assets, liabilities and financial position of the Company as at 30 June 2026 and of its changes in net assets attributable to holders of redeemable participating shares for the year then ended;
- the financial statements have been properly prepared in accordance with FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland; and
- the financial statements have been properly prepared in accordance with the requirements of the Companies Act 2014, the European Communities (Undertakings for Collective Investment in Transferable Securities Regulations) 2011 and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2026.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) (ISAs (Ireland)) and applicable law. Our responsibilities under those standards are further described in the Auditor's Responsibilities section of our report. We believe that the audit evidence we have obtained is a sufficient and appropriate basis for our opinion. Our audit opinion is consistent with our report to the audit committee.

We were appointed as auditor by the directors on 1 November 2021. The period of total uninterrupted engagement is the five years ended 30 June 2026. We have fulfilled our ethical responsibilities under, and we remained independent of the Company in accordance with, ethical requirements applicable in Ireland, including the Ethical Standard issued by the Irish Auditing and Accounting Supervisory Authority (IAASA) as applied to listed public interest entities. No non-audit services prohibited by that standard were provided.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the director's use of the going concern basis of accounting in the preparation of the financial statements is appropriate. Our evaluation of the director's assessment of the entity's ability to continue to adopt the going concern basis of accounting included considerations of the inherent risks to the Company's business model and analysis of how those risks might affect the Company's financial resources or ability to continue operations over the going concern period. The risks we considered most likely to adversely affect the Company's available financial resources over this period was the

KPMG, an Irish partnership and a member firm of the KPMG global organisation of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee

Independent Auditor's Report to the Members of Vanguard Funds plc (continued)

Conclusions relating to going concern (continued)

availability of capital to meet operating costs and other financial commitments (liquidity risk) and the valuation of investments at fair value as a result of market performance (price risk).

In the Director's assessment, it was noted that the Company held and continues to hold, liquid portfolio shares through different funds, and the composition of the funds' portfolios reduces the going concern risk resulting from market performance of the investments. The Director's assessment is consistent with our understanding of the Company.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue as a going concern for a period of at least twelve months from the date when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Detecting irregularities including fraud

We identified the areas of laws and regulations that could reasonably be expected to have a material effect on the financial statements and risks of material misstatement due to fraud, using our understanding of the entity's industry, regulatory environment and other external factors and inquiry with the directors. In addition, our risk assessment procedures included:

- Inquiring with the directors and management as to the Company's policies and procedures regarding compliance with laws and regulations, identifying, evaluating and accounting for litigation and claims, as well as whether they have knowledge of non-compliance or instances of litigation or claims.
- Inquiring of directors, the audit committee, and inspection of policy documentation as to the Company's high-level policies and procedures to prevent and detect fraud, as well as whether they have knowledge of any actual, suspected or alleged fraud.
- Inquiring of directors and the audit committee, regarding their assessment of the risk that the financial statements may be materially misstated due to irregularities, including fraud.
- Inspecting the Company's regulatory and legal correspondence.
- Reading Board and audit committee minutes.
- Performing planning analytical procedures to identify any unusual or unexpected relationships.

We discussed identified laws and regulations, fraud risk factors and the need to remain alert among the audit team.

Firstly, the Company is subject to laws and regulations that directly affect the financial statements including companies and financial reporting legislation. We assessed the extent of compliance with these laws and regulations as part of our procedures on the related financial statement items, including assessing the financial statement disclosures and agreeing them to supporting documentation when necessary.

Secondly, the Company is subject to many other laws and regulations where the consequences of non-compliance could have a material effect on amounts or disclosures in the financial statements, for instance through the imposition of fines or litigation. We identified the following areas as those most likely to have such an effect: certain aspects of company legislation recognising the financial and regulated nature of the Company's activities and its legal form.

Independent Auditor's Report to the Members of Vanguard Funds plc (continued)

Detecting irregularities including fraud (continued)

Auditing standards limit the required audit procedures to identify non-compliance with these non-direct laws and regulations to inquiry of the directors and other management and inspection of regulatory and legal correspondence, if any. These limited procedures did not identify actual or suspected non-compliance.

We assessed events or conditions that could indicate an incentive or pressure to commit fraud or provide an opportunity to commit fraud. As required by auditing standards, we performed procedures to address the risk of management override of controls. On this audit we do not believe there is a fraud risk related to revenue recognition. We did not identify any additional fraud risks.

In response to the fraud risk, we also performed procedures including:

- Identifying journal entries and other adjustments to test based on risk criteria and comparing the identified entries to supporting documentation.
- Assessing significant accounting estimates for bias
- Assessing the disclosures in the financial statements

As the Company is regulated, our assessment of risks involved obtaining an understanding of the legal and regulatory framework that the Company operates and gaining an understanding of the control environment including the entity's procedures for complying with regulatory requirements.

Owing to the inherent limitations of an audit, there is an unavoidable risk that we may not have detected some material misstatements in the financial statements, even though we have properly planned and performed our audit in accordance with auditing standards. For example, the further removed non-compliance with laws and regulations (irregularities) is from the events and transactions reflected in the financial statements, the less likely the inherently limited procedures required by auditing standards would identify it.

In addition, as with any audit, there remains a higher risk of non-detection of irregularities, as these may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls. We are not responsible for preventing non-compliance and cannot be expected to detect non-compliance with all laws and regulations.

Key audit matters: our assessment of risks of material misstatement

Key audit matters are those matters that, in our professional judgement, were of most significance in the audit of the financial statements and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by us, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Independent Auditor's Report to the Members of Vanguard Funds plc (continued)

Key audit matters: our assessment of risks of material misstatement (continued)

In arriving at our audit opinion above, the key audit matters, in decreasing order of audit significance, were as follows (unchanged from 2025):

Valuation and Accuracy of pricing of Financial Assets and Liabilities at fair value through profit or loss: Transferable Securities (Assets) USD 275,427,476,009 (2025: USD 199,726,654,402), Time Deposits (Assets) USD 60,709,230 (2025: nil), Reverse Repurchase Agreements (Assets) USD 88,948,740 (2025: nil), Financial Derivative Instruments (Assets) USD 105,248,466 (2025: USD 321,833,915) and Financial Derivative Instruments (Liabilities) USD 222,063,258 (2025: USD 86,112,104), together being the "Company's Investments".

Refer to pages 976 to 977 (Note 3d - Financial Assets and Financial Liabilities) and pages 1022 to 1036 (Note 17 - Fair Value Hierarchy)

The key audit matter	How the matter was addressed in our audit
The Company's investments make up 99.5% of the net asset value ("NAV") of the Company and are considered to be the key driver for the Company's results and performance. While the nature of the Company's investments do not require significant levels of judgement, investments are identified as a significant area of audit focus due to their significance in the context of the financial statements as a whole. Investments held by the Company include equities, investment funds, fixed income securities, time deposits, reverse repurchase agreements, futures contracts, forward currency exchange contracts and total return swaps. The Company's investments have the greatest impact on our overall audit strategy and allocation of resources both at planning and completion of our audit. We determined this matter to be a Key Audit Matter for the reasons set out above.	Our audit procedures included: We obtained an understanding of the process and procedures in place at Brown Brothers Harriman Fund Administration Services (Ireland) Limited (the "Administrator") to price the portfolio of investments held by the Company. We tested the accuracy and valuation of the financial assets and financial liabilities at fair value through profit or loss included in the Statement of Financial Position of the Company at 30 June 2026 by obtaining pricing downloads from external reputable sources, and compared these valuations to the Company's prices. A key judgement was made by the audit team to involve our valuations specialist KPMG Financial Instruments ("KFI") to assist us to independently re-price and value accurately the investments held by the Company as at 30 June 2026. We assessed the adequacy of the disclosure of the Company's investments in accordance with the fair value level hierarchy as set out in FRS 102. Based on evidence obtained, no material misstatements were identified.

Independent Auditor's Report to the Members of Vanguard Funds plc (continued)

Key audit matters: our assessment of risks of material misstatement (continued)

Existence and Ownership of Financial Assets and Liabilities at fair value through profit or loss: Transferable Securities (Assets) USD 275,427,476,009 (2025: USD 199,726,654,402), Time Deposits (Assets) USD 60,709,230 (2025: nil), Reverse Repurchase Agreements (Assets) USD 88,948,740 (2025: nil), Financial Derivative Instruments (Assets) USD 105,248,466 (2025: USD 321,833,915) and Financial Derivative Instruments (Liabilities) USD 222,063,258 (2025: 86,112,104), together being the "Company's Investments".

Refer to pages 976 to 977 (Note 3d- Financial Assets and Financial Liabilities)

The key audit matter	**How the matter was addressed in our audit**
The Company's investments make up 99.5% of the net asset value ("NAV") of the Company and are considered to be the key driver for the Company's results and performance. While the nature of the Company's investments do not require significant levels of judgement, investments are identified as a significant area of audit focus due to their significance in the context of the financial statements as a whole. Investments held by the Company include equities, investment funds, fixed income securities, futures contracts, forward currency exchange contracts and total return swaps. The Company's investments have the greatest impact on our overall audit strategy and allocation of resources both at planning and completion of our audit. We determined this matter to be a Key Audit Matter for the reasons set out above.	Our audit procedures included: We obtained an understanding of the process and procedures in place at the Administrator to record investment transactions during the year and to reconcile positions at period end to the portfolio of investments held by the Company. To test the existence and ownership of financial assets and financial liabilities at fair value through profit or loss as at 30 June 2026, we obtained independent confirmations from the Depositary and derivative counterparties. We reconciled these confirmed financial assets and financial liabilities at fair value through profit or loss to the Company's accounting records, performing alternative audit procedures where necessary. Based on evidence obtained, no material misstatements were identified.

Our application of materiality and an overview of the scope of our audit

Materiality for the financial statements as a whole was set at USD 2,770m (2025: USD 2,010m), determined with reference to a benchmark of the Company's Net Asset Value (of which it represents 1% (2025: 1%).

We applied our judgement in determining the most appropriate benchmark. The factors which had the most significant impact were:

- the elements of the financial statements (total assets, net asset value, total investment income and change in net assets);
- the items on which attention of the users of the Company's financial statements tends to be focused;
- the nature of the Company, where the Company is in its life cycle, and the industry and economic environment in which the Company operates; and
- the Company's ownership structure and the way it is financed.

Independent Auditor's Report to the Members of Vanguard Funds plc (continued)

Our application of materiality and an overview of the scope of our audit (continued)

In applying our judgement in determining the percentage to be applied to the benchmark, the following qualitative factors, which had the most significant impact, increasing our assessment of materiality were:

- the Company's ownership structure and the way in which the entity is financed;
- the limited amount of external debt on the Company's balance sheet; and
- the stability of the business environment in which it operates.

We applied Company materiality to assist us determine the overall audit strategy.

Performance materiality for the financial statements as a whole was set at USD 2,077m (2025: USD 1,507m), determined with reference to a benchmark of the Company's Net Asset Value (of which it represents 0.75% (2025: 0.75%).

We applied our judgement in determining performance materiality. The following factors were considered to have the most significant impact on our assessment of performance materiality:

- entity level control deficiencies, such as in the control environment;
- the number and severity of deficiencies in control activities, including those that may be pervasive;
- turnover of senior management or key financial reporting personnel;
- the number and/or value of detected misstatements;
- the value of uncorrected misstatements, including the cumulative current period effect of immaterial prior period uncorrected misstatements; and
- management's attitude towards correcting misstatements.

We applied Company performance materiality to assist us in determining what risks were significant risks for the Company.

We reported to the Audit Committee any corrected or uncorrected identified misstatements exceeding USD 138.48m (2025: USD100.48m), in addition to other identified misstatements that warranted reporting on qualitative grounds. With specific regard to the valuation of the Company's financial assets and liabilities at fair value through profit or loss, we also reported to the Audit Committee all corrected and uncorrected misstatements we identified through our audit with a value in excess of 0.5% of each Fund's net asset value.

Our audit was undertaken to the materiality and performance materiality level specified above and was all performed by a single engagement team in Dublin.

Other information

The directors are responsible for the other information presented in the Annual Report together with the financial statements. The other information comprises the information included in the Tracking Error, Report From the Directors, Investment Objective of each Fund, Performance Summary (unaudited) of each Fund and Significant Portfolio Changes (unaudited) of each Fund included within the unaudited information on pages 17-973, Additional Information and Regulatory Disclosures (unaudited), Report of the Depositary to the Shareholders (unaudited), Additional Information for Investors in the Federal Republic of Germany (unaudited), Appendix: EU Sustainable Finance (unaudited) and Management and Administration (unaudited). The financial statements and our auditor's report thereon do not comprise part of the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except as explicitly stated below, any form of assurance conclusion thereon.

Independent Auditor's Report to the Members of Vanguard Funds plc (continued)

Other information (continued)

Our responsibility is to read the other information and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work we have not identified material misstatements in the other information.

Based solely on our work on the other information undertaken during the course of the audit, we report that:

- we have not identified material misstatements in the directors' report;
- in our opinion, the information given in the directors' report is consistent with the financial statements;
- in our opinion, those parts of the directors' report specified for our review, which does not include sustainability reporting when required by Part 28 of the Companies Act 2014, have been prepared in accordance with the Companies Act 2014.

Corporate governance statement

In addition we report, in relation to information given in the Corporate Governance Statement on page 10, that:

- based on knowledge and understanding of the Company and its environment obtained in the course of our audit, no material misstatements in the information identified above have come to our attention; and
- based on the work undertaken in the course of our audit, in our opinion:
    - the description of the main features of the internal control and risk management systems in relation to the process for preparing the financial statements is consistent with the financial statements and has been prepared in accordance with the Companies Act 2014,
    - the Company is not subject to the European Communities (Takeover Bids (Directive 2004/25/EC)) Regulations 2006 and therefore not required to include information relating to voting rights and other matters required by those Regulations and specified by the Companies Act 2014 for our consideration in the Corporate Governance Statement;
    - the Corporate Governance Statement contains the information required by the Companies Act 2014; and
    - the Corporate Governance Statement contains the information required by the European Union (Disclosure of Non-Financial and Diversity Information by certain large undertakings and groups) Regulations 2017.

Opinions on other matters prescribed by law Companies Act 2014

We have obtained all the information and explanations which we consider necessary for the purposes of our audit.

In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited and the financial statements are in agreement with the accounting records.

Report on income tax information

The Company was not required to prepare a report on income tax information for the financial year ended 30 June 2025 in accordance with European Union (Disclosure of Income Tax Information by Certain Undertakings and Branches) Regulations 2023.

We have nothing to report on other matters on which we are required to report by exception.

The Companies Act 2014 requires us to report to you if, in our opinion, the disclosures of directors' remuneration and transactions required by Sections 305 to 312 of the Act are not made. We have nothing to report in this regard.

Independent Auditor's Report to the Members of Vanguard Funds plc (continued)

Respective responsibilities and restrictions on use

Responsibilities of directors for the financial statements

As explained more fully in the directors' responsibilities statement set out on page 9, the directors are responsible for: the preparation of the financial statements including being satisfied that they give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A fuller description of our responsibilities is provided on IAASA's website at https://iaasa.ie/publications/description-of-the-auditors-responsibilities-for-the-audit-of-the-financial-statements/.

The purpose of our audit work and to whom we owe our responsibilities

Our report is made solely to the Company's members, as a body, in accordance with Section 391 of the Companies Act 2014. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

Product Name:
Vanguard ESG Developed Asia Pacific All Cap UCITS ETF

Entity LEI:
549300KDUKNBQMIADR68

Environmental and/or social characteristics

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

Did this financial product have a sustainable investment objective?

☐ YES	☒ NO
☐ It made **sustainable investments with an environmental objective:** __%	☐ It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
	☐ with a social objective
☐ It made **sustainable investments with a social objective:** 0.00%	☒ It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Through the screening out of stocks of companies from its portfolio based on the potentially detrimental impact of their conduct or products on society and / or the environment the fund promoted certain environmental and/or social characteristics.

The Fund promoted the following environmental characteristics:

- Reduction of environmental harm by excluding investments in companies based on certain fossil fuel related activities.

The Fund also promoted the following social characteristics relating to social norms and standards:

- Human rights, labour rights and anti-corruption as set out in the principles of the UN Global Compact;

and

- Avoided the financing of controversial weapons, including nuclear weapons.

The Fund is passively managed. Its objective is to track the performance of FTSE Developed Asia Pacific All Cap Choice Index (the "Index"), which is a designated reference benchmark for the purpose of attaining the environmental and social characteristics promoted by the Fund.

The Index methodology excludes stocks of companies that the Index provider determines (a) to be engaged or involved in specific activities of the supply chain for, and / or (b) derive revenue (above a threshold specified by the Index provider) from certain activities relating to the following: (a) vice products (adult entertainment, alcohol, gambling, tobacco, cannabis); (b) non-renewable energy (nuclear power and fossil fuels (which includes (i) companies that have greater than 50% ownership of companies that own proved or probable reserves in coal,

Public

oil or gas, (ii) oil and gas production and supporting services, (iii) coal extraction, production and supporting services, (iv) oil and gas and thermal coal power generation, (v) extraction of arctic oil and gas and (vi) extraction of oil sands)); and (c) weapons chemical & biological weapons, cluster munitions, anti-personnel landmines, nuclear weapons, civilian firearms, and conventional military weapons.

The Index provider defines what constitutes "involvement" in each activity. This may be based on percentage of revenue or any connection to a restricted activity regardless of the amount of revenue received, and will relate to specific parts of the supply chain. Details regarding what constitutes "involvement" for each activity and/or the revenue thresholds applied, as well as treatment of company ownership structures, can be found in Appendix A (Product-related exclusions) of FTSE's exclusions methodology document, or "Ground Rules". The link can be found in the prospectus under the heading 'Further Information on the Index'.

The index methodology also excluded companies based on certain controversial conduct, which is achieved by excluding companies that meet the following criteria in relation to the United Nations Global Compact Principles regarding labour, human rights, environmental, and anticorruption standards:

- For large and mid-cap sized companies (as determined by the Index provider), those which have been deemed 'Non-Compliant' with such standards;
- For small-cap size companies (as determined by the Index provider), those which have been deemed either 'Watchlist' or 'Non-Compliant' with such standards, in each case by reference to data provided by a third-party data provider (further details of which may be obtained in the documents linked to in the 'Further Information on the Index' in the prospectus). The Index also excludes companies specifically on the USA's Department of Homeland Security's Uyghur Forced Labor Prevention Act Entity List.

Derivatives have not been used to meet the environmental or social characteristics of this Fund.

The investments of this Fund contributed to the following EU Taxonomy environmental objectives:

- Climate Change Mitigation = 0.00%
- Climate Change Adaptation = 0.00%
- Sustainable use and protection of water and marine resources = 0.00%
- Transition to a circular economy = 0.00%
- Pollution prevention and control = 0.00%
- Protection and restoration of biodiversity and ecosystems = 0.00%

The figures for all the EU Taxonomy environmental objectives above are weighted averages of the actual values as at the end of September 2025, December 2025, March 2026 and June 2026.

For this section, ESG data is sourced from third-party data vendors. There is currently no universally accepted way of reporting, rating or categorising ESG data and so, third-party ESG data may be subject to certain limitations (including in relation to the quality, timeliness, completeness and availability of such ESG data compared to financial data). The ESG data, differences between the mapping of data between vendors and data processing systems, models and methodologies used, and the judgements, estimates or assumptions made, are rapidly evolving and this may directly or indirectly affect the metrics and data contained herein. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data. The figures are not subject to independent assurance by an auditor or other third party.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The Investment Manager (being the entity specified in respect of the Fund as having been appointed to provide investment management services) measured the attainment of the environmental and social characteristics by assessing the extent to which the exclusion criteria described above were applied and measuring the proportion of the portfolio excluded from the Parent Index (being the FTSE Developed Asia Pacific All Cap Index).

Regarding the extent to which the exclusions have been applied, the Fund tracked the Reference Benchmark appropriately.

Exclusion Category	Exclusion Rate (%)
Controversies	1.75%
Non-Renewable Energy	16.61%

Public

Exclusion Category	Exclusion Rate (%)
Vice Products	2.32%
Weapons	3.84%
Overall Exclusions	20.44%

Note that constituents may be excluded under multiple categories, as the exclusions categories are not mutually exclusive, and therefore the values shown will not sum to the total proportion of the portfolio excluded from the Index.

Exclusion data for the period ending 30 June 2026 has been prepared using an updated methodology. As this approach differs from that applied in prior years, figures disclosed for 2025 may not be directly comparable with historical exclusion data.

*From year ending 30 June 2024 there was a change to the data provider. Given the differences in methodologies between the data providers, this could result in variance to the numbers shown in this disclosure than if the data had been sourced from one provider.

… And compared to previous periods?

Exclusion Category	2025	2024*	2023
Overall Exclusions	19.60%	18.57%	18.76%

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

While the Fund promoted environmental and social characteristics, it did not commit to make any sustainable investments. This is separate to our EU Taxonomy-alignment disclosures.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Public

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund considered principal adverse impacts on sustainability factors during the reference period.

By excluding stocks of companies that the Index provider determines (a) to be engaged or involved in specific parts of the supply chain for, and / or (b) derive revenue (above a threshold specified by the Index provider)from certain activities relating to non-renewable energy (nuclear power and fossil fuels (which includes (i) companies that have greater than 50% ownership of companies that own proved or probable reserves in coal, oil or gas, (ii) oil and gas production and supporting services, (iii) coal extraction, production and supporting services, (iv) oil and gas and thermal coal power generation, (v) extraction of arctic oil and gas and (vi) oil sands)), the Fund considered the following principal adverse impact indicator:

- Exposure to companies active in the fossil fuel sector

By excluding stocks of companies that the Index provider determines (a) to be engaged or involved in specific parts of the supply chain for, and / or (b) derive revenue (above a threshold specified by the Index provider) from certain activities relating to weapons (chemical & biological weapons, cluster munitions, anti-personnel landmines, nuclear weapons, civilian firearms, and conventional military weapons), the Fund considered the following principal adverse impact indicator:

- Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons

The third party data which is utilized by the Index Provider considers a number of norms and standards including those that are enshrined in the UN Global Compact and the OECD Guidelines for Multinational Enterprises. By excluding stocks of companies based on certain controversial conduct (which is achieved by excluding companies that meet certain criteria in relation to the United Nations Global Compact Principles regarding labour, human rights, environmental, and anti-corruption standards and other international norms), the Fund considered the following principal adverse impact indicator:

- Violations of UN Global Compact principles and OECD Guidelines for Multinational Enterprises

The values of these principal adverse impact indicators can be found in the table below. These figures are weighted averages of the actual values as at the end of September 2025, December 2025, March 2026 and June 2026. The data relating to these principal adverse indicators may be greater than zero because of the data methodology differences between the Index provider and Vanguard's principal adverse impact indicator data vendor.

For this section, ESG data is sourced from third-party data vendors. There is currently no universally accepted way of reporting, rating or categorising ESG data and so, third-party ESG data may be subject to certain limitations (including in relation to the quality, timeliness, completeness and availability of such ESG data compared to financial data). Samsung Electronics Co Ltd	Telecommunications	1.02%	Korea
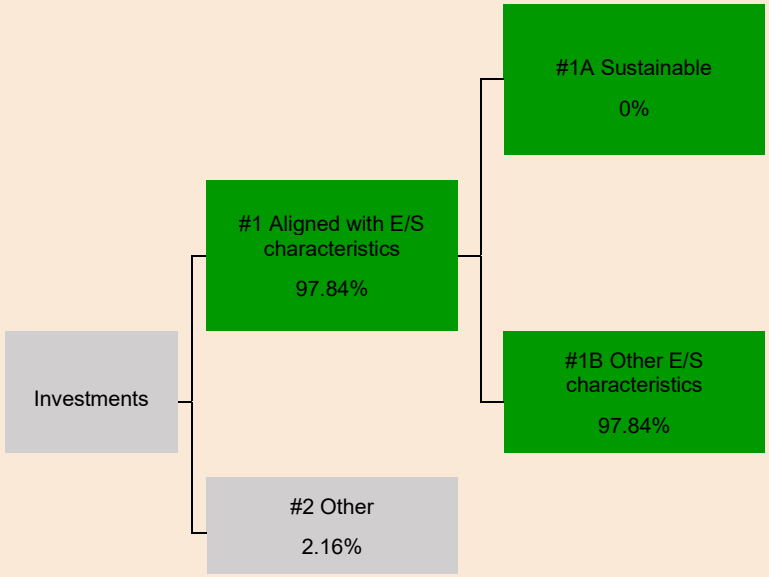
DBS Group Holdings Ltd	Financials	0.95%	Singapore

Public

What was the proportion of sustainability-related investments?



Please see the information below in this respect.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

The Fund invested 97.84% (compared to year end 30 June 2025: 98.23%) of its net assets in line with the ESG requirements of the Index, which is consistent with the environmental and/or social characteristics promoted by the Fund. The Fund did not commit to making any sustainable investments. The Fund did not use indirect exposures (including derivatives) to attain the environmental or social characteristics promoted by the Fund.

The remaining 2.16% (compared to year end 30 June 2025: 1.77%) of the Fund's net assets are in other investments ("#2 Other"), which are not aligned with environmental and/or social characteristics promoted by the Fund.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

	Asset Allocation Historical Comparison			
	2026	**2025**	**2024**	**2023**

In which economic sectors were the investments made?

The following table sets out the sectors and sub-sectors in which the Fund invested. The classifications for Energy and Utilities are presented at levels 1 and 4 in accordance with the Industry Benchmark Classification, which reflects the benchmark administrator's ESG-screened, rules-based index methodology, while all other sectors are presented at levels 1 and 2.

These figures are percentages of net assets and are the weighted averages of the market value as at the end of September 2025, December 2025, March 2026 and June 2026.

Sector	Sub-sector	Proportion
Basic Materials	Basic Resources	2.53%
Basic Materials	Chemicals	2.60%
Consumer Discretionary	Automobiles & Parts	6.01%
Consumer Discretionary	Consumer Products & Services	5.88%
Consumer Discretionary	Media	0.41%
Consumer Discretionary	Retail	2.88%
Consumer Discretionary	Travel & Leisure	1.00%
Consumer Staples	Food, Beverage & Tobacco	1.66%
Consumer Staples	Personal Care, Drug & Grocery Stores	2.09%

Utilities	Conventional Electricity	0.00%
Utilities	Multi-Utilities	0.15%
Utilities	Waste & Disposal Services	0.12%
Utilities	Water	0.01%

Public

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

While the Fund does not commit to making environmentally sustainable investments within the meaning of the EU Taxonomy regulation, the overall Taxonomy-alignment of the Fund, for the reference period, is set out in the table below.

The proportion of the Fund's investments that contributed to each of the environmental objectives is as follows:

- Climate Change Mitigation = 0.00%
- Climate Change Adaptation = 0.00%
- Sustainable use and protection of water and marine resources = 0.00%
- Transition to a circular economy = 0.00%
- Pollution prevention and control = 0.00%
- Protection and restoration of biodiversity and ecosystems = 0.00%

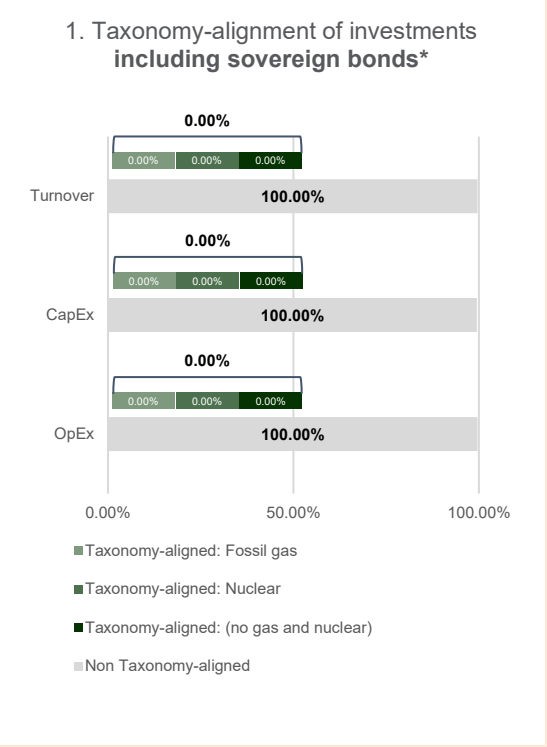
The figures for all the EU Taxonomy environmental objectives are weighted averages of the actual values as at the end of September 2025, December 2025, March 2026 and June 2026.

At the end of the reference period the Fund had no sovereign exposure (i.e., exposure to governments, central banks or supranational issuers).

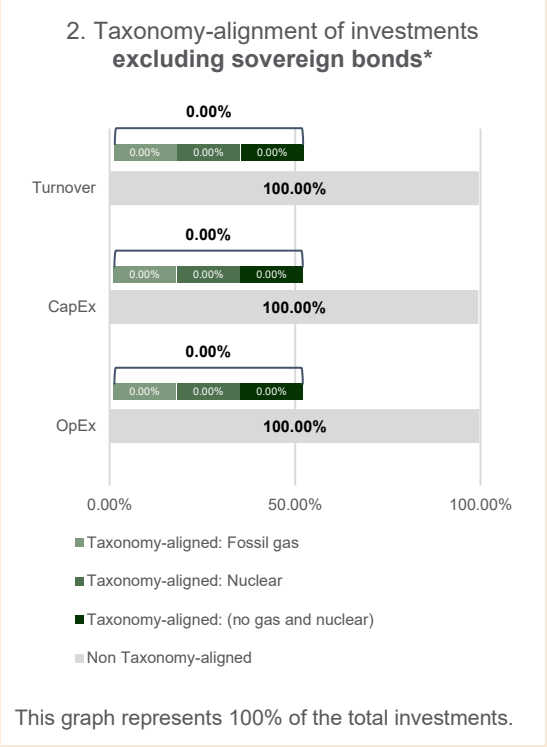
For this section, ESG data is sourced from third-party data vendors. There is currently no universally accepted way of reporting, rating or categorising ESG data and so, third-party ESG data may be subject to certain limitations (including in relation to the quality, timeliness, completeness and availability of such ESG data compared to financial data). The ESG data, differences between the mapping of data between vendors and data processing systems, models and methodologies used, and the judgements, estimates or assumptions made, are rapidly evolving and this may directly or indirectly affect the metrics and data contained herein. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data. The figures are not subject to independent assurance by an auditor or other third party.

Public

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?[1]



☐ Yes:



☐ In fossil gas ☐ In nuclear energy

☒ No

Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- **- operational expenditure** (OpEx) reflecting the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

** For the purpose of these graphs, "sovereign bonds" consist of all sovereign exposures*

What was the share of investments made in transitional and enabling activities?

The share of the Fund's investments made in transitional and enabling activities is as follows:

- Transitional Activities = 0.00%
- Enabling Activities = 0.00%

The figures are weighted averages of the actual values as at the end of September 2025, December 2025, March 2026 and June 2026.

For this section, ESG data is sourced from third-party data vendors. There is currently no universally accepted way of reporting, rating or categorising ESG data and so, third-party ESG data may be subject to certain limitations (including in relation to the quality, timeliness, completeness and availability of such ESG data compared to financial data). The ESG data, differences between the mapping of data between vendors and data processing systems, models and methodologies used, and the judgements, estimates or assumptions made, are rapidly evolving and this may directly or indirectly affect the metrics and data contained herein. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties

[1] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Public

assume no responsibility for errors or omissions in the data. The figures are not subject to independent assurance by an auditor or other third party.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

For this section, ESG data is sourced from third-party data vendors. There is currently no universally accepted way of reporting, rating or categorising ESG data and so, third-party ESG data may be subject to certain limitations (including in relation to the quality, timeliness, completeness and availability of such ESG data compared to financial data). Protection and restoration of biodiversity and ecosystems	0.00	0.00	N/A	N/A

* From year ending 30 June 2025 was the first reporting period in which Vanguard could report on all six EU Taxonomy environmental objectives, as taxonomy aligned data had only been made available from this year.
** From year ending 30 June 2024 there was a change to the data provider. Given the differences in methodologies between the data providers, this could result in variance to the numbers shown in this disclosure than if the data had been sourced from one provider.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The remaining 2.16% (compared to year end 30 June 2025: 1.77%) of the Fund's net assets are in other investments ("#2 Other"), which are not aligned with environmental and/or social characteristics promoted by the Fund.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Public

As outlined above, the Index excluded stocks of companies that the sponsor of the Index determined to be engaged or involved in, and / or derive revenue (above a threshold specified by the Index provider) from, certain activities in order to promote the environmental and social characteristics of the Fund. In order to ensure that the Fund promoted such characteristics on an ongoing basis, the Investment Manager monitored the Index and its exclusions on a regular basis to ensure the alignment of the investment strategy with the methodology of the Index.

Rebalancing activity in ESG index funds is reviewed and overseen by several 'lines of defence', including Vanguard's portfolio management, risk management, investment data and product teams. Inputs from third-party data providers, consistent with the Index provider's own ESG data, were used to analyse Index constituents as part of this review process. This helped mitigate the risk of the Fund holding Index constituents that were inconsistent with the specified ESG screening criteria.

There are additional internal trade compliance controls, that checked whether new instruments bought were Index constituents as well as checking for any Fund holdings that may no longer be part of the Index. These checks aimed to confirm that out of Index holdings were not added and were removed in a timely fashion. The Investment Manager monitored tracking error (difference between portfolio and Index) on a daily basis and followed up on any significant deviations.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Please see the information below in this respect.

How does the reference benchmark differ from a broad market index?

The Index was constructed from the FTSE Developed Asia Pacific All Cap Index which was then screened for certain environmental, social, and corporate governance criteria by the sponsor of the Index, which is independent of Vanguard.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

See above.

How did this financial product perform compared with the reference benchmark?

The figures in the table below show financial performance (net) between 1 July 2025 and 30 June 2026.

Share Class	Fund Performance (%)	Reference Benchmark Performance (%)
USD Accumulating	48.44%	48.84%
USD Distributing	48.44%	48.84%

How did this financial product perform compared with the broad market index?

The figures in the table below show financial performance (net, in USD) between 1 July 2025 and 30 June 2026.

Fund Performance (%)	Broad Market Index Performance (%)
48.44%	26.82%

Public

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☐ YES	☒ NO
☐ It made **sustainable investments with an environmental objective:** __%	☐ It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
	☐ with a social objective
☐ It made **sustainable investments with a social objective:** 0.00%	☒ It promoted E/S characteristics, but **did not make any sustainable investments**

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Through the screening out of stocks of companies from its portfolio based on the potentially detrimental impact of their conduct or products on society and / or the environment the fund promoted certain environmental and / or social characteristics.

The Fund promoted the following environmental characteristics:

- Reduction of environmental harm by excluding investments in companies based on certain fossil fuel related activities.

The Fund also promoted the following social characteristics relating to social norms and standards:

- Human rights, labour rights and anti-corruption as set out in the principles of the UN Global Compact;

and

- Avoided the financing of controversial weapons, including nuclear weapons.

The Fund is passively managed. Its objective is to track the performance of FTSE Developed Europe All Cap Choice Index (the "Index"), which is a designated reference benchmark for the purpose of attaining the environmental and social characteristics promoted by the Fund.

The Index methodology excludes stocks of companies that the Index provider determines (a) to be engaged or involved in specific activities of the supply chain for, and / or (b) derive revenue (above a threshold specified by the Index provider) from certain activities relating to the following: (a) vice products (adult entertainment,

Public

alcohol, gambling, tobacco, cannabis); (b) non-renewable energy (nuclear power and fossil fuels (which includes (i) companies that have greater than 50% ownership of companies that own proved or probable reserves in coal, oil or gas, (ii) oil and gas production and supporting services, (iii) coal extraction, production and supporting services, (iv) oil and gas and thermal coal power generation, (v) extraction of arctic oil and gas and (vi) extraction of oil sands)); and (c) weapons chemical & biological weapons, cluster munitions, anti-personnel landmines, nuclear weapons, civilian firearms, and conventional military weapons.

The Index provider defines what constitutes "involvement" in each activity. This may be based on percentage of revenue or any connection to a restricted activity regardless of the amount of revenue received, and will relate to specific parts of the supply chain. Details regarding what constitutes "involvement" for each activity and/or the revenue thresholds applied, as well as treatment of company ownership structures, can be found in Appendix A (Product-related exclusions) of FTSE's exclusions methodology document, or "Ground Rules." The link can be found in the prospectus under the heading 'Further Information on the Index'.

The index methodology also excluded companies based on certain controversial conduct, which is achieved by excluding companies that meet the following criteria in relation to the United Nations Global Compact Principles regarding labour, human rights, environmental, and anticorruption standards:

- For large and mid-cap sized companies (as determined by the Index provider), those which have been deemed 'Non-Compliant' with such standards;
- For small-cap size companies (as determined by the Index provider), those which have been deemed either 'Watchlist' or 'Non-Compliant' with such standards, in each case by reference to data provided by a third-party data provider (further details of which may be obtained in the documents linked to in the 'Further Information on the Index' in the prospectus). The Index also excludes companies specifically on the USA's Department of Homeland Security's Uyghur Forced Labor Prevention Act Entity List.

Derivatives have not been used to meet the environmental or social characteristics of this Fund.

The investments of this Fund contributed to the following EU Taxonomy environmental objectives:

- Climate Change Mitigation = 2.39%
- Climate Change Adaptation = 0.03%
- Sustainable use and protection of water and marine resources = 0.00%
- Transition to a circular economy = 0.35%
- Pollution prevention and control = 0.01%
- Protection and restoration of biodiversity and ecosystems = 0.00%

The figures for all the EU Taxonomy environmental objectives above are weighted averages of the actual values as at the end of September 2025, December 2025, March 2026 and June 2026.

For this section, ESG data is sourced from third-party data vendors. There is currently no universally accepted way of reporting, rating or categorising ESG data and so, third-party ESG data may be subject to certain limitations (including in relation to the quality, timeliness, completeness and availability of such ESG data compared to financial data). The ESG data, differences between the mapping of data between vendors and data processing systems, models and methodologies used, and the judgements, estimates or assumptions made, are rapidly evolving and this may directly or indirectly affect the metrics and data contained herein. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data. The figures are not subject to independent assurance by an auditor or other third party.

Public

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The Investment Manager (being the entity specified in respect of the Fund as having been appointed to provide investment management services) measured the attainment of the environmental and social characteristics by assessing the extent to which the exclusion criteria described above were applied and measuring the proportion of the portfolio excluded from the Parent Index (being the FTSE Developed Europe All Cap Index).

Regarding the extent to which the exclusions have been applied, the Fund tracked the Reference Benchmark appropriately.

Exclusion Category	Exclusion Rate (%)
Controversies	2.58%
Non-Renewable Energy	20.99%
Vice Products	3.54%
Weapons	6.66%
Overall Exclusions	30.34%

Note that constituents may be excluded under multiple categories, as the exclusions categories are not mutually exclusive, and therefore the values shown will not sum to the total proportion of the portfolio excluded from the Index.

Exclusion data for the period ending 30 June 2026 has been prepared using an updated methodology. As this approach differs from that applied in prior years, figures disclosed for 2025 may not be directly comparable with historical exclusion data.

*From year ending 30 June 2024 there was a change to the data provider. Given the differences in methodologies between the data providers, this could result in variance to the numbers shown in this disclosure than if the data had been sourced from one provider.

… And compared to previous periods?

Exclusion Category	2025	2024*	2023
Overall Exclusions	30.17%	30.20%	30.53%

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

While the Fund promoted environmental and social characteristics, it did not commit to make any sustainable investments. This is separate to our EU Taxonomy-alignment disclosures.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Public

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund considered principal adverse impacts on sustainability factors during the reference period.

By excluding stocks of companies that the Index provider determines (a) to be engaged or involved in specific parts of the supply chain for, and / or (b) derive revenue (above a threshold specified by the Index provider) from certain activities relating to non-renewable energy (nuclear power and fossil fuels (which includes (i) companies that have greater than 50% ownership of companies that own proved or probable reserves in coal, oil or gas, (ii) oil and gas production and supporting services, (iii) coal extraction, production and supporting services, (iv) oil and gas and thermal coal power generation, (v) extraction of arctic oil and gas and (vi) oil sands)), the Fund considered the following principal adverse impact indicator:

- Exposure to companies active in the fossil fuel sector

By excluding stocks of companies that the Index provider determines (a) to be engaged or involved in specific parts of the supply chain for, and / or (b) derive revenue (above a threshold specified by the Index provider) from certain activities relating to weapons (chemical & biological weapons, cluster munitions, anti-personnel landmines, nuclear weapons, civilian firearms, and conventional military weapons), the Fund considered the following principal adverse impact indicator:

- Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons

The third-party data which is utilized by the Index Provider considers a number of norms and standards including those that are enshrined in the UN Global Compact and the OECD Guidelines for Multinational Enterprises. By excluding stocks of companies based on certain controversial conduct (which is achieved by excluding companies that meet certain criteria in relation to the United Nations Global Compact Principles regarding labour, human rights, environmental, and anti-corruption standards and other international norms), the Fund considered the following principal adverse impact indicator:

- Violations of UN Global Compact principles and OECD Guidelines for Multinational Enterprises

The values of these principal adverse impact indicators can be found in the table below. These figures are weighted averages of the actual values as at the end of September 2025, December 2025, March 2026 and June 2026. The data relating to these principal adverse indicators may be greater than zero because of the data methodology differences between the Index provider and Vanguard's principal adverse impact indicator data vendor.

For this section, ESG data is sourced from third-party data vendors. There is currently no universally accepted way of reporting, rating or categorising ESG data and so, third-party ESG data may be subject to certain limitations (including in relation to the quality, timeliness, completeness and availability of such ESG data compared to financial data). The ESG data, differences between the mapping of data between vendors and data processing systems, models and methodologies used, and the judgements, estimates or assumptions made, are rapidly evolving and this may directly or indirectly affect the metrics and data contained herein. What were the top investments of this financial product?

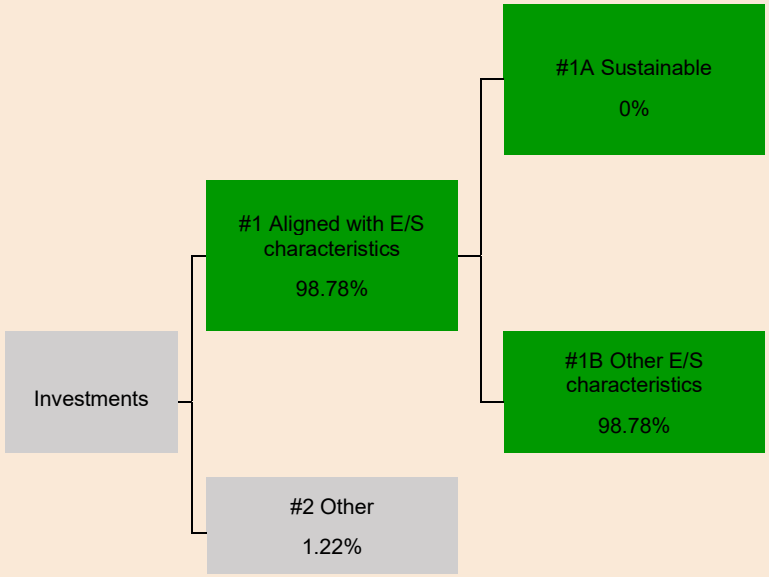
The top investments of this Fund are set out below. These figures are percentages of net assets and are weighted averages of the market value as at the end of September 2025, December 2025, March 2026 and June 2026.

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 01/07/2025 to 30/06/2026.

Largest investments	Sector	% Assets	Country
ASML Holding NV	Technology	6.79%	Netherlands
Novartis AG	Health Care	2.62%	Switzerland
Roche Holding AG	Health Care	2.59%	Switzerland
AstraZeneca PLC	Health Care	2.51%	United Kingdom
Nestle SA	Consumer Staples	2.37%	Switzerland
Siemens AG	Industrials	2.11%	Germany
Banco Santander SA	Financials	1.79%	Spain
Allianz SE	Financials	1.61%	Germany
SAP SE	Technology	1.41%	Germany
UBS Group AG	Financials	1.39%	Switzerland
Novo Nordisk A/S	Health Care	1.37%	Denmark
Banco Bilbao Vizcaya Argentaria SA	Financials	1.26%	Spain
UniCredit SpA	Financials	1.21%	Italy
Unilever PLC	Consumer Staples	1.13%	United Kingdom
Infineon Technologies AG	Technology	1.09%	Germany

Public

What was the proportion of sustainability-related investments?



Please see the information below in this respect.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

The Fund invested 98.78% (compared to year end 30 June 2025: 98.56%) of its net assets in line with the ESG requirements of the Index, which is consistent with the environmental and / or social characteristics promoted by the Fund. The Fund did not commit to making any sustainable investments. The Fund did not use indirect exposures (including derivatives) to attain the environmental or social characteristics promoted by the Fund.

The remaining 1.22% (compared to year end 30 June 2025: 1.44%) of the Fund's net assets are in other investments ("#2 Other"), which are not aligned with environmental and/or social characteristics promoted by the Fund.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

	Asset Allocation Historical Comparison			
	2026	**2025**	**2024**	**2023**

Utilities	Alternative Electricity	0.11%
Utilities	Conventional Electricity	0.29%
Utilities	Waste & Disposal Services	0.02%
Utilities	Water	0.24%

Public

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

While the Fund does not commit to making environmentally sustainable investments within the meaning of the EU Taxonomy regulation, the overall Taxonomy-alignment of the Fund, for the reference period, is set out in the graph below.

The proportion of the Fund's investments that contributed to each of the environmental objectives is as follows:

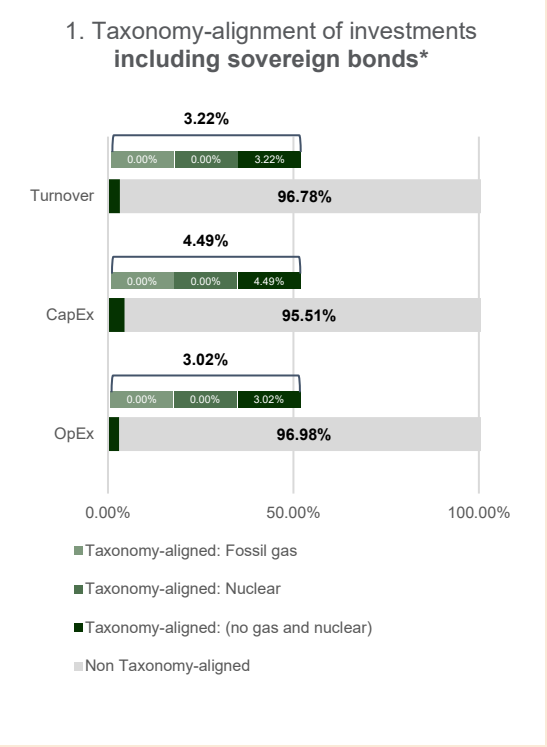
- Climate Change Mitigation = 2.39%
- Climate Change Adaptation = 0.03%
- Sustainable use and protection of water and marine resources = 0.00%
- Transition to a circular economy = 0.35%
- Pollution prevention and control = 0.01%
- Protection and restoration of biodiversity and ecosystems = 0.00%

The figures for all the EU Taxonomy environmental objectives are weighted averages of the actual values as at the end of September 2025, December 2025, March 2026 and June 2026.

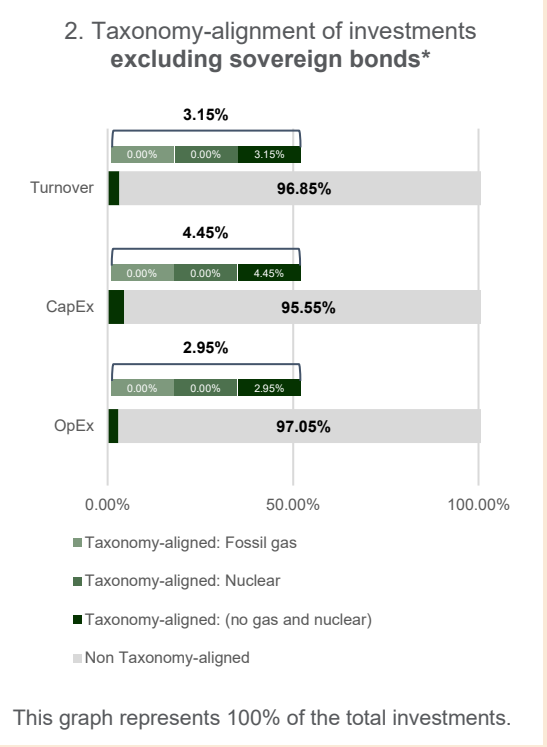
For this section, ESG data is sourced from third-party data vendors. There is currently no universally accepted way of reporting, rating or categorising ESG data and so, third-party ESG data may be subject to certain limitations (including in relation to the quality, timeliness, completeness and availability of such ESG data compared to financial data). The ESG data, differences between the mapping of data between vendors and data processing systems, models and methodologies used, and the judgements, estimates or assumptions made, are rapidly evolving and this may directly or indirectly affect the metrics and data contained herein. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data. The figures are not subject to independent assurance by an auditor or other third party.

Public

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?[1]



☐ Yes:



☐ In fossil gas ☐ In nuclear energy

☒ No

Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- **- operational expenditure** (OpEx) reflecting the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

** For the purpose of these graphs, "sovereign bonds" consist of all sovereign exposures*

What was the share of investments made in transitional and enabling activities?

The share of the Fund's investments made in transitional and enabling activities is as follows:

- Transitional Activities = 0.16%
- Enabling Activities = 1.70%

The figures are weighted averages of the actual values as at the end of September 2025, December 2025, March 2026 and June 2026.

For this section, ESG data is sourced from third-party data vendors. There is currently no universally accepted way of reporting, rating or categorising ESG data and so, third-party ESG data may be subject to certain limitations (including in relation to the quality, timeliness, completeness and availability of such ESG data compared to financial data). The ESG data, differences between the mapping of data between vendors and data processing systems, models and methodologies used, and the judgements, estimates or assumptions made, are rapidly evolving and this may directly or indirectly affect the metrics and data contained herein. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties

[1] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Public

assume no responsibility for errors or omissions in the data. The figures are not subject to independent assurance by an auditor or other third party.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

For this section, ESG data is sourced from third-party data vendors. There is currently no universally accepted way of reporting, rating or categorising ESG data and so, third-party ESG data may be subject to certain limitations (including in relation to the quality, timeliness, completeness and availability of such ESG data compared to financial data). The ESG data, differences between the mapping of data between vendors and data processing systems, models and methodologies used, and the judgements, estimates or assumptions made, are rapidly evolving and this may directly or indirectly affect the metrics and data contained herein. The figures are not subject to independent assurance by an auditor or other third party.

Environmental Objectives	2026	2025*	2024**	2023
Climate Change Mitigation	2.39	1.86	1.67	0.01
Climate Change Adaptation	0.03	0.03	0.04	N/A
Sustainable use and protection of water and marine resources	0.00	0.00	N/A	N/A
Transition to a circular economy	0.35	0.05	N/A	N/A
Pollution prevention and control	0.01	0.01	N/A	N/A
Protection and restoration of biodiversity and ecosystems	0.00	0.00	N/A	N/A

* From year ending 30 June 2025 was the first reporting period in which Vanguard could report on all six EU Taxonomy environmental objectives, as taxonomy aligned data had only been made available from this year.
** From year ending 30 June 2024 there was a change to the data provider. Given the differences in methodologies between the data providers, this could result in variance to the numbers shown in this disclosure than if the data had been sourced from one provider.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The remaining 1.22% (compared to year end 30 June 2025: 1.44%) of the Fund's net assets are in other investments ("#2 Other"), which are not aligned with environmental and/or social characteristics promoted by the Fund.

Public

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined above, the Index excluded stocks of companies that the sponsor of the Index determined to be engaged or involved in, and / or derive revenue (above a threshold specified by the Index provider) from, certain activities in order to promote the environmental and social characteristics of the Fund. In order to ensure that the Fund promoted such characteristics on an ongoing basis, the Investment Manager monitored the Index and its exclusions on a regular basis to ensure the alignment of the investment strategy with the methodology of the Index.

Rebalancing activity in ESG index funds is reviewed and overseen by several 'lines of defence', including Vanguard's portfolio management, risk management, investment data and product teams. Inputs from third-party data providers, consistent with the Index provider's own ESG data, were used to analyse Index constituents as part of this review process. This helped mitigate the risk of the Fund holding Index constituents that were inconsistent with the specified ESG screening criteria.

There are additional internal trade compliance controls, that checked whether new instruments bought were Index constituents as well as checking for any Fund holdings that may no longer be part of the Index. These checks aimed to confirm that out of Index holdings were not added and were removed in a timely fashion. The Investment Manager monitored tracking error (difference between portfolio and Index) on a daily basis and followed up on any significant deviations.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Please see the information below in this respect.

How does the reference benchmark differ from a broad market index?

The Index was constructed from the FTSE Developed Europe All Cap Index which was then screened for certain environmental, social, and corporate governance criteria by the sponsor of the Index, which is independent of Vanguard.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

See above.

How did this financial product perform compared with the reference benchmark?

The figures in the table below show financial performance (net) between 1 July 2025 and 30 June 2026.

Share Class	Fund Performance (%)	Reference Benchmark Performance (%)
EUR Accumulating	19.42%	19.05%
EUR Distributing	19.42%	19.05%

How did this financial product perform compared with the broad market index?

The figures in the table below show financial performance (net, in EUR) between 1 July 2025 and 30 June 2026.

Fund Performance (%)	Broad Market Index Performance (%)
19.42%	10.68%

Public

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

Product Name:
Vanguard ESG Emerging Markets All Cap UCITS ETF

Entity LEI:
549300YO41BOUX0ND056

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☐ YES	☒ NO
☐ It made **sustainable investments with an environmental objective:** __%	☐ It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
	☐ with a social objective
☐ It made **sustainable investments with a social objective:** 0.00%	☒ It promoted E/S characteristics, but **did not make any sustainable investments**

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Through the screening out of stocks of companies from its portfolio based on the potentially detrimental impact of their conduct or products on society and / or the environment the fund promoted certain environmental and/or social characteristics.

The Fund promoted the following environmental characteristics:

- Reduction of environmental harm by excluding investments in companies based on certain fossil fuel related activities.

The Fund also promoted the following social characteristics relating to social norms and standards:

- Human rights, labour rights and anti-corruption as set out in the principles of the UN Global Compact;

and

- Avoided the financing of controversial weapons, including nuclear weapons.

The Fund is passively managed. Its objective is to track the performance of FTSE Emerging All Cap Choice Index (the "Index"), which is a designated reference benchmark for the purpose of attaining the environmental and social characteristics promoted by the Fund.

The Index methodology excludes stocks of companies that the Index provider determines (a) to be engaged or involved in specific activities of the supply chain for, and / or (b) derive revenue (above a threshold specified by the Index provider) from certain activities relating to the following: (a) vice products (adult entertainment, alcohol, gambling, tobacco, cannabis); (b) non-renewable energy (nuclear power and fossil fuels (which includes (i) companies that have greater than 50% ownership of companies that own proved or probable reserves in coal,

Public

oil or gas, (ii) oil and gas production and supporting services, (iii) coal extraction, production and supporting services, (iv) oil and gas and thermal coal power generation, (v) extraction of arctic oil and gas and (vi) extraction of oil sands)); and (c) weapons chemical & biological weapons, cluster munitions, anti-personnel landmines, nuclear weapons, civilian firearms, and conventional military weapons.

The Index provider defines what constitutes "involvement" in each activity. This may be based on percentage of revenue or any connection to a restricted activity regardless of the amount of revenue received, and will relate to specific parts of the supply chain. Details regarding what constitutes "involvement" for each activity and/or the revenue thresholds applied, as well as treatment of company ownership structures, can be found in Appendix A (Product-related exclusions) of FTSE's exclusions methodology document, or "Ground Rules". The link can be found in the prospectus under the heading 'Further Information on the Index'.

The index methodology also excluded companies based on certain controversial conduct, which is achieved by excluding companies that meet the following criteria in relation to the United Nations Global Compact Principles regarding labour, human rights, environmental, and anticorruption standards:
- For large and mid-cap sized companies (as determined by the Index provider), those which have been deemed 'Non-Compliant' with such standards;
- For small-cap size companies (as determined by the Index provider), those which have been deemed either 'Watchlist' or 'Non-Compliant' with such standards, in each case by reference to data provided by a third-party data provider (further details of which may be obtained in the documents linked to in the 'Further Information on the Index' in the prospectus). The Index also excludes companies specifically on the USA's Department of Homeland Security's Uyghur Forced Labor Prevention Act Entity List.

Derivatives have not been used to meet the environmental or social characteristics of this Fund.

The investments of this Fund contributed to the following EU Taxonomy environmental objectives:
- Climate Change Mitigation = 0.02%
- Climate Change Adaptation = 0.00%
- Sustainable use and protection of water and marine resources = 0.00%
- Transition to a circular economy = 0.00%
- Pollution prevention and control = 0.00%
- Protection and restoration of biodiversity and ecosystems = 0.00%

The figures for all the EU Taxonomy environmental objectives above are weighted averages of the actual values as at the end of September 2025, December 2025, March 2026 and June 2026.

For this section, ESG data is sourced from third-party data vendors. There is currently no universally accepted way of reporting, rating or categorising ESG data and so, third-party ESG data may be subject to certain limitations (including in relation to the quality, timeliness, completeness and availability of such ESG data compared to financial data). The ESG data, differences between the mapping of data between vendors and data processing systems, models and methodologies used, and the judgements, estimates or assumptions made, are rapidly evolving and this may directly or indirectly affect the metrics and data contained herein. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data. The figures are not subject to independent assurance by an auditor or other third party.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The Investment Manager (being the entity specified in respect of the Fund as having been appointed to provide investment management services) measured the attainment of the environmental and social characteristics by assessing the extent to which the exclusion criteria described above were applied and measuring the proportion of the portfolio excluded from the Parent Index (being the FTSE Emerging All Cap Index).

Regarding the extent to which the exclusions have been applied, the Fund tracked the Reference Benchmark appropriately.

Exclusion Category	Exclusion Rate (%)
Controversies	7.30%
Non-Renewable Energy	11.16%

Public

Exclusion Category	Exclusion Rate (%)
Vice Products	1.48%
Weapons	2.11%
Overall Exclusions	18.63%

Note that constituents may be excluded under multiple categories, as the exclusions categories are not mutually exclusive, and therefore the values shown will not sum to the total proportion of the portfolio excluded from the Index. Refer to page 4 for the methodology.

Exclusion data for the period ending 30 June 2026 has been prepared using an updated methodology. As this approach differs from that applied in prior years, figures disclosed for 2025 may not be directly comparable with historical exclusion data.

*From year ending 30 June 2024 there was a change to the data provider. Given the differences in methodologies between the data providers, this could result in variance to the numbers shown in this disclosure than if the data had been sourced from one provider.

… And compared to previous periods?

Exclusion Category	2025	2024*	2023
Overall Exclusions	20.55%	21.17%	20.79%

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

While the Fund promoted environmental and social characteristics, it did not commit to make any sustainable investments. This is separate to our EU Taxonomy-alignment disclosures.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Public

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund considered principal adverse impacts on sustainability factors during the reference period.

By excluding stocks of companies that the Index provider determines (a) to be engaged or involved in specific parts of the supply chain for, and / or (b) derive revenue (above a threshold specified by the Index provider)from certain activities relating to non-renewable energy (nuclear power and fossil fuels (which includes (i) companies that have greater than 50% ownership of companies that own proved or probable reserves in coal, oil or gas, (ii) oil and gas production and supporting services, (iii) coal extraction, production and supporting services, (iv) oil and gas and thermal coal power generation, (v) extraction of arctic oil and gas and (vi) oil sands)), the Fund considered the following principal adverse impact indicator:

- Exposure to companies active in the fossil fuel sector

By excluding stocks of companies that the Index provider determines (a) to be engaged or involved in specific parts of the supply chain for, and / or (b) derive revenue (above a threshold specified by the Index provider) from certain activities relating to weapons (chemical & biological weapons, cluster munitions, anti-personnel landmines, nuclear weapons, civilian firearms, and conventional military weapons), the Fund considered the following principal adverse impact indicator:

- Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons

The third party data which is utilized by the Index Provider considers a number of norms and standards including those that are enshrined in the UN Global Compact and the OECD Guidelines for Multinational Enterprises. By excluding stocks of companies based on certain controversial conduct (which is achieved by excluding companies that meet certain criteria in relation to the United Nations Global Compact Principles regarding labour, human rights, environmental, and anti-corruption standards and other international norms), the Fund considered the following principal adverse impact indicator:

- Violations of UN Global Compact principles and OECD Guidelines for Multinational Enterprises

The values of these principal adverse impact indicators can be found in the table below. These figures are weighted averages of the actual values as at the end of September 2025, December 2025, March 2026 and June 2026. The data relating to these principal adverse indicators may be greater than zero because of the data methodology differences between the Index provider and Vanguard's principal adverse impact indicator data vendor.

For this section, ESG data is sourced from third-party data vendors. There is currently no universally accepted way of reporting, rating or categorising ESG data and so, third-party ESG data may be subject to certain limitations (including in relation to the quality, timeliness, completeness and availability of such ESG data compared to financial data). The ESG data, differences between the mapping of data between vendors and data processing systems, models and methodologies used, and the judgements, estimates or assumptions made, are rapidly evolving and this may directly or indirectly affect the metrics and data contained herein. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data. The figures are not subject to independent assurance by an auditor or other third party.

Indicator	Impact	Measure	Data Coverage %
Exposure to companies active in the fossil fuel sector	1	Percentage	98%
Violations of UN Global Compact Principles and OECD Guidelines for Multinational Enterprises	0	Percentage	98%
Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	0	Percentage	98%

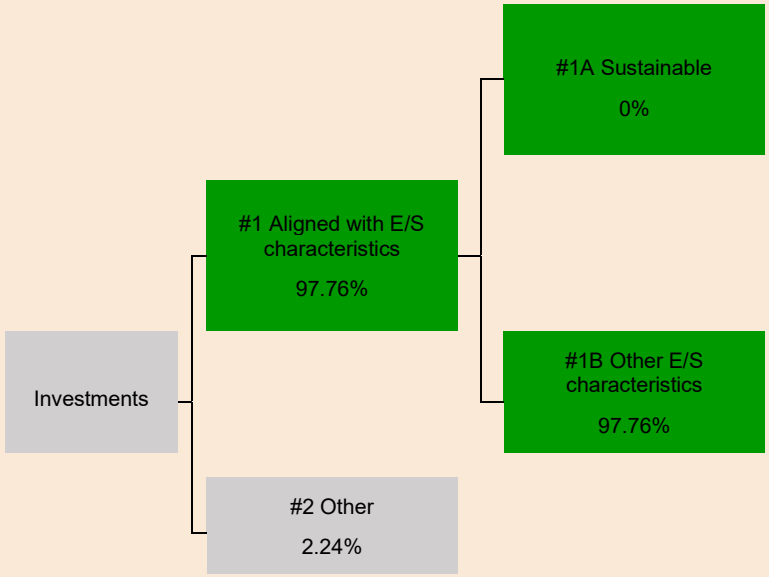
Al Rajhi Bank	Financials	0.52%	Saudi Arabia

Public

What was the proportion of sustainability-related investments?



Please see the information below in this respect.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

The Fund invested 97.76% (compared to year end 30 June 2025: 99.14%) of its net assets in line with the ESG requirements of the Index, which is consistent with the environmental and/or social characteristics promoted by the Fund. The Fund did not commit to making any sustainable investments. The Fund did not use indirect exposures (including derivatives) to attain the environmental or social characteristics promoted by the Fund.

The remaining 2.24% (compared to year end 30 June 2025: 0.86%) of the Fund's net assets are in other investments ("#2 Other"), which are not aligned with environmental and/or social characteristics promoted by the Fund.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

	Asset Allocation Historical Comparison

In which economic sectors were the investments made?

The following table sets out the sectors and sub-sectors in which the Fund invested. The classifications for Energy and Utilities are presented at levels 1 and 4 in accordance with the Industry Benchmark Classification, which reflects the benchmark administrator's ESG-screened, rules-based index methodology, while all other sectors are presented at levels 1 and 2.

These figures are percentages of net assets and are the weighted averages of the market value as at the end of September 2025, December 2025, March 2026 and June 2026.

Sector	Sub-sector	Proportion
Basic Materials	Basic Resources	3.87%
Basic Materials	Chemicals	1.91%
Consumer Discretionary	Automobiles & Parts	2.45%
Consumer Discretionary	Consumer Products & Services	2.83%
Consumer Discretionary	Media	0.28%
Consumer Discretionary	Retail	5.40%
Consumer Discretionary	Travel & Leisure	1.66%
Consumer Staples	Food, Beverage & Tobacco	2.33%
Consumer Staples	Personal Care, Drug & Grocery Stores	1.51%
Energy	Renewable Energy Equipment	0.37%

Utilities	Conventional Electricity	0.44%
Utilities	Waste & Disposal Services	0.07%
Utilities	Water	0.27%

Public

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

While the Fund does not commit to making environmentally sustainable investments within the meaning of the EU Taxonomy regulation, the overall Taxonomy-alignment of the Fund, for the reference period, is set out in the table below.

The proportion of the Fund's investments that contributed to each of the environmental objectives is as follows:

- Climate Change Mitigation = 0.02%
- Climate Change Adaptation = 0.00%
- Sustainable use and protection of water and marine resources = 0.00%
- Transition to a circular economy = 0.00%
- Pollution prevention and control = 0.00%
- Protection and restoration of biodiversity and ecosystems = 0.00%

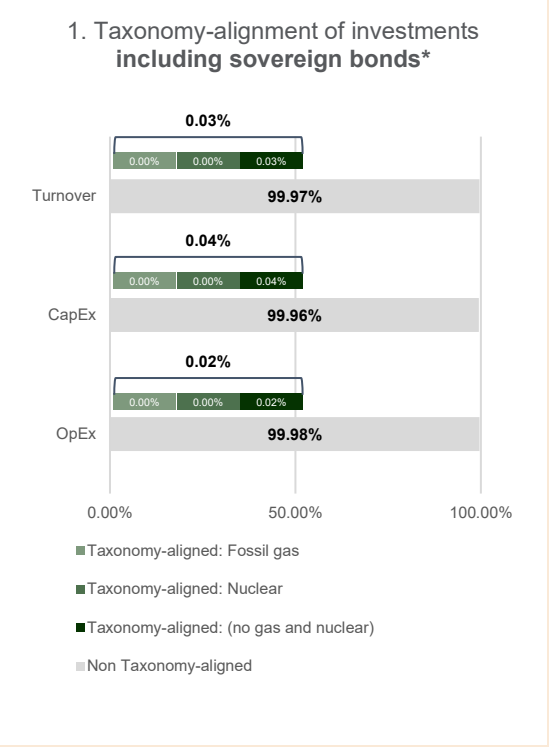
The figures for all the EU Taxonomy environmental objectives are weighted averages of the actual values as at the end of September 2025, December 2025, March 2026 and June 2026.

At the end of the reference period the Fund had no sovereign exposure (i.e., exposure to governments, central banks or supranational issuers).

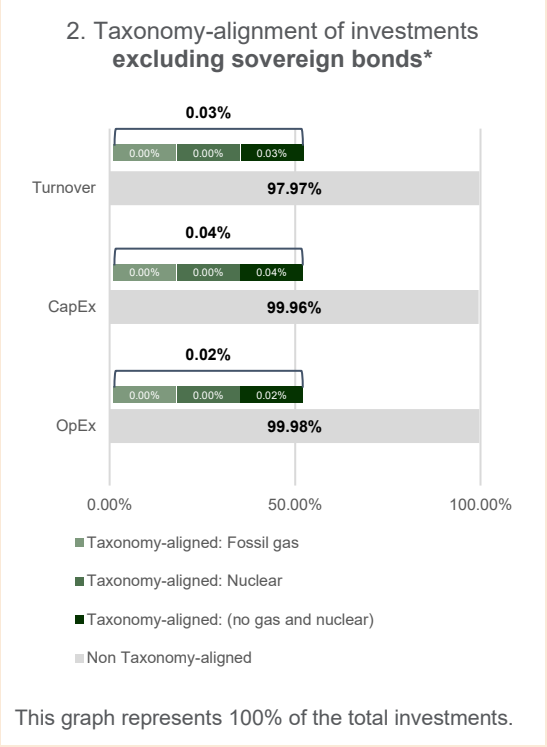
For this section, ESG data is sourced from third-party data vendors. There is currently no universally accepted way of reporting, rating or categorising ESG data and so, third-party ESG data may be subject to certain limitations (including in relation to the quality, timeliness, completeness and availability of such ESG data compared to financial data). The ESG data, differences between the mapping of data between vendors and data processing systems, models and methodologies used, and the judgements, estimates or assumptions made, are rapidly evolving and this may directly or indirectly affect the metrics and data contained herein. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data. The figures are not subject to independent assurance by an auditor or other third party.

Public

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?[1]



☐ Yes:



☐ In fossil gas ☐ In nuclear energy

☒ No

Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- **- operational expenditure** (OpEx) reflecting the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

** For the purpose of these graphs, "sovereign bonds" consist of all sovereign exposures*

What was the share of investments made in transitional and enabling activities?

The share of the Fund's investments made in transitional and enabling activities is as follows:

- Transitional Activities = 0.01%
- Enabling Activities = 0.00%

The figures are weighted averages of the actual values as at the end of September 2025, December 2025, March 2026 and June 2026.

For this section, ESG data is sourced from third-party data vendors. There is currently no universally accepted way of reporting, rating or categorising ESG data and so, third-party ESG data may be subject to certain limitations (including in relation to the quality, timeliness, completeness and availability of such ESG data compared to financial data). The ESG data, differences between the mapping of data between vendors and data processing systems, models and methodologies used, and the judgements, estimates or assumptions made, are rapidly evolving and this may directly or indirectly affect the metrics and data contained herein. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties

[1] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Public

assume no responsibility for errors or omissions in the data. The figures are not subject to independent assurance by an auditor or other third party.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

For this section, ESG data is sourced from third-party data vendors. There is currently no universally accepted way of reporting, rating or categorising ESG data and so, third-party ESG data may be subject to certain limitations (including in relation to the quality, timeliness, completeness and availability of such ESG data compared to financial data). The ESG data, differences between the mapping of data between vendors and data processing systems, models and methodologies used, and the judgements, estimates or assumptions made, are rapidly evolving and this may directly or indirectly affect the metrics and data contained herein. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data. The figures are not subject to independent assurance by an auditor or other third party.

Environmental Objectives	2026	2025*	2024**	2023
Climate Change Mitigation	0.02	0.01	0.02	0.00
Climate Change Adaptation	0.00	0.00	0.00	N/A

* From year ending 30 June 2025 was the first reporting period in which Vanguard could report on all six EU Taxonomy environmental objectives, as taxonomy aligned data had only been made available from this year.
** From year ending 30 June 2024 there was a change to the data provider. Given the differences in methodologies between the data providers, this could result in variance to the numbers shown in this disclosure than if the data had been sourced from one provider.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Public

The remaining 2.24% (compared to year end 30 June 2025: 0.86%) of the Fund's net assets are in other investments ("#2 Other"), which are not aligned with environmental and/or social characteristics promoted by the Fund.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined above, the Index excluded stocks of companies that the sponsor of the Index determined to be engaged or involved in, and / or derive revenue (above a threshold specified by the Index provider) from, certain activities in order to promote the environmental and social characteristics of the Fund. In order to ensure that the Fund promoted such characteristics on an ongoing basis, the Investment Manager monitored the Index and its exclusions on a regular basis to ensure the alignment of the investment strategy with the methodology of the Index.

Rebalancing activity in ESG index funds is reviewed and overseen by several 'lines of defence', including Vanguard's portfolio management, risk management, investment data and product teams. Inputs from third-party data providers, consistent with the Index provider's own ESG data, were used to analyse Index constituents as part of this review process. This helped mitigate the risk of the Fund holding Index constituents that were inconsistent with the specified ESG screening criteria.

There are additional internal trade compliance controls, that checked whether new instruments bought were Index constituents as well as checking for any Fund holdings that may no longer be part of the Index. These checks aimed to confirm that out of Index holdings were not added and were removed in a timely fashion. The Investment Manager monitored tracking error (difference between portfolio and Index) on a daily basis and followed up on any significant deviations.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Please see the information below in this respect.

How does the reference benchmark differ from a broad market index?

The Index was constructed from the FTSE Emerging All Cap Index which was then screened for certain environmental, social, and corporate governance criteria by the sponsor of the Index, which is independent of Vanguard.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

See above.

How did this financial product perform compared with the reference benchmark?

The figures in the table below show financial performance (net) between 1 July 2025 and 30 June 2026.

Share Class	Fund Performance (%)	Reference Benchmark Performance (%)
USD Accumulating	27.07%	26.95%
USD Distributing	27.07%	26.95%

How did this financial product perform compared with the broad market index?

The figures in the table below show financial performance (net, in USD) between 1 July 2025 and 30 June 2026.

Fund Performance (%)	Broad Market Index Performance (%)
27.07%	9.46%

Public

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

Product Name:
Vanguard ESG Global All Cap UCITS ETF

Entity LEI:
549300RMBNRRZW318M23

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☐ YES	☒ NO
☐ It made **sustainable investments with an environmental objective:** __%	☐ It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
	☐ with a social objective
☐ It made **sustainable investments with a social objective:** 0.00%	☒ It promoted E/S characteristics, but **did not make any sustainable investments**

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Through the screening out of stocks of companies from its portfolio based on the potentially detrimental impact of their conduct or products on society and / or the environment the fund promoted certain environmental and/or social characteristics.

The Fund promoted the following environmental characteristics:

- Reduction of environmental harm by excluding investments in companies based on certain fossil fuel related activities.

The Fund also promoted the following social characteristics relating to social norms and standards:

- Human rights, labour rights and anti-corruption as set out in the principles of the UN Global Compact;

and

- Avoided the financing of controversial weapons, including nuclear weapons.

The Fund is passively managed. Its objective is to track the performance of the FTSE Global All Cap Choice Index (the "Index"), which is a designated reference benchmark for the purpose of attaining the environmental and social characteristics promoted by the Fund.

The Index methodology excludes stocks of companies that the Index provider determines (a) to be engaged or involved in specific activities of the supply chain for, and / or (b) derive revenue (above a threshold specified by the Index provider) from certain activities relating to the following: (a) Vice Products (adult entertainment, alcohol, gambling, tobacco, cannabis); (b) non-renewable energy (nuclear power and fossil fuels (which

Public

includes (i) companies that have greater than 50% ownership of companies that own proved or probable reserves in coal, oil or gas, (ii) oil and gas production and supporting services, (iii) coal extraction, production and supporting services, (iv) oil and gas and thermal coal power generation, (v) extraction of arctic oil and gas and (vi) extraction of oil sands)); and (c) weapons chemical & biological weapons, cluster munitions, anti-personnel landmines, nuclear weapons, civilian firearms, and conventional military weapons.

The Index provider defines what constitutes "involvement" in each activity. This may be based on percentage of revenue or any connection to a restricted activity regardless of the amount of revenue received, and will relate to specific parts of the supply chain. Details regarding what constitutes "involvement" for each activity and/or the revenue thresholds applied, as well as treatment of company ownership structures, can be found in Appendix A (Product-related exclusions) of FTSE's exclusions methodology document, or "Ground Rules". The link can be found in the prospectus under the heading 'Further Information on the Index'.

The index methodology also excluded companies based on certain controversial conduct, which is achieved by excluding companies that meet the following criteria in relation to the United Nations Global Compact Principles regarding labour, human rights, environmental, and anticorruption standards:
• For large and mid-cap sized companies (as determined by the Index provider), those which have been deemed 'Non-Compliant' with such standards;
• For small-cap size companies (as determined by the Index provider), those which have been deemed either 'Watchlist' or 'Non-Compliant' with such standards, in each case by reference to data provided by a third-party data provider (further details of which may be obtained in the documents linked to in the 'Further Information on the Index' in the prospectus). The Index also excludes companies specifically on the USA's Department of Homeland Security's Uyghur Forced Labor Prevention Act Entity List.

Derivatives have not been used to meet the environmental or social characteristics of this Fund.

- The investments of this Fund contributed to the following EU Taxonomy environmental objectives:
- Climate Change Mitigation = 0.30%
- Climate Change Adaptation = 0.00%
- Sustainable use and protection of water and marine resources = 0.00%
- Transition to a circular economy = 0.04%
- Pollution prevention and control = 0.00%
- Protection and restoration of biodiversity and ecosystems = 0.00%

The figures for all the EU Taxonomy environmental objectives above are weighted averages of the actual values as at the end of September 2025, December 2025, March 2026 and June 2026.

For this section, ESG data is sourced from third-party data vendors. There is currently no universally accepted way of reporting, rating or categorising ESG data and so, third-party ESG data may be subject to certain limitations (including in relation to the quality, timeliness, completeness and availability of such ESG data compared to financial data). The ESG data, differences between the mapping of data between vendors and data processing systems, models and methodologies used, and the judgements, estimates or assumptions made, are rapidly evolving and this may directly or indirectly affect the metrics and data contained herein. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data. The figures are not subject to independent assurance by an auditor or other third party.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The Investment Manager (being the entity specified in respect of the Fund as having been appointed to provide investment management services) measured the attainment of the environmental and social characteristics by assessing the extent to which the exclusion criteria described above were applied and measuring the proportion of the portfolio excluded from the Parent Index (being the FTSE Global All Cap Index).

Regarding the extent to which the exclusions have been applied, the Fund tracked the Reference Benchmark appropriately.

Exclusion Category	Exclusion Rate (%)
Controversies	3.57%

Public

Exclusion Category	Exclusion Rate (%)
Non-Renewable Energy	14.64%
Vice Products	1.58%
Weapons	5.05%
Overall Exclusions	21.11%

Note that constituents may be excluded under multiple categories, as the exclusions categories are not mutually exclusive, and therefore the values shown will not sum to the total proportion of the portfolio excluded from the Index.

Exclusion data for the period ending 30 June 2026 has been prepared using an updated methodology. As this approach differs from that applied in prior years, figures disclosed for 2025 may not be directly comparable with historical exclusion data.

*From year ending 30 June 2024 there was a change to the data provider. Given the differences in methodologies between the data providers, this could result in variance to the numbers shown in this disclosure than if the data had been sourced from one provider.

… And compared to previous periods?

Exclusion Category	2025	2024*	2023
Overall Exclusions	23.01%	19.65%	20.62%

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

While the Fund promoted environmental and social characteristics, it did not commit to make any sustainable investments. This is separate to our EU Taxonomy-alignment disclosures.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

Public

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund considered principal adverse impacts on sustainability factors during the reference period.

By excluding stocks of companies that the Index provider determines (a) to be engaged or involved in specific parts of the supply chain for, and / or (b) derive revenue (above a threshold specified by the Index provider)from certain activities relating to non-renewable energy (nuclear power and fossil fuels (which includes (i) companies that have greater than 50% ownership of companies that own proved or probable reserves in coal, oil or gas, (ii) oil and gas production and supporting services, (iii) coal extraction, production and supporting services, (iv) oil and gas and thermal coal power generation, (v) extraction of arctic oil and gas and (vi) oil sands)), the Fund considered the following principal adverse impact indicator:

- Exposure to companies active in the fossil fuel sector

By excluding stocks of companies that the Index provider determines (a) to be engaged or involved in specific parts of the supply chain for, and / or (b) derive revenue (above a threshold specified by the Index provider) from certain activities relating to weapons (chemical & biological weapons, cluster munitions, anti-personnel landmines, nuclear weapons, civilian firearms, and conventional military weapons), the Fund considered the following principal adverse impact indicator:

- Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons

The third party data which is utilized by the Index Provider considers a number of norms and standards including those that are enshrined in the UN Global Compact and the OECD Guidelines for Multinational Enterprises. By excluding stocks of companies based on certain controversial conduct (which is achieved by excluding companies that meet certain criteria in relation to the United Nations Global Compact Principles regarding labour, human rights, environmental, and anti-corruption standards and other international norms), the Fund considered the following principal adverse impact indicator:

- Violations of UN Global Compact principles and OECD Guidelines for Multinational Enterprises

The values of these principal adverse impact indicators can be found in the table below. These figures are weighted averages of the actual values as at the end of September 2025, December 2025, March 2026 and June 2026. The data relating to these principal adverse indicators may be greater than zero because of the data methodology differences between the Index provider and Vanguard's principal adverse impact indicator data vendor.

For this section, ESG data is sourced from third-party data vendors. There is currently no universally accepted way of reporting, rating or categorising ESG data and so, third-party ESG data may be subject to certain limitations (including in relation to the quality, timeliness, completeness and availability of such ESG data compared to financial data). The ESG data, differences between the mapping of data between vendors and data processing systems, models and methodologies used, and the judgements, estimates or assumptions made, are rapidly evolving and this may directly or indirectly affect the metrics and data contained herein. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data. The figures are not subject to independent assurance by an auditor or other third party.

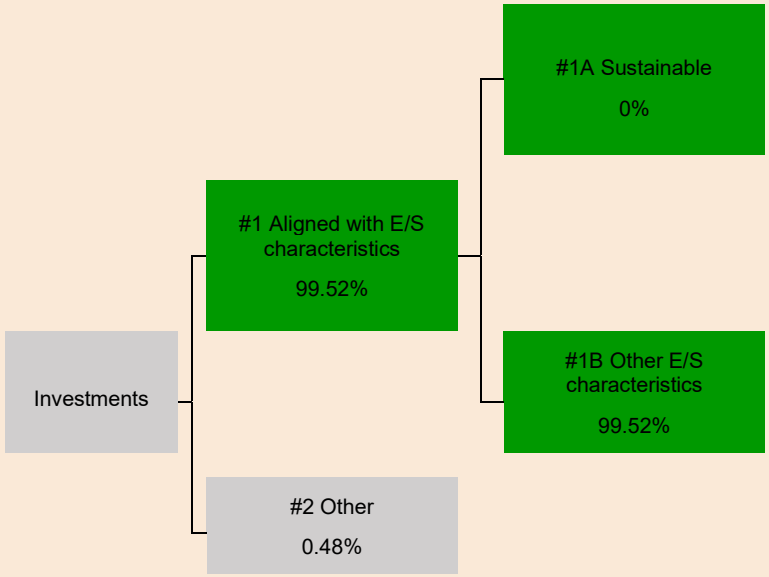
What was the proportion of sustainability-related investments?



Please see the information below in this respect.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

The Fund invested 99.52% (compared to year end 30 June 2025: 98.54%) of its net assets in line with the ESG requirements of the Index, which is consistent with the environmental and/or social characteristics promoted by the Fund. The Fund did not commit to making any sustainable investments. The Fund did not use indirect exposures (including derivatives) to attain the environmental or social characteristics promoted by the Fund.

The remaining 0.48% (compared to year end 30 June 2025: 1.46%) of the Fund's net assets are in other investments ("#2 Other"), which are not aligned with environmental and/or social characteristics promoted by the Fund.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

The following table sets out the sectors and sub-sectors in which the Fund invested. The classifications for Energy and Utilities are presented at levels 1 and 4 in accordance with the Industry Benchmark Classification, which reflects the benchmark administrator's ESG-screened, rules-based index methodology, while all other sectors are presented at levels 1 and 2.

These figures are percentages of net assets and are the weighted averages of the market value as at the end of September 2025, December 2025, March 2026 and June 2026.

Sector	Sub-sector	Proportion
Basic Materials	Basic Resources	1.80%
Basic Materials	Chemicals	1.17%
Consumer Discretionary	Automobiles & Parts	2.78%
Consumer Discretionary	Consumer Products & Services	2.65%
Consumer Discretionary	Media	1.26%
Consumer Discretionary	Retail	5.77%
Consumer Discretionary	Travel & Leisure	1.71%
Consumer Staples	Food, Beverage & Tobacco	2.15%

Utilities	Water	0.11%

Public

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

While the Fund does not commit to making environmentally sustainable investments within the meaning of the EU Taxonomy regulation, the overall Taxonomy-alignment of the Fund, for the reference period, is set out in the table below.

The proportion of the Fund's investments that contributed to each of the environmental objectives is as follows:

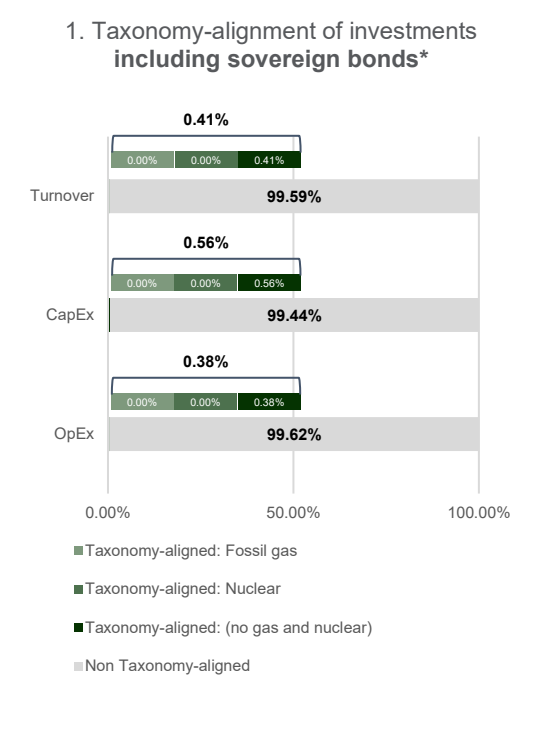
- Climate Change Mitigation = 0.30%
- Climate Change Adaptation = 0.00%
- Sustainable use and protection of water and marine resources = 0.00%
- Transition to a circular economy = 0.04%
- Pollution prevention and control = 0.00%
- Protection and restoration of biodiversity and ecosystems = 0.00%

The figures for all the EU Taxonomy environmental objectives are weighted averages of the actual values as at the end of September 2025, December 2025, March 2026 and June 2026.

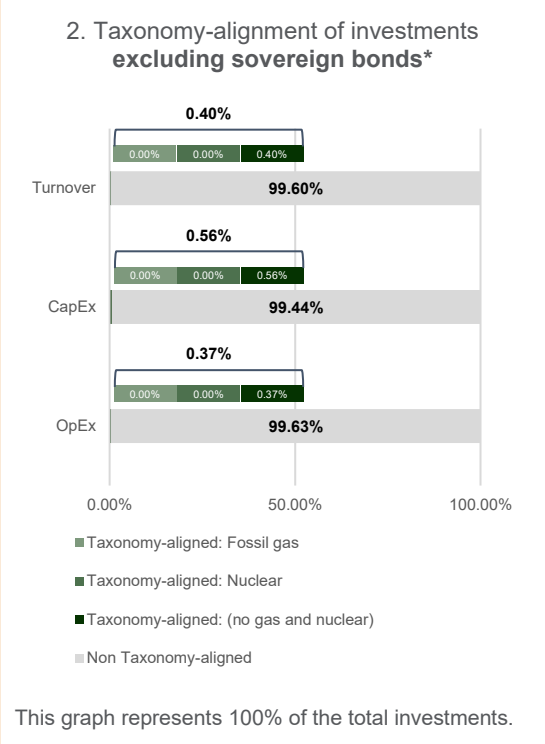
For this section, ESG data is sourced from third-party data vendors. There is currently no universally accepted way of reporting, rating or categorising ESG data and so, third-party ESG data may be subject to certain limitations (including in relation to the quality, timeliness, completeness and availability of such ESG data compared to financial data). The ESG data, differences between the mapping of data between vendors and data processing systems, models and methodologies used, and the judgements, estimates or assumptions made, are rapidly evolving and this may directly or indirectly affect the metrics and data contained herein. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data. The figures are not subject to independent assurance by an auditor or other third party.

Public

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?[1]



☐ Yes:



☐ In fossil gas ☐ In nuclear energy

☒ No

Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- **- operational expenditure** (OpEx) reflecting the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

** For the purpose of these graphs, "sovereign bonds" consist of all sovereign exposures*

What was the share of investments made in transitional and enabling activities?

The share of the Fund's investments made in transitional and enabling activities is as follows:

- Transitional Activities = 0.02%
- Enabling Activities = 0.21%

The figures are weighted averages of the actual values as at the end of September 2025, December 2025, March 2026 and June 2026.

For this section, ESG data is sourced from third-party data vendors. There is currently no universally accepted way of reporting, rating or categorising ESG data and so, third-party ESG data may be subject to certain limitations (including in relation to the quality, timeliness, completeness and availability of such ESG data compared to financial data). The ESG data, differences between the mapping of data between vendors and data processing systems, models and methodologies used, and the judgements, estimates or assumptions made, are rapidly evolving and this may directly or indirectly affect the metrics and data contained herein. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties

[1] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Public

assume no responsibility for errors or omissions in the data. The figures are not subject to independent assurance by an auditor or other third party.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

For this section, ESG data is sourced from third-party data vendors. There is currently no universally accepted way of reporting, rating or categorising ESG data and so, third-party ESG data may be subject to certain limitations (including in relation to the quality, timeliness, completeness and availability of such ESG data compared to financial data). The ESG data, differences between the mapping of data between vendors and data processing systems, models and methodologies used, and the judgements, estimates or assumptions made, are rapidly evolving and this may directly or indirectly affect the metrics and data contained herein. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data. The figures are not subject to independent assurance by an auditor or other third party.

Environmental Objectives	2026	2025*	2024**	2023
Climate Change Mitigation	0.30	0.11	0.22	0.00
Climate Change Adaptation	0.00	0.00	0.01	N/A
Sustainable use and protection of water and marine resources	0.00	0.00	N/A	N/A
Transition to a circular economy	0.04	0.01	N/A	N/A
Pollution prevention and control	0.00	0.00	N/A	N/A
Protection and restoration of biodiversity and ecosystems	0.00	0.00	N/A	N/A

* From year ending 30 June 2025 was the first reporting period in which Vanguard could report on all six EU Taxonomy environmental objectives, as taxonomy aligned data had only been made available from this year.
** From year ending 30 June 2024 there was a change to the data provider. Given the differences in methodologies between the data providers, this could result in variance to the numbers shown in this disclosure than if the data had been sourced from one provider.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The remaining 0.48% (compared to year end 30 June 2025: 1.46%) of the Fund's net assets are in other investments ("#2 Other"), which are not aligned with environmental and/or social characteristics promoted by the Fund.

Public

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined above, the Index excluded stocks of companies that the sponsor of the Index determined to be engaged or involved in, and / or derive revenue (above a threshold specified by the Index provider) from, certain activities in order to promote the environmental and social characteristics of the Fund. In order to ensure that the Fund promoted such characteristics on an ongoing basis, the Investment Manager monitored the Index and its exclusions on a regular basis to ensure the alignment of the investment strategy with the methodology of the Index.

Rebalancing activity in ESG index funds is reviewed and overseen by several 'lines of defence', including Vanguard's portfolio management, risk management, investment data and product teams. Inputs from third-party data providers, consistent with the Index provider's own ESG data, were used to analyse Index constituents as part of this review process. This helped mitigate the risk of the Fund holding Index constituents that were inconsistent with the specified ESG screening criteria.

There are additional internal trade compliance controls, that checked whether new instruments bought were Index constituents as well as checking for any Fund holdings that may no longer be part of the Index. These checks aimed to confirm that out of Index holdings were not added and were removed in a timely fashion. The Investment Manager monitored tracking error (difference between portfolio and Index) on a daily basis and followed up on any significant deviations.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Please see the information below in this respect.

How does the reference benchmark differ from a broad market index?

The Index was constructed from the FTSE Global All Cap Index which was then screened for certain environmental, social, and corporate governance criteria by the sponsor of the Index, which is independent of Vanguard.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

See above.

How did this financial product perform compared with the reference benchmark?

The figures in the table below show financial performance (net) between 1 July 2025 and 30 June 2026.

Share Class	Fund Performance (%)	Reference Benchmark Performance (%)
USD Accumulating	24.05%	24.16%
USD Distributing	24.05%	24.16%

How did this financial product perform compared with the broad market index?

The figures in the table below show financial performance (net, in USD) between 1 July 2025 and 30 June 2026.

Fund Performance (%)	Broad Market Index Performance (%)
24.05%	11.67%

Public

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

Product Name:
Vanguard ESG North America All Cap UCITS ETF

Entity LEI:
549300L2259N8SVGDV77

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☐ YES	☒ NO
☐ It made **sustainable investments with an environmental objective:** __%	☐ It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
	☐ with a social objective
☐ It made **sustainable investments with a social objective:** 0.00%	☒ It promoted E/S characteristics, but **did not make any sustainable investments**

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Through the screening out of stocks of companies from its portfolio based on the potentially detrimental impact of their conduct or products on society and / or the environment the fund promoted certain environmental and/or social characteristics.

The Fund promoted the following environmental characteristics:

- Reduction of environmental harm by excluding investments in companies based on certain fossil fuel related activities.

The Fund also promoted the following social characteristics relating to social norms and standards:

- Human rights, labour rights and anti-corruption as set out in the principles of the UN Global

Compact; and

- Avoiding the financing of controversial weapons.

The Fund is passively managed. Its objective is to track the performance of FTSE North America All Cap Choice Index (the "Index"), which is a designated reference benchmark for the purpose of attaining the environmental and social characteristics promoted by the Fund.

The Index methodology excludes stocks of companies that the Index provider determines (a) to be engaged or involved in specific activities of the supply chain for, and / or (b) derive revenue (above a threshold specified by the Index provider) from certain activities relating to the following: (a) vice products (adult entertainment, alcohol, gambling, tobacco, cannabis); (b) non-renewable energy (nuclear power and fossil fuels (which includes (i) companies that have greater than 50% ownership of companies that own proved or probable reserves in coal,

Public

oil or gas, (ii) oil and gas production and supporting services, (iii) coal extraction, production and supporting services, (iv) oil and gas and thermal coal power generation, (v) extraction of arctic oil and gas and (vi) extraction of oil sands)); and (c) weapons chemical & biological weapons, cluster munitions, anti-personnel landmines, nuclear weapons, civilian firearms, and conventional military weapons.

The Index provider defines what constitutes "involvement" in each activity. This may be based on percentage of revenue or any connection to a restricted activity regardless of the amount of revenue received and will relate to specific parts of the supply chain. Details regarding what constitutes "involvement" for each activity and/or the revenue thresholds applied, as well as treatment of company ownership structures, can be found in Appendix A (Product-related exclusions) of FTSE's exclusions methodology document, or "Ground Rules". The link can be found in the prospectus under the heading 'Further Information on the Index'.

The index methodology also excluded companies based on certain controversial conduct, which is achieved by excluding companies that meet the following criteria in relation to the United Nations Global Compact Principles regarding labour, human rights, environmental, and anticorruption standards:
- For large and mid-cap sized companies (as determined by the Index provider), those which have been deemed 'Non-Compliant' with such standards;
- For small-cap size companies (as determined by the Index provider), those which have been deemed either 'Watchlist' or 'Non-Compliant' with such standards, in each case by reference to data provided by a third-party data provider (further details of which may be obtained in the documents linked to in the 'Further Information on the Index' in the prospectus). The Index also excludes companies specifically on the USA's Department of Homeland Security's Uyghur Forced Labor Prevention Act Entity List.

Derivatives have not been used to meet the environmental or social characteristics of this Fund.

The investments of this Fund contributed to the following EU Taxonomy environmental objectives:
- Climate Change Mitigation = 0.00%
- Climate Change Adaptation = 0.00%
- Sustainable use and protection of water and marine resources = 0.00%
- Transition to a circular economy = 0.00%
- Pollution prevention and control = 0.00%
- Protection and restoration of biodiversity and ecosystems = 0.00%

The figures for all the EU Taxonomy environmental objectives above are weighted averages of the actual values as at the end of September 2025, December 2025, March 2026 and June 2026.

For this section, ESG data is sourced from third-party data vendors. There is currently no universally accepted way of reporting, rating or categorising ESG data and so, third-party ESG data may be subject to certain limitations (including in relation to the quality, timeliness, completeness and availability of such ESG data compared to financial data). The ESG data, differences between the mapping of data between vendors and data processing systems, models and methodologies used, and the judgements, estimates or assumptions made, are rapidly evolving and this may directly or indirectly affect the metrics and data contained herein. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data. The figures are not subject to independent assurance by an auditor or other third party.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The Investment Manager (being the entity specified in respect of the Fund as having been appointed to provide investment management services) measured the attainment of the environmental and social characteristics by assessing the extent to which the exclusion criteria described above were applied and measuring the proportion of the portfolio excluded from the Parent Index (being the FTSE North America All Cap Index).
Regarding the extent to which the exclusions have been applied, the Fund tracked the Reference Benchmark appropriately.

Exclusion Category	Exclusion Rate (%)
Controversies	3.44%
Non-Renewable Energy	13.54%
Vice Products	1.06%

Public

Exclusion Category	Exclusion Rate (%)
Weapons	5.33%
Overall Exclusions	19.61%

Note that constituents may be excluded under multiple categories, as the exclusions categories are not mutually exclusive, and therefore the values shown will not sum to the total proportion of the portfolio excluded from the Index. Refer to page 4 for the methodology.

Exclusion data for the period ending 30 June 2026 has been prepared using an updated methodology. As this approach differs from that applied in prior years, figures disclosed for 2025 may not be directly comparable with historical exclusion data.

*From year ending 30 June 2024 there was a change to the data provider. Given the differences in methodologies between the data providers, this could result in variance to the numbers shown in this disclosure than if the data had been sourced from one provider.

… And compared to previous periods?

Exclusion Category	2025	2024*	2023
Overall	17.66%	17.08%	18.42%

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

While the Fund promoted environmental and social characteristics, it did not commit to make any sustainable investments. This is separate to our EU Taxonomy-alignment disclosures.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Public

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund considered principal adverse impacts on sustainability factors during the reference period.

By excluding stocks of companies that the Index provider determines (a) to be engaged or involved in specific parts of the supply chain for, and / or (b) derive revenue (above a threshold specified by the Index provider)from certain activities relating to non-renewable energy (nuclear power and fossil fuels (which includes (i) companies that have greater than 50% ownership of companies that own proved or probable reserves in coal, oil or gas, (ii) oil and gas production and supporting services, (iii) coal extraction, production and supporting services, (iv) oil and gas and thermal coal power generation, (v) extraction of arctic oil and gas and (vi) oil sands)), the Fund considered the following principal adverse impact indicator:

- Exposure to companies active in the fossil fuel sector

By excluding stocks of companies that the Index provider determines (a) to be engaged or involved in specific parts of the supply chain for, and / or (b) derive revenue (above a threshold specified by the Index provider) from certain activities relating to weapons (chemical & biological weapons, cluster munitions, anti-personnel landmines, nuclear weapons, civilian firearms, and conventional military weapons), the Fund considered the following principal adverse impact indicator:

- Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

The third party data which is utilized by the Index Provider considers a number of norms and standards including those that are enshrined in the UN Global Compact and the OECD Guidelines for Multinational Enterprises. By excluding stocks of companies based on certain controversial conduct (which is achieved by excluding companies that meet certain criteria in relation to the United Nations Global Compact Principles regarding labour, human rights, environmental, and anti-corruption standards and other international norms), the Fund considered the following principal adverse impact indicator:

- Violations of UN Global Compact principles and OECD Guidelines for Multinational Enterprises

The values of these principal adverse impact indicators can be found in the table below. These figures are weighted averages of the actual values as at the end of September 2025, December 2025, March 2026 and June 2026. The data relating to these principal adverse indicators may be greater than zero because of the data methodology differences between the Index provider and Vanguard's principal adverse impact indicator data vendor.

For this section, ESG data is sourced from third-party data vendors. There is currently no universally accepted way of reporting, rating or categorising ESG data and so, third-party ESG data may be subject to certain limitations (including in relation to the quality, timeliness, completeness and availability of such ESG data compared to financial data). The ESG data, differences between the mapping of data between vendors and data processing systems, models and methodologies used, and the judgements, estimates or assumptions made, are rapidly evolving and this may directly or indirectly affect the metrics and data contained herein. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data. The figures are not subject to independent assurance by an auditor or other third party.

Indicator	Impact	Measure	Data Coverage %
Exposure to companies active in the fossil fuel sector	0	Percentage	100%
Violations of UN Global Compact Principles and OECD Guidelines for Multinational Enterprises	0	Percentage	100%
Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	0	Percentage	100%

Public

What were the top investments of this financial product?

The top investments of this Fund are set out below. These figures are percentages of net assets and are weighted averages of the market value as at the end of September 2025, December 2025, March 2026 and June 2026.

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 01/07/2025 to 30/06/2026.

Largest investments	Sector	% Assets	Country
NVIDIA Corp	Technology	7.69%	United States

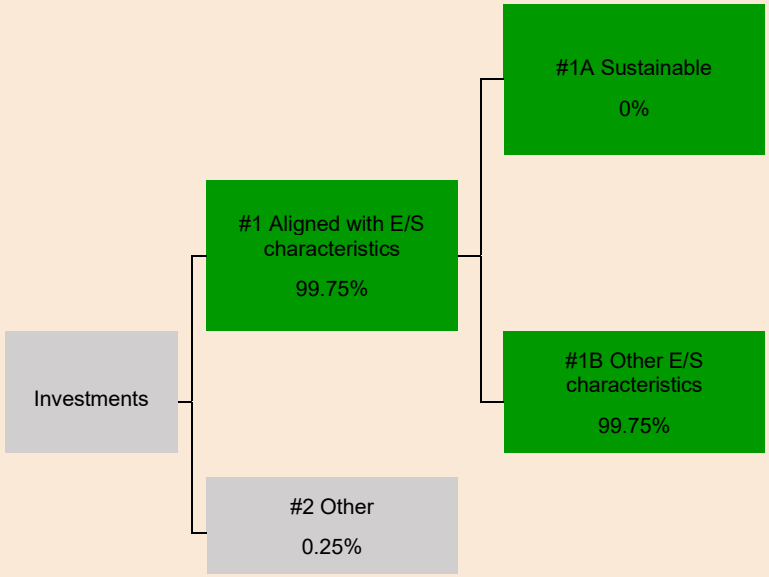
Public

What was the proportion of sustainability-related investments?



Please see the information below in this respect.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

The Fund invested 99.75% (compared to year end 30 June 2025: 99.70%) of its net assets in line with the ESG requirements of the Index, which is consistent with the environmental and/or social characteristics promoted by the Fund. The Fund did not commit to making any sustainable investments. The Fund did not use indirect exposures (including derivatives) to attain the environmental or social characteristics promoted by the Fund.

The remaining 0.25% (compared to year end 30 June 2025: 0.30%) of the Fund's net assets are in other investments ("#2 Other"), which are not aligned with environmental and/or social characteristics promoted by the Fund.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

Utilities	Water	0.07%

Public

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

While the Fund does not commit to making environmentally sustainable investments within the meaning of the EU Taxonomy regulation, the overall Taxonomy-alignment of the Fund, for the reference period, is set out in the table below.

The proportion of the Fund's investments that contributed to each of the environmental objectives is as follows:

- Climate Change Mitigation = 0.00%
- Climate Change Adaptation = 0.00%
- Sustainable use and protection of water and marine resources = 0.00%
- Transition to a circular economy = 0.00%
- Pollution prevention and control = 0.00%
- Protection and restoration of biodiversity and ecosystems = 0.00%

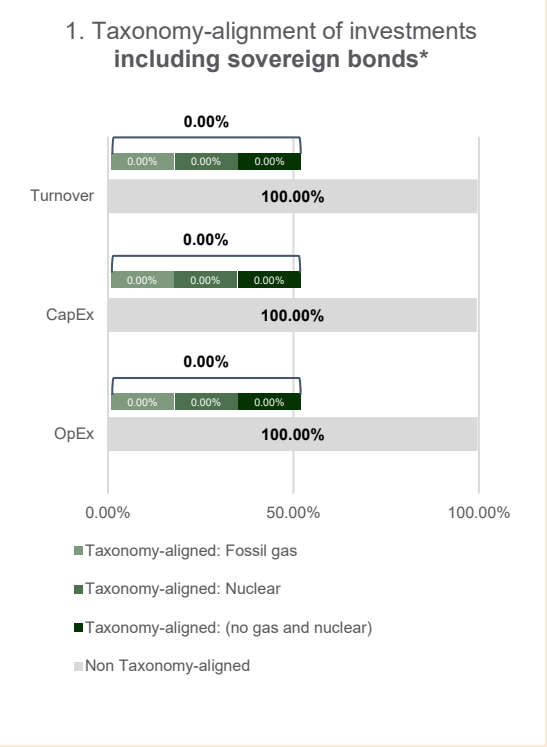
The figures for all the EU Taxonomy environmental objectives are weighted averages of the actual values as at the end of September 2025, December 2025, March 2026 and June 2026.

At the end of the reference period the Fund had no sovereign exposure (i.e., exposure to governments, central banks or supranational issuers).

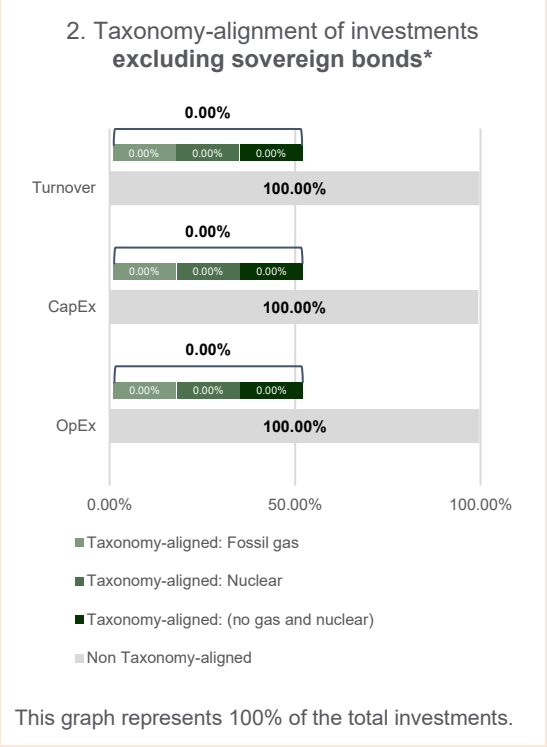
For this section, ESG data is sourced from third-party data vendors. There is currently no universally accepted way of reporting, rating or categorising ESG data and so, third-party ESG data may be subject to certain limitations (including in relation to the quality, timeliness, completeness and availability of such ESG data compared to financial data). The ESG data, differences between the mapping of data between vendors and data processing systems, models and methodologies used, and the judgements, estimates or assumptions made, are rapidly evolving and this may directly or indirectly affect the metrics and data contained herein. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data. The figures are not subject to independent assurance by an auditor or other third party.

Public

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?[1]



☐ Yes:



☐ In fossil gas ☐ In nuclear energy

☒ No

Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- **- operational expenditure** (OpEx) reflecting the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

** For the purpose of these graphs, "sovereign bonds" consist of all sovereign exposures*

What was the share of investments made in transitional and enabling activities?

The share of the Fund's investments made in transitional and enabling activities is as follows:

- Transitional Activities = 0.00%
- Enabling Activities = 0.00%

The figures are weighted averages of the actual values as at the end of September 2025, December 2025, March 2026 and June 2026.

For this section, ESG data is sourced from third-party data vendors. There is currently no universally accepted way of reporting, rating or categorising ESG data and so, third-party ESG data may be subject to certain limitations (including in relation to the quality, timeliness, completeness and availability of such ESG data compared to financial data). The ESG data, differences between the mapping of data between vendors and data processing systems, models and methodologies used, and the judgements, estimates or assumptions made, are rapidly evolving and this may directly or indirectly affect the metrics and data contained herein. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties

[1] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Public

assume no responsibility for errors or omissions in the data. The figures are not subject to independent assurance by an auditor or other third party.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

For this section, ESG data is sourced from third-party data vendors. There is currently no universally accepted way of reporting, rating or categorising ESG data and so, third-party ESG data may be subject to certain limitations (including in relation to the quality, timeliness, completeness and availability of such ESG data compared to financial data). Environmental Objectives	2026	2025*	2024**	2023
Climate Change Mitigation	0.00	0.00	0.00	0.00
Climate Change Adaptation	0.00	0.00	0.00	N/A
Sustainable use and protection of water and marine resources	0.00	0.00	N/A	N/A
Transition to a circular economy	0.00	0.00	N/A	N/A
Pollution prevention and control	0.00	0.00	N/A	N/A
Protection and restoration of biodiversity and ecosystems	0.00	0.00	N/A	N/A

* From year ending 30 June 2025 was the first reporting period in which Vanguard could report on all six EU Taxonomy environmental objectives, as taxonomy aligned data had only been made available from this year.
** From year ending 30 June 2024 there was a change to the data provider. Given the differences in methodologies between the data providers, this could result in variance to the numbers shown in this disclosure than if the data had been sourced from one provider.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The remaining 0.25% (compared to year end 30 June 2025: 0.30%) of the Fund's net assets are in other investments ("#2 Other"), which are not aligned with environmental and/or social characteristics promoted by the Fund.

Public

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined above, the Index excluded stocks of companies that the sponsor of the Index determined to be engaged or involved in, and / or derive revenue (above a threshold specified by the Index provider) from, certain activities in order to promote the environmental and social characteristics of the Fund. In order to ensure that the Fund promoted such characteristics on an ongoing basis, the Investment Manager monitored the Index and its exclusions on a regular basis to ensure the alignment of the investment strategy with the methodology of the Index.

Rebalancing activity in ESG index funds is reviewed and overseen by several 'lines of defence', including Vanguard's portfolio management, risk management, investment data and product teams. Inputs from third-party data providers, consistent with the Index provider's own ESG data, were used to analyse Index constituents as part of this review process. This helped mitigate the risk of the Fund holding Index constituents that were inconsistent with the specified ESG screening criteria.

There are additional internal trade compliance controls, that checked whether new instruments bought were Index constituents as well as checking for any Fund holdings that may no longer be part of the Index. These checks aimed to confirm that out of Index holdings were not added and were removed in a timely fashion. The Investment Manager monitored tracking error (difference between portfolio and Index) on a daily basis and followed up on any significant deviations.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Please see the information below in this respect.

How does the reference benchmark differ from a broad market index?

The Index was constructed from the FTSE North America All Cap Index which was then screened for certain environmental, social, and corporate governance criteria by the sponsor of the Index, which is independent of Vanguard.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

See above.

How did this financial product perform compared with the reference benchmark?

The figures in the table below show financial performance (net) between 1 July 2025 and 30 June 2026.

Share Class	Fund Performance (%)	Reference Benchmark Performance (%)
USD Accumulating	21.84%	21.78%
USD Distributing	21.84%	21.78%

How did this financial product perform compared with the broad market index?

The figures in the table below show financial performance (net, in USD) between 1 July 2025 and 30 June 2026.

Fund Performance (%)	Broad Market Index Performance (%)
21.84%	10.63%

Public

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

Product Name:
Vanguard ESG EUR Corporate Bond UCITS ETF

Entity LEI:
549300F0PLK95HDY8967

Environmental and/or social characteristics

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

Did this financial product have a sustainable investment objective?

☐ YES	☒ NO
☐ It made **sustainable investments with an environmental objective:** __%	☐ It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
	☐ with a social objective
☐ It made **sustainable investments with a social objective:** 0.00%	☒ It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Effective 24 March 2025, certain changes were made to the Index tracked by the Fund. The information below is presented prior to such changes taking effect. Further information on the current investment policy of the Fund can be found in the current prospectus.

Through the screening out of bonds issued by corporate issuers from its portfolio based on the potentially detrimental impact of the relevant corporate issuer's conduct or products on society and / or the environment, the Fund promoted certain environmental and social characteristics.

The Fund promoted the following environmental characteristics:

- Reduction of environmental harm by excluding investments in companies based on certain fossil fuel related activities.

The Fund also promoted the following social characteristics relating to social norms and standards:

- Human rights, labour rights and anti-corruption as set out in the principles of the UN Global

Compact; and

- Avoiding the financing of controversial weapons.

The Fund is passively managed. Its objective is to track the performance of the Bloomberg MSCI EUR Corporate Liquid Bond Screened Index (the "Index"), which is a designated reference benchmark for the purpose of attaining the environmental and social characteristics promoted by the Fund.

Public

The Index methodology excluded the bonds of corporate issuers that MSCI determines (a) to be involved in specific parts of the supply chain for, and/or (b) derive revenue (above a threshold specified by the Index Provider) from, certain business activities related to the following: adult entertainment, alcohol, gambling, tobacco, nuclear weapons, controversial weapons, conventional weapons, civilian firearms, nuclear power or fossil fuels (which includes or thermal coal, oil, or gas, oil sands, arctic oil or arctic gas).

The index provider defines what constitutes "involvement" in each activity. This may be based on percentage of revenue or any connection to a restricted activity regardless of the amount of revenue received, and will relate to specific parts of the supply chain. Details regarding what constitutes "involvement" for each activity and/or the revenue thresholds applied can be found in the 'Environment, Social and Governance (ESG) Rules' section of the factsheet for the Index found at the links below under the heading 'Where can the methodology used for the calculation of the designated index be found?'. Additional details regarding the rules applied by the Index provider, including treatment of company ownership structures, can be found in the additional documents which are linked to in the factsheet for the Index.

The index methodology also excludes the bonds of corporate issuers that, as determined by MSCI, have no controversy score or a controversy score of zero as defined by MSCI's ESG controversies assessment framework (which considers a number of global norms and conventions including the ten principles of the United Nations Global Compact and the OECD Guidelines for Multinational Enterprises). A controversy score of zero means that the relevant corporate issuer is directly involved in one or more 'Very Severe Ongoing' controversies (as defined by MSCI's ESG controversies assessment framework).

Derivatives have not been used to meet the environmental or social characteristics of this Fund.

The investments of this Fund contributed to the following EU Taxonomy environmental objectives:

- Climate Change Mitigation = 3.28%
- Climate Change Adaptation = 0.11%
- Sustainable use and protection of water and marine resources = 0.00%
- Transition to a circular economy = 0.19%
- Pollution prevention and control = 0.02%
- Protection and restoration of biodiversity and ecosystems = 0.00%

The figures for all the EU Taxonomy environmental objectives above are weighted averages of the actual values as at the end of September 2025, December 2025, March 2026 and June 2026.

For this section, ESG data is sourced from third-party data vendors. There is currently no universally accepted way of reporting, rating or categorising ESG data and so, third-party ESG data may be subject to certain limitations (including in relation to the quality, timeliness, completeness and availability of such ESG data compared to financial data). The ESG data, differences between the mapping of data between vendors and data processing systems, models and methodologies used, and the judgements, estimates or assumptions made, are rapidly evolving and this may directly or indirectly affect the metrics and data contained herein. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data. The figures are not subject to independent assurance by an auditor or other third party.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The Investment Manager (being the entity specified in respect of the Fund as having been appointed to provide investment management services) measured the attainment of the environmental and social characteristics by assessing the extent to which the exclusion criteria described above were applied and measuring the proportion of the portfolio excluded from the Parent Index (being the Bloomberg Euro-Aggregate: Corporates Index).
Regarding the extent to which the exclusions have been applied, the Fund tracked the Reference Benchmark appropriately.

Exclusion Category	Exclusion Rate (%)
Controversies	N/A
Non-Renewable Energy	N/A
Vice Products	N/A

Public

Exclusion Category	Exclusion Rate (%)
Weapons	N/A
Overall Exclusions	N/A

Exclusion metrics relating to fixed income investments are not currently available for this reporting period. Work is ongoing to develop and validate the methodology, data and governance framework required to support accurate and reliable calculation of these metrics. As a result, fixed income exclusion data is not included within this report at this time.

*From year ending 30 June 2024 there was a change to the data provider. Given the differences in methodologies between the data providers, this could result in variance to the numbers shown in this disclosure than if the data had been sourced from one provider.

Note that constituents may be excluded under multiple categories, as the exclusions categories are not mutually exclusive, and therefore the values shown will not sum to the total proportion of the portfolio excluded from the Index.

… And compared to previous periods?

Exclusion Category	2025	2024*	2023
Overall	21.51%	21.63%	22.86%

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

While the Fund promoted environmental and social characteristics, it did not commit to make any sustainable investments. This is separate to our EU Taxonomy-alignment disclosures.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Public

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund considered principal adverse impacts on sustainability factors during the reference period.

By excluding the bonds of corporate issuers that MSCI determines (a) to be involved in specific parts of the supply chain for and/or (b) derive revenue (above a threshold specified by the Index provider) from certain business activities related to nuclear power or fossil fuels (which includes thermal coal, oil, gas, oil sands, arctic oil or arctic gas)), the Fund considered the following principal adverse impact indicator:

- Exposure to companies active in the fossil fuel sector

By excluding the bonds of corporate issuers that MSCI determines (a) to be involved in specific parts of the supply chain for and/or (b) derive revenue (above a threshold specified by the Index provider) from certain business activities related to weapons (chemical & biological weapons, cluster munitions and anti-personnel landmines, nuclear weapons, civilian firearms, and conventional military weapons), the Fund considered the following principal adverse impact indicator:

- Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons

By excluding the bonds of corporate issuers that as determined by MSCI, have no controversy score or a controversy score of zero defined by MSCI's ESG controversies assessment framework, the Fund considered the following principal adverse impact indicator:

- Violations of UN Global Compact principles and OECD Guidelines for Multinational Enterprises

The values of these principal adverse impact indicators can be found in the table below. These figures are weighted averages of the actual values as at the end of September 2025, December 2025, March 2026 and June 2026.

The data relating to these principal adverse indicators may be greater than zero because of the data methodology differences between the Index provider and Vanguard's principal adverse impact indicator data vendor.

For this section, ESG data is sourced from third-party data vendors. There is currently no universally accepted way of reporting, rating or categorising ESG data and so, third-party ESG data may be subject to certain limitations (including in relation to the quality, timeliness, completeness and availability of such ESG data compared to financial data). The ESG data, differences between the mapping of data between vendors and data processing systems, models and methodologies used, and the judgements, estimates or assumptions made, are rapidly evolving and this may directly or indirectly affect the metrics and data contained herein. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data. The figures are not subject to independent assurance by an auditor or other third party.

Indicator	Impact	Measure	Data Coverage %
Exposure to companies active in the fossil fuel sector	0	Percentage	98%
Violations of UN Global Compact Principles and OECD Guidelines for Multinational Enterprises	0	Percentage	98%
Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	0	Percentage	98%

Public

What were the top investments of this financial product?

The top investments of this Fund are set out below. These figures are percentages of net assets and are weighted averages of the market value as at the end of September 2025, December 2025, March 2026 and June 2026.

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 01/07/2025 to 30/06/2026.

Largest investments	Sector	% Assets	Country
UBS Group AG	Financials	0.37%	Switzerland
Mercedes-Benz Group AG	Consumer Discretionary	0.33%	Germany
Credit Agricole SA/London	Financials	0.29%	France
Banque Federative du Credit Mutuel SA	Financials	0.28%	France

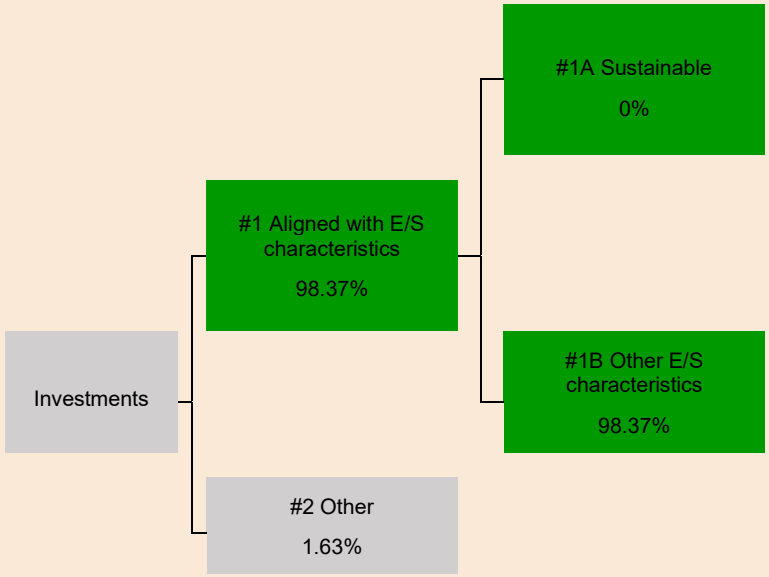
Public

What was the proportion of sustainability-related investments?



Please see the information below in this respect.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

The Fund invested 98.37% (compared to year end 30 June 2025: 97.88%) of its net assets in line with the ESG requirements of the Index, which is consistent with the environmental and/or social characteristics promoted by the Fund. The Fund did not commit to making any sustainable investments. The Fund did not use indirect exposures (including derivatives) to attain the environmental or social characteristics promoted by the Fund.

The remaining 1.63% (compared to year end 30 June 2025: 2.12%) of the Fund's net assets are in other investments ("#2 Other"), which are not aligned with environmental and/or social characteristics promoted by the Fund.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

	Asset Allocation Historical Comparison

Public

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

While the Fund does not commit to making environmentally sustainable investments within the meaning of the EU Taxonomy regulation, the overall Taxonomy-alignment of the Fund, for the reference period, is set out in the table below.

The proportion of the Fund's investments that contributed to each of the environmental objectives is as follows:

- Climate Change Mitigation = 3.28%
- Climate Change Adaptation = 0.11%
- Sustainable use and protection of water and marine resources = 0.00%
- Transition to a circular economy = 0.19%
- Pollution prevention and control = 0.02%
- Protection and restoration of biodiversity and ecosystems = 0.00%

The figures for all the EU Taxonomy environmental objectives are weighted averages of the actual values as at the end of September 2025, December 2025, March 2026 and June 2026.

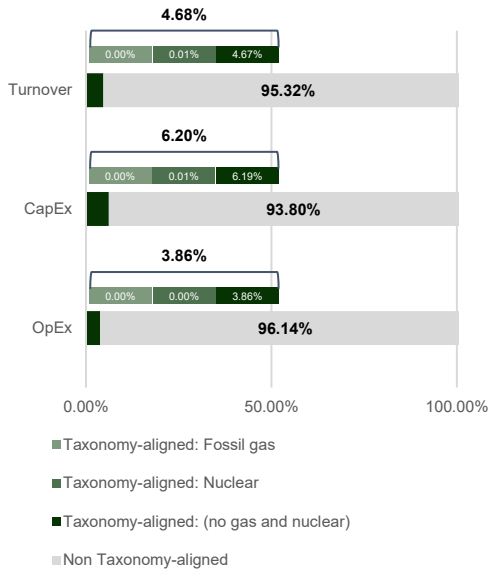
At the end of the reference period the Fund had no sovereign exposure (i.e., exposure to governments, central banks or supranational issuers).

For this section, ESG data is sourced from third-party data vendors. There is currently no universally accepted way of reporting, rating or categorising ESG data and so, third-party ESG data may be subject to certain limitations (including in relation to the quality, timeliness, completeness and availability of such ESG data compared to financial data). The ESG data, differences between the mapping of data between vendors and data processing systems, models and methodologies used, and the judgements, estimates or assumptions made, are rapidly evolving and this may directly or indirectly affect the metrics and data contained herein. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data. The figures are not subject to independent assurance by an auditor or other third party.

Public

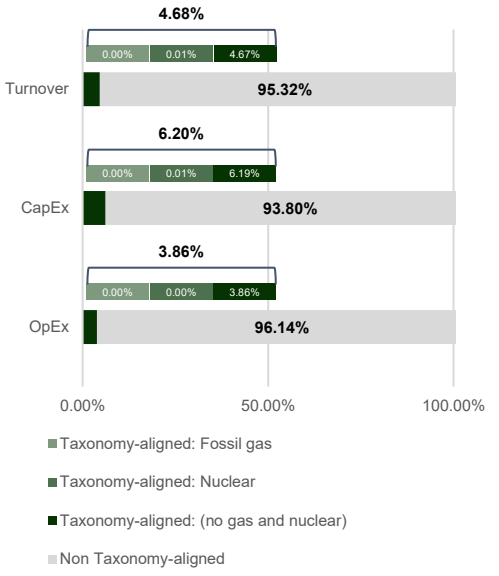
Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?[1]

☐ Yes:



☐ In fossil gas ☐ In nuclear energy

☒ No



Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- **- operational expenditure** (OpEx) reflecting the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments **including sovereign bonds***

2. Taxonomy-alignment of investments **excluding sovereign bonds***

This graph represents 100% of the total investments.

** For the purpose of these graphs, "sovereign bonds" consist of all sovereign exposures*

What was the share of investments made in transitional and enabling activities?

The share of the Fund's investments made in transitional and enabling activities is as follows:

- Transitional Activities = 0.11%
- Enabling Activities = 2.03%

The figures are weighted averages of the actual values as at the end of September 2025, December 2025, March 2026 and June 2026.

For this section, ESG data is sourced from third-party data vendors. There is currently no universally accepted way of reporting, rating or categorising ESG data and so, third-party ESG data may be subject to certain limitations (including in relation to the quality, timeliness, completeness and availability of such ESG data compared to financial data). The ESG data, differences between the mapping of data between vendors and data processing systems, models and methodologies used, and the judgements, estimates or assumptions made, are rapidly evolving and this may directly or indirectly affect the metrics and data contained herein. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties

[1] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Public

assume no responsibility for errors or omissions in the data. The figures are not subject to independent assurance by an auditor or other third party.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

For this section, ESG data is sourced from third-party data vendors. There is currently no universally accepted way of reporting, rating or categorising ESG data and so, third-party ESG data may be subject to certain limitations (including in relation to the quality, timeliness, completeness and availability of such ESG data compared to financial data). The ESG data, differences between the mapping of data between vendors and data processing systems, models and methodologies used, and the judgements, estimates or assumptions made, are rapidly evolving and this may directly or indirectly affect the metrics and data contained herein. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data. The figures are not subject to independent assurance by an auditor or other third party.

Environmental Objectives	2026	2025*	2024**	2023
Climate Change Mitigation	3.28	2.91	1.74	0.00
Climate Change Adaptation	0.11	0.04	0.06	N/A
Sustainable use and protection of water and marine resources	0.00	0.00	N/A	N/A
Transition to a circular economy	0.19	0.03	N/A	N/A
Pollution prevention and control	0.02	0.01	N/A	N/A
Protection and restoration of biodiversity and ecosystems	0.00	0.00	N/A	N/A

* From year ending 30 June 2025 was the first reporting period in which Vanguard could report on all six EU Taxonomy environmental objectives, as taxonomy aligned data had only been made available from this year.
** From year ending 30 June 2024 there was a change to the data provider. Given the differences in methodologies between the data providers, this could result in variance to the numbers shown in this disclosure than if the data had been sourced from one provider.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The remaining 1.63% (compared to year end 30 June 2025: 2.12%) of the Fund's net assets are in other investments ("#2 Other"), which are not aligned with environmental and/or social characteristics promoted by the Fund.

Public

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined above, the Index excluded the bonds of issuers that MSCI determined to be engaged or involved in, and / or derive revenue (above a threshold specified by the Index provider) from, certain activities in order to promote the environmental and social characteristics of the Fund. In order to ensure that the Fund promoted such characteristics on an ongoing basis, the Investment Manager monitored the Index and its exclusions on a regular basis to ensure the alignment of the investment strategy with the methodology of the Index.

Rebalancing activity in ESG index funds is reviewed and overseen by several 'lines of defence', including Vanguard's portfolio management, risk management, investment data and product teams. Inputs from third-party data providers, consistent with the Index provider's own ESG data, were used to analyse Index constituents as part of this review process. This helped mitigate the risk of the Fund holding Index constituents that were inconsistent with the specified ESG screening criteria. Further monitoring is in place surrounding new issues which may be eligible for inclusion in the Fund between rebalances.

There are additional internal trade compliance controls, that checked whether new instruments bought were Index constituents as well as checking for any Fund holdings that may no longer be part of the Index. These checks aimed to confirm that out of Index holdings were not added and were removed in a timely fashion. The Investment Manager monitored tracking error (difference between portfolio and Index) on a daily basis and followed up on any significant deviations.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Please see the information below in this respect.

How does the reference benchmark differ from a broad market index?

The Index was constructed from the Bloomberg Euro-Aggregate: Corporates Index which was then screened for certain environmental, social, and corporate governance criteria by the sponsor of the Index, which is independent of Vanguard.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

See above.

How did this financial product perform compared with the reference benchmark?

The figures in the table below show financial performance (net) between 1 July 2025 and 30 June 2026.

Share Class	Fund Performance (%)	Reference Benchmark Performance (%)
EUR Accumulating	2.38%	2.49%
EUR Distributing	2.38%	2.49%
GBP Hedged Accumulating	4.31%	4.46%

How did this financial product perform compared with the broad market index?

The figures in the table below show financial performance (net, in EUR) between 1 July 2025 and 30 June 2026.

Fund Performance (%)	Broad Market Index Performance (%)
2.38%	1.33%

Public

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

Product Name:
Vanguard ESG Global Corporate Bond UCITS ETF

Entity LEI:
549300QR9CU5B64KTU98

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☐ YES	☒ NO
☐ It made **sustainable investments with an environmental objective:** __%	☐ It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
	☐ with a social objective
☐ It made **sustainable investments with a social objective:** 0.00%	☒ It promoted E/S characteristics, but **did not make any sustainable investments**

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Through the screening out of bonds issued by corporate issuers from its portfolio based on the potentially detrimental impact of the relevant corporate issuer's conduct or products on society and / or the environment, the Fund promotes the following characteristics in respect of its investment universe, unless otherwise disclosed:

The Fund promoted the following environmental characteristics:

- Reduction of environmental harm by excluding investments in companies based on certain fossil fuel related activities.

The Fund also promoted the following social characteristics relating to social norms and standards:

- Human rights, labour rights and anti-corruption as set out in the principles of the UN Global Compact; and
- Avoiding the financing of controversial weapons.

The Fund is passively managed and promoted the above-mentioned characteristics by tracking the Bloomberg MSCI Global Corporate Float-Adjusted Liquid Bond Screened Index. (the "Index"), which is a designated reference benchmark for the purpose of attaining the environmental and social characteristics promoted by the Fund.

The Index methodology excluded the bonds of corporate issuers that MSCI determines (a) to be involved in specific parts of the supply chain for and/or (b) derive revenue (above a threshold specified by the Index Provider) from, certain business activities related to the following: (i) adult entertainment, (ii) alcohol, (iii) gambling, (iv)

Public

tobacco, (v) nuclear weapons, (vi) controversial weapons, (vii) conventional weapons, (viii) civilian firearms, (ix) nuclear power, or (x) fossil fuels (which includes thermal coal, oil, gas, oil sands, arctic oil or arctic gas).

The Index provider defines what constitutes "involvement" in each activity. This may be based on percentage of revenue or any connection to a restricted activity regardless of the amount of revenue received, and will relate to specific parts of the supply chain. Details regarding what constitutes "involvement" for each activity and/or the revenue thresholds applied can be found in the 'Environment, Social and Governance (ESG) Rules' section of the factsheet for the Index found at the links below under the heading 'Further information on the Index'. Additional details regarding the rules applied by the Index provider, including treatment of company ownership structures, can be found in the additional documents which are linked to in the factsheet for the Index.

The index methodology also excludes the bonds of corporate issuers that, as determined by MSCI, have no controversy score or a controversy score of zero defined by MSCI's ESG controversies assessment framework (which considers a number of global norms and conventions including the ten principles of the United Nations Global Compact and the Organisation for Economic Co-operation and Development Guidelines for Multinational Enterprises). A controversy score of zero means that the relevant corporate issuer is directly involved in one or more 'Very Severe Ongoing' controversies (as defined by MSCI's ESG controversies assessment framework).

Derivatives have not been used to meet the environmental or social characteristics of this Fund.

The investments of this Fund contributed to the following EU Taxonomy environmental objectives:

- Climate Change Mitigation = 0.88%
- Climate Change Adaptation = 0.03%
- Sustainable use and protection of water and marine resources = 0.00%
- Transition to a circular economy = 0.06%
- Pollution prevention and control = 0.01%
- Protection and restoration of biodiversity and ecosystems = 0.00%

The figures for all the EU Taxonomy environmental objectives above are weighted averages of the actual values as at the end of September 2025, December 2025, March 2026 and June 2026.

For this section, ESG data is sourced from third-party data vendors. There is currently no universally accepted way of reporting, rating or categorising ESG data and so, third-party ESG data may be subject to certain limitations (including in relation to the quality, timeliness, completeness and availability of such ESG data compared to financial data). The ESG data, differences between the mapping of data between vendors and data processing systems, models and methodologies used, and the judgements, estimates or assumptions made, are rapidly evolving and this may directly or indirectly affect the metrics and data contained herein. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data. The figures are not subject to independent assurance by an auditor or other third party.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The Investment Manager (being the entity specified in respect of the Fund as having been appointed to provide investment management services) measured the attainment of the environmental and social characteristics by assessing the extent to which the exclusion criteria described above were applied and measuring the proportion of the portfolio excluded from the Parent Index (being the Bloomberg Global Aggregate Float Adjusted Corporate Index).

Regarding the extent to which the exclusions have been applied, the Fund tracked the Reference Benchmark appropriately.

Exclusion Category	Exclusion Rate (%)
Controversies	N/A
Non-Renewable Energy	N/A
Vice Products	N/A
Weapons	N/A
Overall Exclusions	N/A

Public

Exclusion Category	Exclusion Rate (%)
Note that constituents may be excluded under multiple categories, as the exclusions categories are not mutually exclusive, and therefore the values shown will not sum to the total proportion of the portfolio excluded from the Index. Refer to page 4 for the methodology. Exclusion metrics relating to fixed income investments are not currently available for this reporting period. Work is ongoing to develop and validate the methodology, data and governance framework required to support accurate and reliable calculation of these metrics. As a result, fixed income exclusion data is not included within this report at this time. *From year ending 30 June 2024 there was a change to the data provider. Given the differences in methodologies between the data providers, this could result in variance to the numbers shown in this disclosure than if the data had been sourced from one provider.	

… And compared to previous periods?

Exclusion Category	2025	2024*	2023
Overall Exclusions	24.45%	26.02%	26.21%

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

While the Fund promoted environmental and social characteristics, it did not commit to make any sustainable investments. This is separate to our EU Taxonomy-alignment disclosures.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Public

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund considered principal adverse impacts on sustainability factors during the reference period.

By excluding the bonds of corporate issuers that MSCI determines (a) to be involved in specific parts of the supply chain for and/or (b) derive revenue (above a threshold specified by the Index provider) from certain business activities related to nuclear power or fossil fuels (which includes thermal coal, oil, gas, oil sands, arctic oil or arctic gas), the Fund considered the following principal adverse impact indicator:

- Exposure to companies active in the fossil fuel sector

By excluding the bonds of corporate issuers that MSCI determines (a) to be involved in specific parts of the supply chain for and/or (b) derive revenue (above a threshold specified by the Index provider) from certain business activities related to weapons (chemical & biological weapons, cluster munitions and anti-personnel landmines, nuclear weapons, civilian firearms, and conventional military weapons), the Fund considered the following principal adverse impact indicator:

- Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

By excluding the bonds of corporate issuers that as determined by MSCI, have no controversy score or a controversy score of zero defined by MSCI's ESG controversies assessment framework, the Fund considered the following principal adverse impact indicator:

- Violations of UN Global Compact principles and OECD Guidelines for Multinational Enterprises

The values of these principal adverse impact indicators can be found in the table below. These figures are weighted averages of the actual values as at the end of September 2025, December 2025, March 2026 and June 2026.

The data relating to these principal adverse indicators may be greater than zero because of the data methodology differences between the Index provider and Vanguard's principal adverse impact indicator data vendor.

For this section, ESG data is sourced from third-party data vendors. There is currently no universally accepted way of reporting, rating or categorising ESG data and so, third-party ESG data may be subject to certain limitations (including in relation to the quality, timeliness, completeness and availability of such ESG data compared to financial data). The ESG data, differences between the mapping of data between vendors and data processing systems, models and methodologies used, and the judgements, estimates or assumptions made, are rapidly evolving and this may directly or indirectly affect the metrics and data contained herein. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data. The figures are not subject to independent assurance by an auditor or other third party.

Indicator	Impact	Measure	Data Coverage %
Exposure to companies active in the fossil fuel sector	0	Percentage	96%
Violations of UN Global Compact principles and OECD Guidelines for Multinational Enterprises	0	Percentage	96%
Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	0	Percentage	96%

Public

What were the top investments of this financial product?

The top investments of this Fund are set out below. These figures are percentages of net assets and are weighted averages of the market value as at the end of September 2025, December 2025, March 2026 and June 2026.

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 01/07/2025 to 30/06/2026.

Largest investments	Sector	% Assets	Country
Bank of America Corp	Financials	0.16%	United States
Ford Motor Credit Co LLC	Financials	0.14%	United States
Eaton Corp	Industrials	0.13%	United States

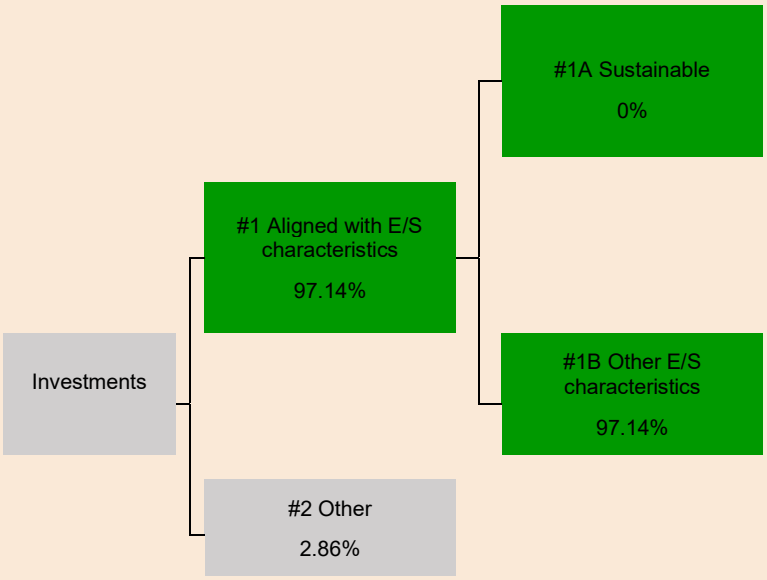
Public

What was the proportion of sustainability-related investments?

Please see the information below in this respect.



Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

The Fund invested 97.14% (compared to year end 30 June 2025: 100.21%) of its net assets in line with the ESG requirements of the Index, which is consistent with the environmental and/or social characteristics promoted by the Fund. The Fund did not commit to making any sustainable investments. The Fund did not use indirect exposures (including derivatives) to attain the environmental or social characteristics promoted by the Fund.

The remaining 2.86% (compared to year end 30 June 2025: 0%) of the Fund's net assets are in other investments ("#2 Other"), which are not aligned with environmental and/or social characteristics promoted by the Fund.

For year end 30 June 2025 - The asset allocation percentages exceeded the fund's Net Asset Value due to a temporary imbalance between other assets and liabilities. At 2025 year-end, other liabilities totalled €41.191 million, primarily driven by unsettled purchase transactions of €39.053 million, while other assets stood at €38.388 million. This timing difference resulted in the NAV being lower than the total value of investments. This has no material impact on the fund's promotion of environmental or social characteristics under Article 8 SFDR.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

Utilities	Water Utilities	0.69%

Public

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

While the Fund does not commit to making environmentally sustainable investments within the meaning of the EU Taxonomy regulation, the overall Taxonomy-alignment of the Fund, for the reference period, is set out in the table below.

The proportion of the Fund's investments that contributed to each of the environmental objectives is as follows:

- Climate Change Mitigation = 0.88%
- Climate Change Adaptation = 0.03%
- Sustainable use and protection of water and marine resources = 0.00%
- Transition to a circular economy = 0.06%
- Pollution prevention and control = 0.01%
- Protection and restoration of biodiversity and ecosystems = 0.00%

The figures for all the EU Taxonomy environmental objectives are weighted averages of the actual values as at the end of September 2025, December 2025, March 2026 and June 2026.

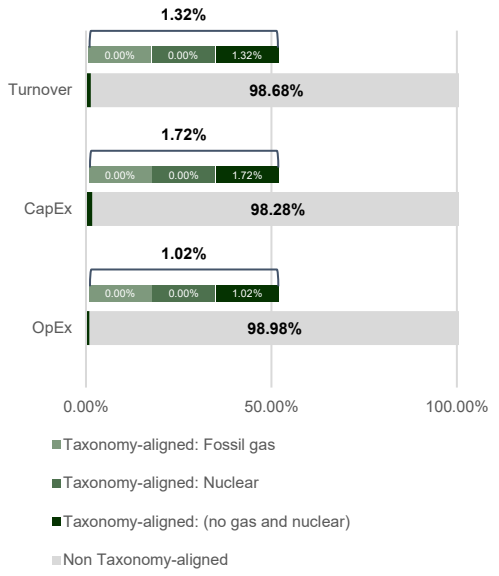
At the end of the reference period the Fund had no sovereign exposure (i.e., exposure to governments, central banks or supranational issuers).

For this section, ESG data is sourced from third-party data vendors. There is currently no universally accepted way of reporting, rating or categorising ESG data and so, third-party ESG data may be subject to certain limitations (including in relation to the quality, timeliness, completeness and availability of such ESG data compared to financial data). The ESG data, differences between the mapping of data between vendors and data processing systems, models and methodologies used, and the judgements, estimates or assumptions made, are rapidly evolving and this may directly or indirectly affect the metrics and data contained herein. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data. The figures are not subject to independent assurance by an auditor or other third party.

Public

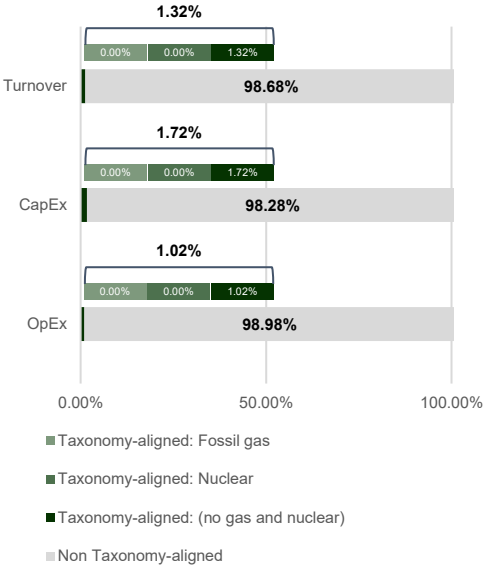
Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?[1]

☐ Yes:



☐ In fossil gas ☐ In nuclear energy

☒ No



Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- **- operational expenditure** (OpEx) reflecting the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments **including sovereign bonds***

2. Taxonomy-alignment of investments **excluding sovereign bonds***

This graph represents 100% of the total investments.

** For the purpose of these graphs, "sovereign bonds" consist of all sovereign exposures*

What was the share of investments made in transitional and enabling activities?

The share of the Fund's investments made in transitional and enabling activities is as follows:

- Transitional Activities = 0.03%
- Enabling Activities = 0.53%

The figures are weighted averages of the actual values as at the end of September 2025, December 2025, March 2026 and June 2026.

For this section, ESG data is sourced from third-party data vendors. There is currently no universally accepted way of reporting, rating or categorising ESG data and so, third-party ESG data may be subject to certain limitations (including in relation to the quality, timeliness, completeness and availability of such ESG data compared to financial data). The ESG data, differences between the mapping of data between vendors and data processing systems, models and methodologies used, and the judgements, estimates or assumptions made, are rapidly evolving and this may directly or indirectly affect the metrics and data contained herein. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties

[1] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Public

assume no responsibility for errors or omissions in the data. The figures are not subject to independent assurance by an auditor or other third party.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

For this section, ESG data is sourced from third-party data vendors. There is currently no universally accepted way of reporting, rating or categorising ESG data and so, third-party ESG data may be subject to certain limitations (including in relation to the quality, timeliness, completeness and availability of such ESG data compared to financial data). The ESG data, differences between the mapping of data between vendors and data processing systems, models and methodologies used, and the judgements, estimates or assumptions made, are rapidly evolving and this may directly or indirectly affect the metrics and data contained herein. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data. The figures are not subject to independent assurance by an auditor or other third party.

Environmental Objectives	2026	2025*	2024**	2023
Climate Change Mitigation	0.88	0.83	0.56	0.00
Climate Change Adaptation	0.03	0.01	0.03	N/A
Sustainable use and protection of water and marine resources	0.00	0.00	N/A	N/A
Transition to a circular economy	0.06	0.01	N/A	N/A

Protection and restoration of biodiversity and ecosystems	0.00	0.00	N/A	N/A

* From year ending 30 June 2025 was the first reporting period in which Vanguard could report on all six EU Taxonomy environmental objectives, as taxonomy aligned data had only been made available from this year.
** From year ending 30 June 2024 there was a change to the data provider. Given the differences in methodologies between the data providers, this could result in variance to the numbers shown in this disclosure than if the data had been sourced from one provider.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The remaining 2.86% (compared to year end 30 June 2025: 0%) of the Fund's net assets are in other investments ("#2 Other"), which are not aligned with environmental and/or social characteristics promoted by the Fund.

Public

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined above, the Index excluded the bonds of issuers that MSCI determined to be engaged or involved in, and / or derive revenue (above a threshold specified by the Index provider) from, certain activities in order to promote the environmental and social characteristics of the Fund. In order to ensure that the Fund promoted such characteristics on an ongoing basis, the Investment Manager monitored the Index and its exclusions on a regular basis to ensure the alignment of the investment strategy with the methodology of the Index.

Rebalancing activity in ESG index funds is reviewed and overseen by several 'lines of defence', including Vanguard's portfolio management, risk management, investment data and product teams. Inputs from third-party data providers, consistent with the Index provider's own ESG data, were used to analyse Index constituents as part of this review process. This helped mitigate the risk of the Fund holding Index constituents that were inconsistent with the specified ESG screening criteria. Further monitoring is in place surrounding new issues which may be eligible for inclusion in the Fund between rebalances.

There are additional internal trade compliance controls, that checked whether new instruments bought were Index constituents as well as checking for any Fund holdings that may no longer be part of the Index. These checks aimed to confirm that out of Index holdings were not added and were removed in a timely fashion. The Investment Manager monitored tracking error (difference between portfolio and Index) on a daily basis and followed up on any significant deviations.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Please see the information below in this respect.

How does the reference benchmark differ from a broad market index?

The Index was constructed from the Bloomberg MSCI Global Corporate Float-Adjusted Liquid Bond Screened Index which was then screened for certain environmental, social, and corporate governance criteria by the sponsor of the Index, which is independent of Vanguard.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

See above.

How did this financial product perform compared with the reference benchmark?

The figures in the table below show financial performance (net) between 1 July 2025 and 30 June 2026.

Share Class	Fund Performance (%)	Reference Benchmark Performance (%)
CHF Hedged Accumulating	-0.32%	-0.23%
CHF Hedged Distributing	-0.32%	-0.23%
EUR Hedged Accumulating	2.00%	2.09%
EUR Hedged Distributing	2.00%	2.09%
GBP Hedged Accumulating	3.97%	4.07%
GBP Hedged Distributing	3.96%	4.07%

How did this financial product perform compared with the broad market index?

Public

The figures in the table below show financial performance (net, in USD) between 1 July 2025 and 30 June 2026.

Fund Performance (%)	Broad Market Index Performance (%)
4.10%	1.29%

Public

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

Product Name:
Vanguard ESG USD Corporate Bond UCITS ETF

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☐ YES	☒ NO
☐ It made **sustainable investments with an environmental objective:** __%	☐ It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
	☐ with a social objective
☐ It made **sustainable investments with a social objective:** 0.00%	☒ It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Effective 17 July 2025, shareholders of the Vanguard ESG USD Corporate Bond UCITS ETF were informed of the closure of the Fund see full notice: https://fund-docs.vanguard.com/Vanguard_Funds_Plc_Shareholder_Notice_EN.pdf.

Through the screening out of bonds issued by corporate issuers from its portfolio based on the potentially detrimental impact of the relevant corporate issuer's conduct or products on society and / or the environment, the Fund promoted certain environmental and social characteristics.

The Fund promoted the following environmental characteristics:

- Reduction of environmental harm by excluding investments in companies based on certain fossil fuel related activities.

The Fund also promoted the following social characteristics relating to social norms and standards:

- Human rights, labour rights and anti-corruption as set out in the principles of the UN Global

Compact; and

- Avoiding the financing of controversial weapons.

The Fund is passively managed and promoted the above-mentioned characteristics by tracking the Bloomberg MSCI USD Corporate Float-Adjusted Liquid Bond Screened Index (the "Index"), which is a designated reference benchmark for the purpose of attaining the environmental and social characteristics promoted by the Fund.

Public

The Index methodology excluded the bonds of corporate issuers that MSCI determines (a) to be involved in specific parts of the supply chain for and/or (b) derive revenue (above a threshold specified by the Index Provider) from, certain business activities related to the following: (i) adult entertainment, (ii) alcohol, (iii) gambling, (iv) tobacco, (v) nuclear weapons, (vi) controversial weapons, (vii) conventional weapons, (viii) civilian firearms, (ix) nuclear power, or (x) fossil fuels (which includes thermal coal, oil, gas, oil sands, arctic oil or arctic gas).

The Index provider defines what constitutes "involvement" in each activity. This may be based on percentage of revenue or any connection to a restricted activity regardless of the amount of revenue received, and will relate to specific parts of the supply chain. Details regarding what constitutes "involvement" for each activity and/or the revenue thresholds applied can be found in the 'Environment, Social and Governance (ESG) Rules' section of the factsheet for the Index found at the links below under the heading 'Further information on the Index'. Additional details regarding the rules applied by the Index provider, including treatment of company ownership structures, can be found in the additional documents which are linked to in the factsheet for the Index.

The index methodology also excludes the bonds of corporate issuers that, as determined by MSCI, have no controversy score or a controversy score of zero defined by MSCI's ESG controversies assessment framework (which considers a number of global norms and conventions including the ten principles of the United Nations Global Compact and the Organisation for Economic Co-operation and Development Guidelines for Multinational Enterprises). A controversy score of zero means that the relevant corporate issuer is directly involved in one or more 'Very Severe Ongoing' controversies (as defined by MSCI's ESG controversies assessment framework).

Derivatives have not been used to meet the environmental or social characteristics of this Fund.

The investments of this Fund contributed to the following EU Taxonomy environmental objectives:

- Climate Change Mitigation = 0.01%
- Climate Change Adaptation = 0.00%
- Sustainable use and protection of water and marine resources = 0.00%
- Transition to a circular economy = 0.00%
- Pollution prevention and control = 0.00%
- Protection and restoration of biodiversity and ecosystems = 0.00%

The Fund closed in October 2025. Quarterly average data is based solely on month-end data as at 30 September 2025 and is not representative of a full reporting period.

For this section, ESG data is sourced from third-party data vendors. There is currently no universally accepted way of reporting, rating or categorising ESG data and so, third-party ESG data may be subject to certain limitations (including in relation to the quality, timeliness, completeness and availability of such ESG data compared to financial data). The ESG data, differences between the mapping of data between vendors and data processing systems, models and methodologies used, and the judgements, estimates or assumptions made, are rapidly evolving and this may directly or indirectly affect the metrics and data contained herein. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data. The figures are not subject to independent assurance by an auditor or other third party.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The Investment Manager (being the entity specified in respect of the Fund as having been appointed to provide investment management services) measured the attainment of the environmental and social characteristics by assessing the extent to which the exclusion criteria described above were applied and measuring the proportion of the portfolio excluded from the Parent Index (being the Bloomberg Global Aggregate Corporate – United States Dollar Index).

Regarding the extent to which the exclusions have been applied, the Fund tracked the Reference Benchmark appropriately.

Exclusion Category	Exclusion Rate (%)
Controversies	N/A
Non-Renewable Energy	N/A
Vice Products	N/A

Public

Exclusion Category	Exclusion Rate (%)
Weapons	N/A
Overall Exclusions	N/A

Exclusion metrics relating to fixed income investments are not currently available for this reporting period. Work is ongoing to develop and validate the methodology, data and governance framework required to support accurate and reliable calculation of these metrics. As a result, fixed income exclusion data is not included within this report at this time.

*From year ending 30 June 2024 there was a change to the data provider. Given the differences in methodologies between the data providers, this could result in variance to the numbers shown in this disclosure than if the data had been sourced from one provider.

Note that constituents may be excluded under multiple categories, as the exclusions categories are not mutually exclusive, and therefore the values shown will not sum to the total proportion of the portfolio excluded from the Index.

… And compared to previous periods?

Exclusion Category	2025	2024*	2023
Overall Exclusions	28.33%	27.68%	27.38%

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

While the Fund promoted environmental and social characteristics, it did not commit to make any sustainable investments. This is separate to our EU Taxonomy-alignment disclosures.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Public

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund considered principal adverse impacts on sustainability factors during the reference period.

By excluding the bonds of corporate issuers that MSCI determines (a) to be involved in specific parts of the supply chain for and/or (b) derive revenue (above a threshold specified by the Index provider) from certain business activities related to nuclear power or fossil fuels (which includes thermal coal, oil, gas, oil sands, arctic oil or arctic gas)), the Fund considered the following principal adverse impact indicator:

- Exposure to companies active in the fossil fuel sector

By excluding the bonds of corporate issuers that MSCI determines (a) to be involved in specific parts of the supply chain for and/or (b) derive revenue (above a threshold specified by the Index provider) from certain business activities related to weapons (chemical & biological weapons, cluster munitions and anti- personnel landmines, nuclear weapons, civilian firearms, and conventional military weapons), the Fund considered the following principal adverse impact indicator:

- Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons

By excluding the bonds of corporate issuers that as determined by MSCI, have no controversy score or a controversy score of zero defined by MSCI's ESG controversies assessment framework, the Fund considered the following principal adverse impact indicator:

- Violations of UN Global Compact principles and OECD Guidelines for Multinational Enterprises

The values of these principal adverse impact indicators can be found in the table below. The Fund closed in October 2025. Quarterly average data is based solely on month-end data as at 30 September 2025 and is not representative of a full reporting period.

The data relating to these principal adverse indicators may be greater than zero because of the data methodology differences between the Index provider and Vanguard's principal adverse impact indicator data vendor.

For this section, ESG data is sourced from third-party data vendors. There is currently no universally accepted way of reporting, rating or categorising ESG data and so, third-party ESG data may be subject to certain limitations (including in relation to the quality, timeliness, completeness and availability of such ESG data compared to financial data). The ESG data, differences between the mapping of data between vendors and data processing systems, models and methodologies used, and the judgements, estimates or assumptions made, are rapidly evolving and this may directly or indirectly affect the metrics and data contained herein. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data. The figures are not subject to independent assurance by an auditor or other third party.

Indicator	Impact	Measure	Data Coverage %
Exposure to companies active in the fossil fuel sector	0	Percentage	90%
Violations of UN Global Compact Principles and OECD Guidelines for Multinational Enterprises	1	Percentage	90%
Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	0	Percentage	90%

Public

What were the top investments of this financial product?

The top investments of this Fund are set out below. As the fund closed in October 2025, these figures are percentages of net assets and are weighted averages of the market value as at the end of September 2025. For more information related to the closure of the Fund see full notice: https://fund-docs.vanguard.com/Vanguard_Funds_Plc_Shareholder_Notice_EN.pdf.

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 01/07/2025 to 30/09/2025.

Largest investments	Sector	% Assets	Country
Ford Motor Credit Co LLC	Financials	0.38%	United States
United States Treasury Note/Bond	Financials	0.34%	United States

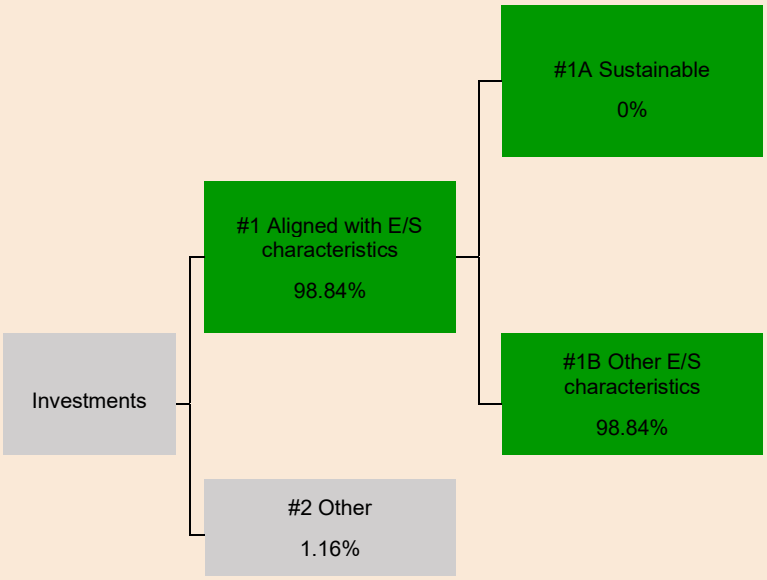
Public

What was the proportion of sustainability-related investments?

Please see the information below in this respect.



Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

The Fund invested 98.84% (compared to year end30 June 2025: 99.51%) of its net assets in line with the ESG requirements of the Index, which is consistent with the environmental and/or social characteristics promoted by the Fund. The Fund did not commit to making any sustainable investments. The Fund did not use indirect exposures (including derivatives) to attain the environmental or social characteristics promoted by the Fund.

The remaining 1.16% (compared to year end 30 June 2025: 0.49%) of the Fund's net assets are in other investments ("#2 Other"), which are not aligned with environmental and/or social characteristics promoted by the Fund.

The Fund closed in October 2025. Quarterly average data is based solely on month-end data as at 30 September 2025 and is not representative of a full reporting period.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

Public

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

While the Fund does not commit to making environmentally sustainable investments within the meaning of the EU Taxonomy regulation, the overall Taxonomy-alignment of the Fund, for the reference period, is set out in the table below.

The proportion of the Fund's investments that contributed to each of the environmental objectives is as follows:

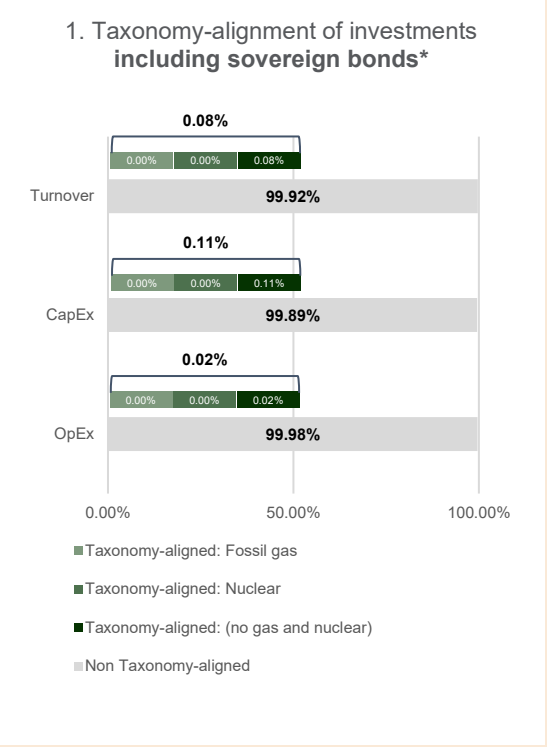
- Climate Change Mitigation = 0.01%
- Climate Change Adaptation = 0.00%
- Sustainable use and protection of water and marine resources = 0.00%
- Transition to a circular economy = 0.00%
- Pollution prevention and control = 0.00%
- Protection and restoration of biodiversity and ecosystems = 0.00%

The Fund closed in October 2025. Quarterly average data is based solely on month-end data as at 30 September 2025 and is not representative of a full reporting period.

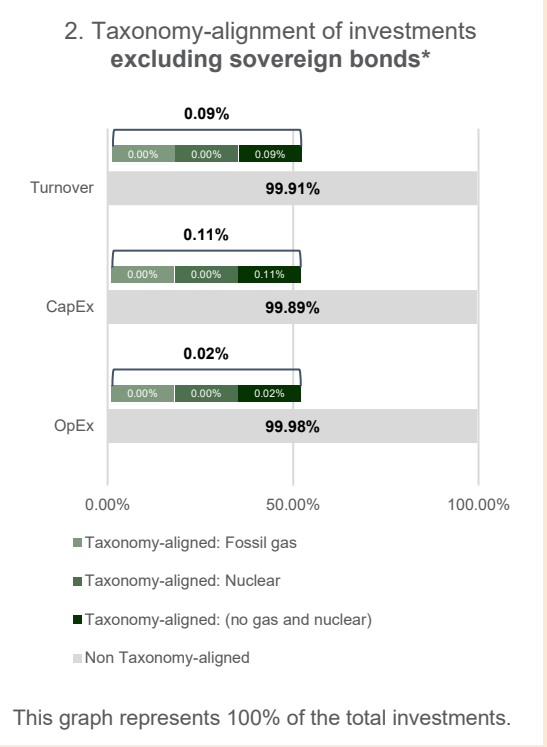
For this section, ESG data is sourced from third-party data vendors. There is currently no universally accepted way of reporting, rating or categorising ESG data and so, third-party ESG data may be subject to certain limitations (including in relation to the quality, timeliness, completeness and availability of such ESG data compared to financial data). The ESG data, differences between the mapping of data between vendors and data processing systems, models and methodologies used, and the judgements, estimates or assumptions made, are rapidly evolving and this may directly or indirectly affect the metrics and data contained herein. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data. The figures are not subject to independent assurance by an auditor or other third party.

Public

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?[1]



☐ Yes:



☐ In fossil gas ☐ In nuclear energy

☒ No

Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- **- operational expenditure** (OpEx) reflecting the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

** For the purpose of these graphs, "sovereign bonds" consist of all sovereign exposures*

What was the share of investments made in transitional and enabling activities?

The share of the Fund's investments made in transitional and enabling activities is as follows:

- Transitional Activities = 0.00%
- Enabling Activities = 0.01%

The Fund closed in October 2025. Quarterly average data is based solely on month-end data as at 30 September 2025 and is not representative of a full reporting period.

For this section, ESG data is sourced from third-party data vendors. There is currently no universally accepted way of reporting, rating or categorising ESG data and so, third-party ESG data may be subject to certain limitations (including in relation to the quality, timeliness, completeness and availability of such ESG data compared to financial data). The ESG data, differences between the mapping of data between vendors and data processing systems, models and methodologies used, and the judgements, estimates or assumptions made, are rapidly evolving and this may directly or indirectly affect the metrics and data contained herein. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no

[1] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Public

responsibility for errors or omissions in the data. The figures are not subject to independent assurance by an auditor or other third party.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

For this section, ESG data is sourced from third-party data vendors. There is currently no universally accepted way of reporting, rating or categorising ESG data and so, third-party ESG data may be subject to certain limitations (including in relation to the quality, timeliness, completeness and availability of such ESG data compared to financial data). The ESG data, differences between the mapping of data between vendors and data processing systems, models and methodologies used, and the judgements, estimates or assumptions made, are rapidly evolving and this may directly or indirectly affect the metrics and data contained herein. Transition to a circular economy	0.00	0.00	N/A	N/A
Pollution prevention and control	0.00	0.00	N/A	N/A
Protection and restoration of biodiversity and ecosystems	0.00	0.00	N/A	N/A

* The Fund closed in October 2025. Quarterly average data is based solely on month-end data as at 30 September 2025 and is not representative of a full reporting period.

** From year ending 2025 was the first reporting period in which Vanguard could report on all six EU Taxonomy environmental objectives, as taxonomy aligned data had only been made available from this year.
*** From year ending 2024 there was a change to the data provider. Given the differences in methodologies between the data providers, this could result in variance to the numbers shown in this disclosure than if the data had been sourced from one provider.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Public

The remaining 1.16% (compared to year end 30 June 2025: 0.49%) of the Fund's net assets are in other investments ("#2 Other"), which are not aligned with environmental and/or social characteristics promoted by the Fund.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined above, the Index excluded the bonds of issuers that MSCI determined to be engaged or involved in, and / or derive revenue (above a threshold specified by the Index provider) from, certain activities in order to promote the environmental and social characteristics of the Fund. In order to ensure that the Fund promoted such characteristics on an ongoing basis, the Investment Manager monitored the Index and its exclusions on a regular basis to ensure the alignment of the investment strategy with the methodology of the Index.

Rebalancing activity in ESG index funds is reviewed and overseen by several 'lines of defence', including Vanguard's portfolio management, risk management, investment data and product teams. Inputs from third-party data providers, consistent with the Index provider's own ESG data, were used to analyse Index constituents as part of this review process. This helped mitigate the risk of the Fund holding Index constituents that were inconsistent with the specified ESG screening criteria. Further monitoring is in place surrounding new issues which may be eligible for inclusion in the Fund between rebalances.

There are additional internal trade compliance controls, that checked whether new instruments bought were Index constituents as well as checking for any Fund holdings that may no longer be part of the Index. These checks aimed to confirm that out of Index holdings were not added and were removed in a timely fashion. The Investment Manager monitored tracking error (difference between portfolio and Index) on a daily basis and followed up on any significant deviations.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Please see the information below in this respect.

How does the reference benchmark differ from a broad market index?

The Index was constructed from the Bloomberg Global Aggregate Corporate – United States Dollar Index which was then screened for certain environmental, social, and corporate governance criteria by the sponsor of the Index, which is independent of Vanguard.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

See above.

How did this financial product perform compared with the reference benchmark?

The figures in the table below show financial performance (net) between 1 July 2025 and 30 September 2025.

Share Class	Fund Performance (%)	Reference Benchmark Performance (%)
